2,285 Culkin is the ninspin star of Magic City. He meets all comers.

Dad Hall is still in form. He recently rolled a 683 score on Garlow's alleys. Wood Hartley's thumb is as raw as a piece of steak, but he continues to bowl with it.

Beselin won the meal ticket last week with a 249 game. Herman has quit carry ing his lunch. The race in the Gas league is close. The Intenson and Eclipse Ranges are hard after the flag.

Jack Cobry was the happy, little lad Monday night. He rolled a total of \$42, including a 201 single game. Tonight on the Association alleys two picked teams of the Standard Oil Bowling club will line up in match. Pete Peterson still holds his own in the bowling game. He slips in a 200 now and then, likewise a 320 score. Sam Winters claims the hard luck championship of South Omaha. He says he gets more splits than any other six bawiers.

and are still winning.

Martin took a trip over to his o'd home drives in Des Moines last Sunday. He reports that the game is progressing in that city, but that they are still far behind Omaha.

The Yellowbacks and All-Day-Sucker teams of the City association are still at it. They pulled off another match Sunday with Captain Hoffman's All-Day-Suckers, coming out on ton.

Suckers, coming out on top.

It has been suggested that Secretary Hoffman of the City association be given a salary. Mr. Lane has raised a strong objection to this, claiming that a Pittsburgh stogic will not only satisfy Hoffman, but will be enough for him.

The members of the City association are planning another stunt for the bowlers, in the way of a theater party. About 200 tickets will be reserved. The winners of the different events in the city tournament will be presented with medals at this time. The theater has not been picked, but a committee has been appointed.

Scuntor Culberson Sees Danger of Giving Federal Protection for Long Period to Securities

of Trunts. WASHINGTON, Feb. 22.-The proposed 100,000,000 Rockefeller foundation for berevolent purposes constitutes the safest disposition that can be made of that portion of John D. Rockefeller's immense fortune, is the conclusion expressed in a majority report from the senate judiclary ommittee to the senate recommending the passage of the Rockefeller foundation

"This money is now in control of a private individual, who could, if he chose, direct its use to purely private ends for considerable period after his own death," said the report. "Instead of this ne proposes to place it, subject to congress, in control of a body of men now actually administering well known charities of acknowledged usefulness."

In an opposing report, Senator Cuiberson attacks the proposed incorporation for the Rockefeller fortune, on the ground that it might give federal protection for fifty or 100 years to great amounts of securities of the Standard Oil company or other monopolics.

prise contemplated by this bill." In his opposition Senator Culberson takes the opposite view of the protection given the public by the proposed incorporation. "It is not sound policy to concentrate and tie up in the hands of a few men such a vast sum of money." he says. "So also the policy is unsound of chartering a corporation with such powers and putting no limit or restriction on the character of the vast sums which are to be received by it for use and distribution without legal check or hindrance. Will the funds be in part or in whole the securities of the Standard Oil trust or other gigantic monopolies? "It seems clear to me that congress should not thus encourage and foster the massing and holding together of such vast finances nor lend its authority to the perpetuation of the fruits of combinations and conspiracies against the public weal."
