has already turned down this item and it is a certainty that it will not be taken up over the recommendation of the committee. The committee, incidentally, put one over on C. S. Paine, the guardian of the interests of the society, when it declined to recommend to the house a lump appropriation to be partitioned out by the officers of the society. Mr. Paine has been a persistent and consistent hanger-on around the legislative halls this winter and on previous legislatures, but he seems to have run against a snag this year.

hours some features not in the Ollis bill. Senator Dodge, who is a strong advocate of the employment of convicts in the building of new state institutions, succeeded in getting that provision incorporated in the new bill. The two bills stipulated that no relative of any member of the board of control should be employed in a state institution except the wife of the superintendent. The new bill goes further than that in that it includes that no relative of a superintendent or head of a state institution shall be employed in an institution.

board. Neither can he look with longing eyes toward an office of either kind for one year after he has quit the board. Each member of the board will draw a salary of \$1,000 a year with actual traveling expenses, and the board shall be provided with a secretary who shall draw \$2,000 a year. Just as many assistants as are needed can also be given jobs at reasonable salaries and the whole bunch shall have offices in the state house.

Whenever the board makes up its mind that a state institution should be visited they cannot herd their approach beforehand, but must enter secretly and take the management unawares and proceed to get busy before it is known that they are on the job. Once in two years the governor shall appoint two women, residents of Nebraska, one of whom shall be a practicing physician, who shall visit each institution annually and report in writing what they may discover. They will receive a spend of \$10 per day with their traveling expenses, which shall be itemized.

WORK OVER BOARD OF CONTROL Ollis Bill Taken as Foundation for Efforts Along This Line. (From a Staff Correspondent.) LINCOLN, Feb. 15.—(Special.)—The committee of three consisting of Senators Cordell, Dodge and Wink, who were appointed by the senate to go through the two board of control bills and report upon the best features of both of them and consolidate them into one bill and report to the senate, has finished its labors and on Monday the report will go before the senate and be taken up by the committee of the whole.

To Report Monday. The bill as it will be reported Monday will provide that the board of control shall consist of three members, not more than two to belong to the same political party, nor two of whom shall reside in the same congressional district. The senate shall consider no nominations, which shall not first have been referred to a committee of five appointed by the president of the senate, not more than two of whom shall belong to the same political party. This provision would indicate that there would have to be a third party representation in the senate, though at the present time they are all tagged as republicans or democrats. This would indicate also that possibly there might be a bull moose on that special committee.

Each member of the board must devote his whole time to the duties of the board and shall not be eligible to any office during the time he is a member, nor shall he be eligible to appointment to a position under the control of the state.

ARE YOUR KIDNEYS WEAK? Thousands of Men and Women Have Kidney Trouble and Never Suspect It.

DR. KILMER'S SWAMP-ROOT Kidney, Liver & Bladder REMEDY. Nature warns you when the track of health is not clear. Kidney and bladder troubles compel you to pass water often during the day and get up many times during the night. Unhealthy kidneys cause lumbago, rheumatism, catarrh of the bladder, pain or dull ache in the back, joints or muscles, at times a headache, indigestion, as time passes you may have a swollen complexion, puffy or dark circles under the eyes, sometimes feel as though you had heart trouble, may have plenty of ambition but no strength, get weak and lose flesh.

Prevalency of Kidney Disease. Most people do not realize the alarming increase in the prevalence of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physician, who usually content themselves with doctoring the effects, while the original disease constantly undermines the system. If you feel that your kidneys are the cause of your sickness or run down condition, begin taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because as soon as your kidneys improve, they will help the other organs to health. If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at all drug stores. Don't make any mistake but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., which you will find on every bottle. Sample Bottle Sent Free.

SULZER WANTS MONUMENT BUILT WITH EXPOSITION FUND ALBANY, N. Y., Feb. 15.—Part of the \$700,000 to be spent by New York state for representation at the international Panama-Pacific exposition to be held at San Francisco in 1915 should be used for the erection of a monument at the Golden Gate to perpetuate some great world thought, in the opinion of Governor Sulzer. He believes a memorial can be erected for \$200,000. The governor recently said he believed it would be a great waste of the state's money to spend nearly all of the \$700,000 for the erection of temporary buildings.

