The Burlington railroad is also interested in this movement and offers an amount equal to \$3 per mile for the miles of road running through the county. Her mail is flooded daily with samples of various articles which might be of use to the women on their 230 mile journey—from hairpins to pedometers—and if the flood keeps up she promises an auction sale of her collection for the benefit of the cause.

Profiting from her experience on her recent march to Albany, the general has provided for each member on this trip a kit of selected medical supplies calculated to relieve all pains less serious than a broken limb. This time also her army will go uniformed in cloak and hood of flannel after the manner of the pilgrims of old.

Twelve women, Miss Jones announced today, have promised to walk every step of the journey, which is scheduled to begin on Lincoln's birthday and to be completed on February 25, in time for the marchers to recuperate for the inaugural parade in which they will take part. The twelve include Miss Ida Craft, Miss Lavina Dock, two of the original "hikers" to Albany.
