She has for several days the Union Pacific, Mr. Sproule, president band be saved from death and General follow him on the stand tomorrow. Huerta has personally assured her Madero will not be killed.

More Charges Agains Charges which are not altogether substantiated were made today by the new authorities, tending to indicate that the Madero administration in its extremity was contemplating a wholesale slaughter. More than one alleged list of names of those proscribed has been found.

A police officer declares Francisco Madero personally and verbally gave him a list of forty-three deputies, a number of senators and of newspaper men, including the foreign correspondents, with instructions to have them assassinated. The police officer said that since this order was not in writing he did not feel obliged to carry it out.

Such stories as this have created a bitter sentiment against Francisco Madero and have caused a number of men whose names were on the lists to use their influence to secure summary pun-Ishment for the fallen president.

MASONS PLAN MEMORIAL TEMPLE FOR WASHINGTON

ALEXANDRIA, Va., Feb. 21.-When the third annual meeting of the George Washington Masonic Memorial association was called to order today, masters from thirty-five states had arrived prepared to welcome President Taft when he reached here in a private car from Washington over the electric line. The principal topic of discussion at the morning session was the erection of a temple to this city as a memorial to the first president. The sessions will last over until tomorrow, and tomorrow morning a pilgrimage will be made to the tomb of Washington at Mount Vernon.

Attorneys in Hyde Trial Engage in Angry Wragling

rangle of the third trial of B. Clarke Hyde for the murder of Colonel Thomas H. Swope took place today, when attorneys for the defense complained that they had been denied the right to examine the Swope viscera through the own experts. John Lucas of defense coun sel, made the assertion that the viscer had been "tampered with." A proposition made by Prosecutor Jacobs that the Rebel Generals Refuse to Announce viscera be submitted for examination to a commission of experts to be appoint. by the court was rejected by the defense after the court had offered to appoint such a commission.

The wrangle started when the prose cutor became angry at the repeated irquiries by Attorney Walsh as to "what became of the Swope liver.

This is a play to the jury," shouted Proxecutor Jacobs. "The defense well knows that the liver was reduced in examination to make the slides used by the toxicologists.

When, after defense attorneys had made further complaint at being denied the viscera, Prosecutor Jacobs sprans to his feet and made the offer to submit to a commission what was left of the viscera. Attorney Walsh made the counter charge that the prosecution "playing to the jury." and rejected the

WASHINGTON, Feb. 21,-Intervention of the United States government to se cure justice, or at least a fair trial for fallen President Madero of Mexico, as announced by Secretary Knox at the cabinet meeting today, was an unexpected development of the State department polley in regard to that republic. As recently as vesteroay it was announced that there was no intention to depart from the policy of nonintervention in the Mexican troubles.

It appears, however, that this statement was based upon the natural assumption that the newly established Mexcan government would observe the amenities of civilized warfare in its treatment of prisoners of either high or low degree, and when the killing of Gustave Madero gave ground for genuine appre hension for the fate of the ex-president it was felt that the time had come to stretch forth a restraining hand.

Diaz's Life Once Saved by U. S. The administration feels that it has not in any manner departed from its policy of strict neutrality. Its action was purely impersonal and probably would have followed as surely had General Diaz been captured by Madero and threatened with death without the process of law. The fact is, though not officially admitted that In an unofficial manner the State department did bring to bear influences which saved Diaz from death when he was captured by General Beltran at Vera Crute liest fall.

It is believed that the Mexican people themselves, after the heat of combat is State Conservation Congress Favors over, will be the first to express gratitude to the United States government for preventing the placing of such a blot upon the reputation af their country as would follow what practically would amount to murder of a deposed president. It is recalled in some quarters that the of the administration in the case been tireless in pleading that her hus of the Southern Pacific company, will that taken forty-six years ago when of Madero is precisely the reverse of President Andrew Johnson refused to intervene to prevent the shooting of the unfortunate Emperor Maximillian, who was by a singular coincidence betrayed by the military leader, General Lopez, who was his main reliance.
