MUST KEEP UP ENTHUSIASM

National Bull Moose Committeeman Urges Activity Among Partisans.

EXECUTIVE MEETING SOON

Representatives of the Progressive Movement Over the State Are to Hold Meeting Within a Little While.

E. M. Lee, national bull moose committeeman from Indiana, has spent a day and a night in Omaha talking political business to the bull moosers of Omaha. He met Nathan Merriam, national committeeman from Nebraska; Dr. W. O. Henry, president of the Roosevelt club in existence here last fall, and a number of other prominent moosers of Omaha. He is on a scouting tour of the country, stopping in the cities and meeting the leading bull moosers face to face, trying, as he goes along, to inject some enthusiasm into them for the fight in the future.

Somehow a luncheon was arranged for several of the moosers at the Paxton hotel Friday noon, and there Lee told the fellows across the table what the national committee has already said, that the organization must be kept up by strong state, county and precinct organization all over the country. He told them the national committee would be in a position to furnish literature for the organizations throughout the country.

FIFTH BRIGADE GOES TO GALVESTON UNDER COMMAND OF SMITH

(Continued from Page One.)

can situation. Considerable expense is involved in today's orders, mainly under the head of transportation charges, but the officials believe this is justified by existing conditions. It is believed, too, that the moral effect probably to be produced upon the extreme elements in Mexico by a demonstration of a disposition of the United States to deal firmly with any relapse into semi-barbarism in the treatment of President Madero and his adherents will prove economical in the end as obviating the necessity for an actual invasion of the country.

The troops will be temporarily stationed at Fort Crockett, on Galveston island, and the supply depot will be established at Texas City.

Seventh Regiment Ready. LEAVENWORTH, Kan., Feb. 22.—Fifteen hundred men and 120 officers, comprising the Seventh United States Infantry, first battalion Nineteenth Infantry, Company D signal corps, company E Engineer corps and the field hospital corps, made immediate preparations for embarkation following receipt today of a dispatch from the War department ordering the fifth brigade, second division, United States army to Galveston.

Officers at the post said embarkation probably would be completed by 7 o'clock tonight.

Upon previous orders the post quartermaster had arranged with the railroads for transportation. Within thirty minutes after the receipt of the order freight cars were being backed into the post. Four trains on the Missouri Pacific railway will convey the four infantry battalions, three trains on the Atchison, Topeka & Santa Fe will transport the signal, engineer and hospital corps. It was expected the first troop trains would depart late this afternoon.

Bakery Goes to Front. FORT RILEY, Kan., Feb. 22.—Field Bakery No. 2 was ordered immediately to Galveston, Tex., prepared for active service, through a dispatch from the War department today. Thirty-eight men with portable field ovens prepared to embark tonight.

Governor of Texas Is Angry. MEXICO, Tex., Feb. 22.—"I think the president is all right, but he does not seem to understand that if the federal government does not protect the border with troops by Monday the state of Texas will." This was the declaration of Governor Colquitt of Texas today, discussing the situation along the Rio Grande.

"I am keeping in close touch with the situation on the Texas-Mexican border," added Governor Colquitt.

A WARNING TO MANY

Some Interesting Facts Regarding Health Statistics.

Few people realize to what extent their health depends upon the condition of the kidneys. The physician in nearly all cases of serious illness, makes a chemical analysis of the patient's urine. He knows that unless the kidneys are doing their work properly, the other organs cannot be brought back to health and strength.

When the kidneys are neglected or abused in any way, serious results are sure to follow. According to health statistics, Bright's disease which is really an advanced form of kidney trouble, caused nearly ten thousand deaths in 1910 in the state of New York alone. Therefore, it behooves us to pay more attention to the health of these most important organs.

Taft Celebrates Holiday at Many Affairs in Gotham

NEW YORK, Feb. 22.—President Taft is spending Washington's birthday in New York, making what are probably his last public appearances outside of Washington before retirement from the presidency.

