CONFESSES COUNTERFEITING

George Nicholson Admits Making Dollars on His Homestead.

LIVED SOUTH OF HECLA, NEB.

Gives His Confession to Government Officials, but Says the Three Men Arrested with Him Are Not Guilty.

Dollars of a combination of habbit and tin were made by George Nicholson on his homestead near Hecla, Neb., according to a confession he made at the hearing before United States Commissioner Daniel. The three men arrested with him were dismissed, as he said they had nothing to do with the counterfeiting. Nicholson is held to the grand jury, which is to meet beginning March 10. Nicholson made a signed statement as follows: "My name is George Nicholson. I am 42 years old. I reside at 709 North Sixteenth street, having resided there altogether two months and a half. With reference to the charge against me of

having in my possession certain counterfeit dollars, I have to say: That I had in my possession when arrested three counterfeit silver dollars; I also had in my trunk at the Maggard Van and Storage company in Omaha, Neb., approximately 400 or 410 counterfeit silver dollars. I knew all the time this money was counterfeit, and had it in my possession with the intention of passing the same. I also had in my possession two molds for making silver dollars and one polisher. The molds were made by me. I ordered the polisher in Chicago, Ill. I had the molds and polisher in my possession on my homestead, twelve miles southwest of Hecla, Neb. All of the silver dollars in my possession were made on my former homestead by me. I am guilty of the charge against me, and am ready at the first opportunity to enter the plea of guilty. None of the other three parties charged with me knew I had the money in my trunk except Barton, whom I told two or three days before the arrest that I had them. He never saw any of the money in the trunk. After the hearing Nicholson in conversation with Captain Haze said the dollars were made of habbit and tin. Asked

how long it took him to make the 400 and more dollars in his possession, he said: "I can't hardly say how long, for I worked at them nights." Nicholson and three other men were arrested a few weeks ago at 709 North Sixteenth street. Later Captain Haze of the United States marshal's office located Nicholson's trunk at the storage-house and found over 400 counterfeit dollars as well as molds used in making them. The dollars are rather crude. They are devoid of ring and have a dull leaden appearance. Besides they will write on paper like a lead pencil.

Health Warning.

Make every effort to avoid having damp chilled or wet feet. Chilling the feet results in congesting the internal organs, and inflammation of the kidneys and bladder, with rheumatic twinges and pain in the back, generally follow. Use Foley Kidney Pills. They are the best medicine made for all disorders of the kidneys, for bladder irregularities, and for backache and rheumatism. They do not contain habit forming drugs. Tonic in action, quick in results. For sale by all dealers everywhere.—Advertisement.

WEST COVERED WITH SNOW

White Wet Blanket to a Depth of from One to Ten Inches.

AND SNOW IS STILL FALLING

Farmers Rejoice Along with Railroad Officials and Grain Men, for It is of Immense Value to Crops.

A blanket of snow from one to ten inches in thickness covers Nebraska and as the hours pass it continues to grow thicker, for it is still snowing. This is the report coming to all of the Omaha railroads. Railroad and grain men do not hesitate to say that the snow that has been general over all Nebraska, most of Kansas, Colorado, Wyoming and a greater portion of the south half of South Dakota will be of incalculable value. No attempt has been made to make an estimate on what the snow coming at this particular time means, but it is agreed that it will add millions of dollars to the crop yield of the state. The snow is damp and heavy and is not drifting. The fall is heaviest from the central part of Nebraska west, but all through the Missouri valley reports indicate from one to three inches, with the fall continuing. Railroad reports indicate that the snow-fall began on the east slope of the Rocky mountains and worked east. In the vicinity of Denver and north through central Wyoming the reports to the Burlington headquarters here indicated from ten inches to a foot of snow and at almost every station still snowing. Along the Northwestern line there was snow all the way from Omaha to Lander, Wyo. From Norfolk west and in South Dakota along the Northern line, the snow had a reaching a depth of from two to four inches and was still snowing hard. Temperatures generally were around 15 to 24 degrees above zero.

Snow Everywhere.

