GRAIN AND PRODUCE MARKET

Cash Situation Little Better on Account of Buying by Millers.

CORN FLURRY IS A PUZZLE Many Grain Men Cannot See Cause of Strength in Corn Unless it is Movement on Buying Side of Market.

OMAHA, Feb. 7, 1917.

Wheat was strong during the entire day yesterday, but the only real lively lime noted in the market was during the last half hour of the seasion. Some of the course, the season speculators put out short lines and they covered on the advanced that have been as the course, that they make the miliers have been holding off for lower prices. A majority of the traders could see but little in the strength in coarse grains it might have been a different story. One trader agid the market had the appearance of being passed up, and he is working for lower prices eventually. Buils believe that purchases on the minor set backs will be rewarded, and intivational backs will be rewarded, and intivational backs will be rewarded, and intivational backs will be rewarded and in the series will not have things their own was in the near future. Cash wheat, lyrila halfer.

was that the holdings of exporters at the seaboard were for sale at bargain counter prices and that the cash demand counter prices and that the cash demand in all positions was as flat as the proverbial flounder. Resting orders, however, were held in the pit on the buying side of the market, and at a time when the situation looked the weakest and the market presented a friendless position on brokers holding these buying orders. Cash corn was light higher. The concerns that have been on the buying side for sometime, which not only drove many shorts to cover, but created a demand from investors. Cash oats was

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade. CHICAGO, Feb. 17.—Wheat sagged to-day under selling due largely to the genday under selling due largely to the generally favorable crop outlook and poor prospect for exports. The market closed steady at prices ranging from last night's level to '46% below. Corn finished '46% down and oats varying from '46% off to a shade advance. The outcome for provisions was 561% advance in cost.

Most reports on winter wheat indicated sufficient snow covering and said that other conditions were satisfactory. Even Nebraska fields have been sending no complaint. Milder temperatures northwest tended also to renew the courage of the bears.

bears. Several strong swells preceded the final Several strong swells preceded the final dip. Advances were based to a considerable extent on a rise at Liverpool, accompanied by word that drouth continued in India and that there was heavy absorption of wheat by European countries. A sharp falling off, however, in North American shipments proved an offset. Despite a brisk upturn at Buenos Ayres corn failed to hold after railies. Cotton houses were big sellers and country shipping points gave evidence of more ante points gave evidence of more

ative firmness developed in oats. Relative firmness developed in oats, owing to light receipts.

Lively demand for provisions was inspired apparently by an advance in the hog market. Realizing sales proved more restricted than has recently been the

NEW YORK GENERAL MARKET Announcement of Dissolution Plan Fails to Stimulate Trading.

EARLY RISE SOON ELIMINATED

nion Pacific Displays Strength at Times, Although Southern Pacific is Sold-Copper Issues Are Strong.

NEW YORK, Feb. : To those whose nterest in the stock market lies in the opportunities for speculation which it preents, the adion of the market today was usappopping The pronounced duliness of recent days has been explained partly

disappointing. The pronounced duriness of recent days has been explained partly on the ground that the market was awaiting news of the plans for segregating the Harriman line, but announcement of the terms over oight falled to stimulate trading to any scopreciable extent.

At the opening of the market today some effort was made to awaken interest. Traders isd up prices generally and the volume of business in the first hour was considerably integer than yesterday. But the pace did not hold. Trading tapered down to small proportions and the market flattened out to the same monotonus plane of recent days.