He arrived from Washington shortly after 7 o'clock this morning and before the city was astir he and his party were driven to the home of his brother, Henry W. Taft, for breakfast. Mrs. Taft and her sister, Mrs. Thomas Laughlin, accompanied the president as did Major Rhodes, his aide, and Charles D. Hiles, his secretary.

Three events were on the president's program for the day and evening, as the first of these was at Fort Wadsworth, on Staten Island, overlooking the harbor entrance, where ground was to be broken for a memorial to the American Indian—which may some day display the Statue of Liberty as the first monument to be seen by the voyagers arriving at this port.

Chiefs representing fifteen tribes of

Indians arrived last night from western reservations to see the president turn the first spadeful of earth for the monument. To lend color to the occasion, they appeared in full regalia and a few of them were to have something to say in behalf of their passing race. Rain had threatened to mar the ceremonies, but at daybreak the weather was no worse than damp from last night's rain, and cloudy.

The afternoon feature of the president's program is in the interest of the blind, charitable work to which he has often lent his aid here. This was to be the dedication of a new institution for the afflicted persons known as "the light-house." Joseph H. Choate, Helen Keller and others will participate in these exercises.

Tonight the president will conclude his round of engagements here as the guest at a testimonial reception and dinner under the auspices of the American peace and arbitration league. At the dinner the gold medal of the national institute of social sciences will be presented to the president in recognition of his notable efforts on behalf of universal peace.

ORKIN BROTHERS

Mr. Farmer-- Mr. Dairyman-- Mr. Poultryman--

The parcel post brings to you just what you have been waiting to get for years—to be able to sell your product direct to the city consumer and have a cheap, quick and ready means of transportation which the parcel post provides.

City consumers

are very anxious to get in touch with country people from whom they can secure fresh butter, eggs and poultry, and they are willing to pay a good price for fresh produce. The parcel post has solved the transportation problem, and there is now but one thing to be accomplished by the

Farmers

and that is to get in touch with the city consumer.

Through Bee want ads this can be done. By using a small ad in The Bee, the farmer and city consumer will be brought together into an agreement which will be satisfactory to both.

Tyler 1000

After 6, Tyler 1001.

Nagel Suggests that Keefe Be Asked to Resign His Office

WASHINGTON, Feb. 22.—Secretary Nagel has made a report to President Taft on the official conduct of Daniel J. Keefe of Detroit, commissioner general of immigration, and has recommended that Keefe's resignation be demanded. The report alleges the head of the immigration service has accepted free transportation for himself and family from railroads and steamships. These alleged acts were considered by Secretary Nagel as sufficiently serious to be called to the president's attention because the commissioner general of immigration necessarily deals officially with railroads and steamships in connection with immigration cases.

It is not known whether President Taft will take any action. He may leave the case for the consideration of President Wilson in view of the few remaining days of his administration. Secretary Nagel will not discuss the situation. He made his investigation and submitted his report to the president some time ago.

BRIDE OF 105 SAYS SHE IS ONLY EIGHTY-FIVE

LOS ANGELES, Feb. 22.—Pleasanton Leon, 84 years of age, and his bride, who was Mrs. Marcelina Kilsada, said by her family to be 105 years old, entered upon their honeymoon here today. They were married last night. Friends of the bride claim for her the distinction of being the oldest woman who has ever entered wedlock in this country.

Mrs. Leon, however, says she is not. Despite the assertions of her daughters, granddaughters, great-granddaughters and other members of her posterity that she is well over the century mark, the bride declared that she was only 85—one year the junior of her spouse. Furthermore, she said she was opposed to women marrying their juniors.

After the ceremony had been performed and wishes for a long and happy married life extended the bride and groom took a prominent part in the festivities which followed.

