CHICAGO GRAIN AND PROVISIONS. OMAHA, Feb. IL-Northwest wheat Features of the Trading and Closing

OMAHA, Feb. 11.-Northwest wheat supplies are reported as being quite liberal. In the movement of this grain from the farms of that country, a real and pronounced additional load is ex-pected to be placed upon the shoulders of those owning the May future at Chi-cago. These conditions place the pro-ducer in a position where he will be en-abled to have more to say about the price of wheat them in some time has

Notwitzstanding that conditions of a domestic sort ruled wheat most of the day, prices at first were strong because india still needed more rain. Speculators, however, did not wait long to press the seling, as exporters declared no foreign demand existed for snipments from the built failed to alter the outlook. Big offerings of wheat southwest stared at the built. So, too, did reports that the flour trade at Minneapolis could scarcely become worse. Talk of alleged lack of snow protection had little effect and there seemed to be no rallying power in the pit when the last bell cleared the stores.

Cago. These conditions place the producer in a position where he will be enabled to have more to say about the price of wheat than in some time past. The interior elevator stocks of four spring wheat states, which also includes Moontana, are said by those who are in a position to know, to be the largest in many years. There have been only a few complaints from the winter wheat bet resarding the probable losses which will be shown with growing weather in the spring. This news more than any few complaints from the winter wheat bet resarding the probable losses which will be shown with growing weather in the spring. This news more than any far that favorable crop reports in the southwest would lower prices all around. The conditions surrounding the wheat out of hands of those in the northwest, as they fear that favorable crop reports in the southwest would lower prices all around. The conditions surrounding the wheat in character and were not only against any advance in price, but were also in favor of declines. The leading one was probably the willingn. On the part of longs to fill up all those who cared to make purchases of wheat it was generally believed that those who now hold the May future is being sold her july is being taken. Only 45,000 businels of cash wheat were sold in the Chicago market yesterday, which was anything but encouraging to those who believe prices are likely to advance. Cash wheat was 'go lower. The fact was clearly demonstrated yesterday that the longs in May corn nave the likely to experience trouble in covering. There was considerable presition on the july future caused, it was generally believed, by some selling of that month by scattered interests who are long the May option. There will be no market in Chicago or omaba figure cause. There will be no market in Chicago or omaba figure cause, it was generally believed, by some selling of that month by scattered interests who are long the May option. There will be no market in Chicago or ownere the wille the day downer. There will be n to terms. The self of the self cleared the terms of the self of th