On the Burlington there was snow everywhere. On the line to the northwest, Broken Bow, Beneca, Whitman and a dozen other points this side of the Wyoming line reported four to six inches. On the Lincoln division and worked east. In the morning report was sent, the snow had a reaching a depth of from two to four inches, with three inches over practically all of the Wynmore division, which covers much of the South Platte country. On the McCook division, much of the territory which is in the South Platte section, and where winter wheat is a leading crop, there was a fall of three inches at Minden, Holdrege, Republican City, scores of other points, with four to five inches over the entire country around McCook, Benkelman and Red Cloud. From McCook west the snow had attained a much greater depth, there being from six to eight inches over southwestern Nebraska and eastern Colorado. For more than 100 miles between Brush, Colo., and Alliance, Neb., the snow at 8 o'clock had reached a depth of from five to ten inches, and more was coming. On the St. Francis branch of the Burlington and way down into the central portion of Kansas the snow ranged from three to eight and in a few places ten inches in depth. Along the Union Pacific there was a heavy fall of wet snow from Omaha to Cheyenne, being heaviest west of Grand Island. At Grand Island there was a fall of two inches. Three at North Platte and five to six around Kinsail and west. Along the Missouri Pacific heavy snow was reported as along the Nebraska and Kansas lines, in many places it attaining

a depth of from four to six inches. The snow seemed to be heaviest west of a line that runs to seventy-five miles west of the river. Between Omaha and Kansas City there was snow all the way, but generally not to exceed an inch. However, it was wet and filled with water, much of it melting about as fast as it fell.

Communication is Cut Off. KANSAS CITY, Feb. 21.—The midwestern was cut off from communication with the rest of the country. A series of snow, sleet and rainstorms prevailed. Trains were delayed and telegraph and phone wires demoralized.

In Kansas, Nebraska and South Dakota a snow of from one to three inches was general. Iowa, Missouri, Arkansas, Oklahoma and north Texas experienced cold rains, which at many points turned to sleet, while Illinois reported a blinding of sleet and snow.

Rain and Sleet in Chicago. CHICAGO, Feb. 21.—Rain and sleet partially paralyzed street car and elevated line traffic in Chicago for a time today, for the icy coating of the streets later melted into a disagreeable slush. Hundreds of telegraph and telephone wires were reported down, not only in this city, but in the surrounding country. Railroad trains had hard going over

glassy rails and mails in consequence were delayed for hours.

BODY OF MRS. H. D. REED IS BURIED AT PROSPECT HILL

The funeral of Mrs. Harry D. Reed, who died Wednesday evening as the result of an attack of heart failure following a severe case of pneumonia, was held yesterday afternoon at 2 from the family residence at 4111 Farmann street. Rev. Manfred Lilliefors of the First Unity church conducted the services and spoke feelingly of Mrs. Reed's work in the church. Floral tributes were many and beautiful and the services were attended by a host of friends from Omaha and surrounding cities. The pall bearers were Henry S. McDonald, Frank A. Rinehart, Frank B. Johnson and E. E. Kimberly. The body was interred in Prospect Hill cemetery.

PUBLIC IS INVITED TO VISIT THE HIGH SCHOOL

Saturday afternoon, March 6, the High school will keep open house to celebrate the completion of the building and its opening for school use. No formal opening followed the completion of the

building and Miss Kate McHugh, principal, has announced that the public is invited to visit the school on "open house" day.

CHARWOMEN MUST WORK FULL NUMBER OF HOURS

On account of some misunderstanding the charwomen of the federal building have been working 3 1/2 hours per day for many years instead of five hours as the regulations require. An order has just been issued from headquarters at Washington that the women are to put in the full five hours per day, as they do in all other federal buildings in the country. They come at 5:30 in the morning and clean offices until 9 o'clock. By that time they are supposed to be out of the way with their work so that the offices are ready for the day. At 4 o'clock in the afternoon they come back and work until 8:30 in the evening. During the time from 9 in the morning until 4 in the afternoon many of them work at other jobs in the city.

A Viper in the Stomach is dyspepsia, complicated with liver and kidney troubles. Electric Bitters help all such cases or no pay. Try them. 50c For sale by Beaton Drug Co.—Advertisement.