The way for the marriage was paved yesterday when Judge Rives in the probate department of the superior court vacated the order of guardianship placing the aged woman in the custody of her granddaughter, Mrs. Claudia Lugo. She is reported to be the owner of property

Arson Trust Deals in Flashes and Blowouts

CHICAGO, Feb. 22.—Systematized efforts employed by members of the alleged "arson trust" were discovered today by witnesses examined by Assistant State's Attorney Johnson. They explained to him that in arson circles incendiary fires are placed in both classes, "blowouts" and "flashes." A "blowout" is a fire which destroys both the building and its contents. A "flash" only burns the contents. The witnesses said the "firebums" could regulate fires by means of the distribution of gasoline. Whens "blowout" was desired gasoline in large cans was placed throughout the building in order to cause an explosion. When a request to burn the contents of a building was made gasoline would be sprinkled over the stock, because "in some cases the insured did not want their buildings burned because they did not have them heavily insured." Prosecutor Johnson said in explaining the evidence given him by the witness.

ALLOTING AGENT SENT TO PRISON FOR YEAR

SIOUX FALLS, S. D., Feb. 22.—(Special.)—That Uncle Sam makes no distinction between his own employes and private citizens in enforcing the law against taking liquor to an Indian reservation was shown in the United States court in this city, when Judge Elliott imposed a fine of \$100 and costs and sentenced Charles A. Bates to a term of sixty days in the Lawrence county jail at Deadwood, on his plea of guilty to taking liquor on the Pine Ridge reservation. Bates is a government allotting agent on the reservation, and claims to have purchased the liquor for his sick wife, but he had technically violated the law and had to suffer the consequences.

TAFT PRESENTED WITH FATHER'S PRAYER BOOK

WASHINGTON, Feb. 22.—President Taft has added to his library a family relic which he is very proud. It is an old hymnal that had been used by his father, Alphonse Taft, in Cincinnati many years ago. On the fly leaf is the inscription: "A. Taft, Pew 35." The hymnal was sent to the president

San Francisco Wins Point in Fight for Hetch Hetchy Valley

WASHINGTON, Feb. 22.—San Francisco's protracted fight for the use of the Hetch Hetchy valley as a reservoir site was won by the city today as far as the army advisory board, on which Secretary Fisher's decision will be based, is concerned. The board declares that the Hetch Hetchy project is \$20,000,000 cheaper than any other feasible project for furnishing an adequate supply of water to the city.

The water situation that will confront the communities around San Francisco bay, if the plan is adopted by Secretary Fisher, is recapitulated by the army advisory board as follows: "Purchase of Sizing Valley Water company, \$25,000,000 to \$40,000,000. "Further development of this company's system to about half the extent proposed by the company, \$10,000,000. "Purchase of water system of communities outside of San Francisco, no estimates made. "Construction of Tuolumne system as proposed by San Francisco to be extended over about fifty years, \$7,000,000.

"Against these expenditures there will be developed 115,000 horse power, an estimated capitalized net value of \$45,000,000."

Bishop Hogan Writes His Own Epitaph

KANSAS CITY, Mo., Feb. 22.—An epitaph in Latin and instructions for funeral and burial were found among papers left by Bishop John Joseph Hogan of the Catholic diocese of western Missouri, who died here yesterday. It was the bishop's wish that no flowers be used at the funeral and that the funeral be not "conducted through thronged thoroughfares, but rather through the least frequented streets of the city." The directness and epitaph were in a letter addressed to Bishop Thomas W. Lillis, coadjutor. The suggested epitaph translated reads: Herein are the ashes of John Joseph Hogan, first bishop of Kansas City, born in the year 1829. Pray for him. Archbishop Glennon and Bishop Hennessy, Bishop Cunningham and Bishop Ward of the St. Louis province, with Bishops of the states of Illinois, Iowa, Nebraska and Oklahoma, will attend the funeral Monday morning.