CASTRO GIVEN FREEDOM FIREMEN REJECT NEW PLAN Amended Offer of Railroads to Arbitrate Not Satisfactory. ALL NEGOTIATIONS ARE UPSET Strike Order Directly Involving Thirty Thousand Men Probably Will Be Issued in a Few Hours.

NEW YORK, Feb. 15.—Officers of the Brotherhood of Locomotive Firemen and Enginemen voted unanimously today to reject the amended plan of arbitration submitted last night by fifty-four eastern railroads. This upsets all negotiations looking to peaceful settlement of the wage controversy and leaves the strike order, already printed, hanging on a thread. The firemen's decision, reached at a forenoon conference, was immediately communicated to Judge Martin A. Knapp of the United States commerce court, who, with others, has been acting as mediator in the dispute. Judge Knapp was obliged to go to Washington this afternoon on business connected with the commerce court, but G. W. W. Hanger, acting United States labor commissioner, remained here and continued his efforts at mediation. Mr. Hanger sent the notice of the firemen's latest decision to the railroad managers as soon as he received it. Judge Knapp expects to return here Monday afternoon.

WILSON NEAR DEATH FROM RIFLE BALL IN AMERICAN EMBASSY (Continued from Page One.)

Government May Appeal. WASHINGTON, Feb. 15.—Officials of the immigration service declared that Castro might still be arrested and deported by the secretary of commerce and labor on charges of being in the United States in violation of law. In that event a warrant of deportation would be issued on the same allegations that caused Secretary Nagel to deny him admission. Another alternative under consideration is the question of appealing from Judge Ward's decision. Secretary Nagel intimated that this course probably will be taken.

Attempt Made to Block West Virginia Bribery Inquiry CHARLESTON, W. Va., Feb. 15.—What was declared to have been a determined attempt to block further investigation of the alleged bribery charges in the United States senatorial matter was made in the senate today when Senator Gray Silver, democrat, introduced a bill to abolish the intermediate court of Kanawha county, now engaged in the investigation. Many republican senators were not in their seats, among them Senator England, in whose district Kanawha county is located. Many members believed the bill was nothing more than a joke, but it was quickly advanced to its third reading before Senator England, who had heard of it, could get to the senate chamber. Securing recognition he opposed the measure. Others joined in the protest and the bill was finally tabled.

MACHINE WILL MAKE THE UMPIRE INFALLIBLE CHICAGO, Feb. 15.—President Ben Johnson of the American league announced his intention last night of investigating a device of a Medford, Mass., man who claims that by its use umpires can make no mistake on their decisions as to balls and strikes. A letter was received by the league president giving a few ideas of the invention, which was said to be patented after the telescope and he says that if it is all that is claimed for it, there is a likelihood that it would be a valuable addition to the base ball field.

TWO MEN HURT BY TRAIN NEAR BRISTOL, S. D. ABERDEEN, S. D., Feb. 15.—(Special Telegram.)—Southbound Milwaukee passenger at Bristol, S. D., last night struck a wagon driven by Rasmus Tenvik and Sever Erdahl seriously injuring both men, killing one horse and demolishing the wagon. Tenvik is still unconscious, but Erdahl is recovering. Both men are single, and about 30 years of age. Fire at Bristol, this morning, destroyed the Bristol Grain company's elevator, causing loss of 10,000. The fire started from an unknown cause, and burned rapidly.

NEBRASKA ALUMNI IN WASHINGTON MEET (From a Staff Correspondent.) WASHINGTON, D. C., Feb. 15.—(Special Telegram.)—The Washington alumni of the University of Nebraska held a banquet tonight at the Continental hotel. Forty-five persons were present. Frederick K. Nielson presided as toastmaster and introduced the speakers, among whom were former Chancellor George B. Mac Lean, Dr. W. M. Davidson, formerly superintendent of the Omaha schools and at present in charge of the Washington schools; Dr. Shear of the Department of Agriculture, a former graduate and one of the leading botanists in the government service, and Representative Maguire.
