SOCIETY BEE-HIVE

By MELLIFICIA. Thursday, February 13, 1913.

AN INTELLECTUAL wave seems to be sweeping over society. Debutantes, society girls and matrons are rushing from one lecture to another instead of from one series of teas, luncheons and dinners to others.

Under the auspices of the Sacred Heart Alumnae association of Park Place convent, Dr. Sidney Woollett of Boston is giving a series of four educational lectures, starting Wednesday afternoon and continuing each afternoon for the rest of the week.

Dr. James Walsh of Georgetown will also deliver two lectures at the convent, March 14 and 15.

This morning society attended the exhibit of the Omaha Society of Fine Arts, which is being held on the third floor of the public library. Early in the morning the street in front of the building was lined with motor cars and the owners were listening to the talk given by Mr. T. L. Kimball to the members of the society on the collection which is hung for exhibition.

Each year the society buys one of the pictures in the collection. This morning Mr. Kimball recommended several for purchase, as he spoke of the pictures in his impromptu lecture to the women. "On the Palisades," by Alexander Bower, who is a young artist, was highly recommended by Mr. Kimball. He predicted a great future for this artist.

Mrs. Samuel Caldwell is chairman of the entertainment committee for the afternoon and Mrs. Nathan Merriam for the evening.

The Gold Dust Twins' Philosophy

DOES it occur to you, my friends, that woman's labor never ends—that is, if she's inclined to be a trifle stubborn constantly. Some housewives glory in the thought that battles won must be re-fought.

First Aid to The Housewife This jingle is for those who try to smile at toil and reason "Why," who will not let the household cares crush down life's other glad affairs. You'll find, where Mrs. Smith or Brown thus reason, in a certain town, that Gold Dust helps to minimize the number of back-aches and sighs.

The Gold Dust Twins forever toil, with dirt and trouble as a foil. They start each morning, at the top, and only after night-fall stop. Theirs is to DO if NOT to DIE—Theirs is to never question "why?" At kitchen tasks their talents shine; the floors they polish up are fine; in fact, no matter where they go they leave a spotless trail; and so, like sunshine, when the sky is grey they help to drive the clouds away.

Each grain of Gold Dust also shares in cleaning up the household wares; each mop it touches seals a bond, to make a mop a fairy wand; each brush or cloth holds regal sway in driving dirt's dull care away.