HOUSE MAY GO IT ALONE

Corbin Seeks to Push Project to Acquire Lincoln. (From a Staff Correspondent.) LINCOLN, Neb., Feb. 22.—(Special.)—Regardless of the fact that the state senate exposed the attempted bribery of its legislature by the business men of Lincoln who seek to keep the university in the city, so that its students may be exploited, by offering very generously to permit a tax to be levied on all the tax payers of the city to pay part of the purchase price of more ground adjoining the present campus, the business men's lobby, headed by E. M. Pollard, still believes he can put over the proposition in the house that the senate repudiated.

This morning Mr. Corbin, who introduced the resolution for him to have a committee with the attorney general to enter a contract with the business men of Lincoln to guarantee the tax, tried to get the house committee to proceed with this matter regardless of the senate.

"I am not sure that we will do this," said Mr. Corbin. "The senate killed the proposition and I am inclined to believe we would be wasting our time."

The Corbin resolution provided for a joint committee of the house and senate to work with the attorney general on the contract. The senate realized that in effect the business men of Lincoln were simply offering a bribe to the legislators, and it was so designated on the floor of the senate, but of course the house being full of detectives and would-be detectives, did not recognize the attempted bribery, and adopted the proposition.

MAY AOPT THE INITIATIVE TO CHANGE CONSTITUTION

Resolution is Made Special Order for Early in March.

Herbert Robinson Bound Over to Federal Grand Jury on Charge of White Slavery After Wife Tells Tale.

(From a Staff Correspondent.) DES MOINES, Feb. 22.—(Special Telegram.)—The legislature today took a step which indicates that in several respects the state constitution is to be revised and that changes in the constitution as well as in the laws will be easier in the future.

"The house ordered that a special order be made in March 6 for the resolution contemplating adoption of the initiative and referendum and it will undoubtedly pass the house."

The income tax amendment passed the house today and the equal suffrage resolution was given such place on the senate calendar that it is sure to be called up soon. There are other amendments that will be urged, but if the initiative and referendum amendment is adopted the advocates of a state-wide prohibition will rely on it for prohibition.

On the startling disclosure of his wife, Herbert Robinson was bound over to the federal grand jury as a white slaver, his bond was fixed at \$500 and he went to jail. His wife was also incarcerated to be held as a witness. Federal officials feared she would leave the city if given her freedom.

The wife told a pitiful tale to Commissioner McArthur. She declared her husband brought her here from Springfield, Neb., several months ago and forced her to support him.

Relatives of Victims of Titanic Can Now File Damage Suits

NEW YORK, Feb. 22.—The United States circuit court of appeals today handed down a decision which permits relatives of Titanic victims to commence suits immediately against the steamship company for full damages. The decision is a victory for the lawyers representing the death claimants, who were opposed by the steamship company's attorneys in the hearings a few days ago.

The ruling of the court modifies an injunction issued some months ago by the admiralty court, preventing claimants from bringing suits within the year allowed by law. In order to bring the matter to an issue A. L. Brougham, a New York lawyer, representing 200 claimants, violated the injunction and was declared in contempt, thereby bringing the issue promptly to the attention of the higher court.

Today's decision opens the way for the immediate bringing of suits by relatives or heirs of every one of the 1,500 or more persons lost on the ship. The aggregate to permit a tax to be levied on all the tax payers of the city to pay part of the purchase price of more ground adjoining the present campus, the business men's lobby, headed by E. M. Pollard, still believes he can put over the proposition in the house that the senate repudiated.

Wilson Will Spend Sunday in Princeton

NEW YORK, Feb. 22.—Woodrow Wilson went back to Princeton today for his last week at home before he goes to Washington to become president of the United States.

The president-elect spent the night at a friend's house and left for Princeton this afternoon. He remarked that it probably was the last visit he would pay New York for a long time.

The next president expects to stick pretty close to the White House for several months after his inauguration. He has announced his desire to devote all his time to his work and for this reason he has accepted no formal invitation for a period of six months after March 4. The trip to the Panama canal is the only plan definitely arranged thus far for President Wilson's summer. Because he does not know when the extra session will permit him to depart on this journey, the rest of his summer arrangements are indefinite. The selection of a summer home has been held in abeyance.
