AFFAIRS AT SOUTH OMAHA

Ryan and Pivonka Clear Out of Police Situation.

NO APPOINTMENT IS INTENDED

New Charter Bill Pravides for Election of New City Officers, Including This Board, in May of Next Year.

it would appear that Mayor Tom Hocfor and his charter committee have no idea of splitting the executive's power as the grand pashs of the police board, sccording to the tenor of the extension bill that has floated about the city. Pollowing the ouster of Ryan and Pivonka from office, a demand was made on the chief executive to reappoint the two men ousted. Later it was intimated that the mayor was "considering" some names for the places vacated by Ryan and Pivonka. Still later when the friends of the latter two men raised a howl it was given out that possibly an election including only the school commissioners and the fire and police commissioners would be held

The bill says that all the officials, insluding fire and police commissioners. will be elected in May, 1914. This means that neither Ryan and Pivonka can get a chance at the vindication which they hisist they will have. No move has been made in the direction of appointing men to take their places. Further than this it is not generally expected that Hoctor will make the move unless compelled to do so by court order. He and his charter committee apparently have arrived at a pass when they intend to see the game through according to their own rules, if they can. It is not generally hoped even by the office holders that the extension will be granted. Some of them are against it. This includes some of the council and executive officials it is said.

Minister Preaches Sermon. That the citizens are aroused over the way the town has been run by the gang in power is manifest from the fact that prominent and courageous clergyman In the southeast section of the town is said to have compared the city to "Sodom and Gomorrah" in a recent sermon. Some of the members of the same church say they had to have recourse to a personal visit to Hoctor in order to close up un alleged resort on Q street. Pool halls that were ordered closed a few nights ago have been allowed to reopen, it is said. Prominent citizens said yesterday that if Hoctor and his charter committee attempt to defeat the will of the people by obtaining an extension of term they will get out and start a recall movement even with the handicap of having to obtain 25 per cent of the voters to such a petition. The fight on the term extension,

they claim is just started. Basket Ball Tenight. Tonight the girl's basket ball team of the South Omaha high school will meet Peru Normal team. The South Omaha girls are in good form and expect to defeat Pern. The game will be played at the high school gymnasium at Twenty-fourth and G streets at 8 p. m. The boys' basket ball team will go to Fremont to toss baskets with Fremont's

team. The team is in good condition and expects to win. Those making the trip are Shirley, Menefee, (c.) Louis Foley, Paul McBride, Frank O'Conners, Edward Fitle, Lawrence Sullivan, and Clark

Becomes Accredited School. South Omaha High school will be a school with grades accredited by the Chicago university at the close of the visit of Dr. Nathaniel Butler, dean of professional courses, who is now on visit to Omaha and South Omaha. Dean Butler for several days has been making a tour of inspection through the high school, and it was given out yesterday by Superintendent of Schools N. M. Graham that the local high school would undoubtedly become one of the accredited

feeders to the great university. While here yesterday Dean Butler ad-dressed the students and teachers. He warned against the appeal of the 'socalled self-made man as an argument against regular school training. The speaker emphasized the point that school training brought out what bent the student should follow in his life work. Education, he said, was a development, a means, not an end.

Use Unwarranted Methods. Unwarranted methods of obtaining protest against the merger of the postoffloer are still in vogue, according to some of PIONEERS TO GIVE SOCIAL resent the attempt of a certain politician to infringe upon the rules of the union. According to a story told by leaders of the local union, a democratic politician assisted in "borrowing" some official pawere then drawn and written conere later presented to the barbers at a meeting held last week. Then the letter was sent on to the postoffice inspector. Officers of the local union say the action of the politicians and such members of union as abetted him was unwarranted and not permissible, according to the constitution of the barbers' union. It is probable that the national officers may be called upon to look into the mat-

May Build Swimming Pool. If the increase asked for by the Park board is granted by the legislature, a swimming pool will be built in Spring Lake park this year. Members of the board made a trip of inspection through the parks Wednesday and decided that a number of springs near what is known as the upper lagoon, near F street, will make an ideal place for the construction of a concrete awimming pool. Engineer Herman Beal will prepare the plans.