Union Pacific Shodings of this stock would increase the floating supply. The copper issues were strong. The check in the decline of copper metal abroad builth. would increase the floating supply. The copper issues were strong. The check in the decline of copper metal abroad strengthened these snares and induced some short covering. The copper producers statement of an increase in stocks in hand of nearly 18,00,000 pounds was in keeping with breilminary estimates and had no perceptible effect on copper shares. Bonds were liregular Total sales, pai value, \$2,372,000. Pamama is advanced in on call.

there were not enough cattle to really make a market, with the result that there make a market, with the result that there were no new or especially interesting developments. Such cattle as were offered generally commanded steady prices and pretty much everything had changed hands in good season in the morning. The market on beef steers has strengthened up considerably and prices are now 10% to higher than last week and in some cases possibly 15% to higher. Cows and helfers also have steadily worked up and they are as much as 10% 15% higher than a week ago and even

grades.
Stockers and feeders have been strong NEW YORK, Feb. 7.—SUGAR-Raw, sellers every day this week. Receipts of steady; Muscovado, 89 test, 2.88c; centrif-

lightest since the second week in Jahuary, when only 51,000 were reported durling the same period.

Opening bids this morning were 56210c
higher, but prices improved as the trade
advanced and the bulk of the supply
changed hands at figures that were a big
dime higher than yesterday's average
trade. It might be mentioned in this connection that the lighter weights showed
the big end of the advance, being generally 10275c higher, while the heavier
grades were no better than 56310c up. The
market was, if anything, stronger at the
close than at any other time, and was
active from start to finish. While everything moved up the discrimination against
the heavyweights is still decidedly in evidence, and even the choicer kinds were
rather slow to sell.

The most of the sales ranged from 37.50
677.55, with several loads of real heavy
suff below \$7.50 and quite a sprinking
of good lights at \$7.60. Some hogs soid
up as high as \$7.60, 15c higher than Thursday's top.

started out in good season and bought most of the offerings almost as fast as they could get at them at a general ad-vance of fully 10grise. As mean as trade commenced there seemed to be a broad demand for both sheep and lambs and if anything trade improved as the market progressed. Some fed Mexican lambs touched \$8.50, just 15c higher that the same kind of lambs sold on Friday. The bulk of the lamb offerings moved around \$8.50f8.75. As high as \$5.75 was paid for a bunch of fed western ewes. As already mentioned brisk trade featured the mar-ket and practically everything was dis-posed of in short order. Today's receipts ket and practically everything was dis-posed of in short order. Today's receipts were estimated at about nineteen cars or 4.684 head, being considerably more than a week ago, two weeks ago and a year

Irrigation Safe for Next Hundred Years

WASHINGTON, Feb. 7 .- There is nothing whatever in conditions in the west to warrant the belief that irrigation agriculture is in any danger of extinction today, tomorrow or within the next 100 years," asserts Secretary Wilson of the Department of Agriculture, in reply to a letter from Secretary Fisher objecting to the declaration of Dr. B. T. Galloway, thief of the bureau of plant industry, that so far as he knew there never had been any long continued successful irrigation farming on arid lands anywhere in the

The secretary adds, however, that there are conditions in the west needing the most careful consideration on the part of all those interested in the proper development of this vast region. He says Dr. Galloway in a recent statement to a house committee meant that "in many parts of the world where arid conditions prevail, such as Asiatic Turkey, Persia, Afghanistan, the extreme northwestern portion of India, parts of North Africa and our own southwestern country, Irris gation agriculture has had its periods of rise and decline,"

SETS FIRE TO HOUSE TO **BURN UP STOLEN SHOES**

W. M. James, colored "coke" flend, purned up his shoes and set fire to the floor of his room in the old Arcade as 115 South Tenth street, because he thought the police were going to arrest him for stealing the shoes. After starting the fire he went back to bed, where he was found asleep by E. R. Martin. The flames had burned part of the floor and set fire to the bed clothes. Martin put out the fire. James then begged Martin to take him out in the alley and kill him. Believing the man insane, Martin took him to the police station, where he is being held on the charge of vagrancy.

LIGHTED PIPE CAUSES AGED FARMER'S DEATH

SIOUX FALLS, S. D., Feb. 7 .- His clothes burned from his body. Peter Sels vert, a farmer aged 50 years, died from burns and exposure on his way home after buying groceries for his wife and five children at Humboldt, near here. A lighted pipe in his pocket is believed to

have caused the fire. BYRNE'S TAX COMMISSION BILL WILL BECOME LAW
