

# SAVE YOUR EYES

Simple Home Treatment Will Enable You to Throw Away Your Glasses.

**"HOW TO SAVE THE EYES"** Is the Title of a Free Book.

At last the good news can be published. It is predicted that within a few years eyeglasses and spectacles will be so scarce that they will be regarded as curiosities. Throughout the civilized world there has, for several years, been a recognized movement by educated medical men, particularly eye experts, toward treating sore, weak or strained eyes rationally. The old way was to fit a pair of glasses as soon as the eyes were found to be strained. These glasses were nothing better than crutches. They never overcame the trouble, but merely gave a little relief while being worn and they made the eyes gradually weaker. Every wearer of eyeglasses knows that he might as well expect to cure rheumatism by leaning upon a walking stick.

The great masses of sufferers from eye strain and other curable optic disorders have been misled by those who were making fortunes out of eyeglasses and spectacles. **GET RID OF YOUR GLASSES.**

Dr. John L. Corish, an able New York physician of long experience, has come forward with the edict that eyeglasses must go. Intelligent people everywhere are endorsing him. The Doctor says the ancients never disfigured their facial beauty with goggles. They employed certain methods which have recently been brought to the light of modern science. Dr. Corish has written a marvelous book entitled "How to Save the Eyes," which tells how they may be benefited, in many cases instantly. There is an easy home treatment which is just as simple as it is effective, and it is fully explained in this wonderful book, which will be sent free to anyone. A postal card will bring it to your very door. This book tells you why eyeglasses are needless and how they may be put aside forever. When you have taken advantage of this information obtained in this book you may be able to throw your glasses away and should possess healthy, beautiful, soulfully expressive, magnetic eyes that indicate the true character and win confidence.

### BAD EYES BRING BAD HEALTH

Dr. Corish goes further. He asserts that eyestrain is the main cause of headaches, nervousness, inability, neurasthenia, brain fog, sleeplessness, stomach disorders, dependency and many other disorders. Leading oculists of the world confirm this and say that a vast amount of physical and mental misery is due to the influence of eyestrain upon the nerves and brain cells. When eyestrain is overcome these ailments usually disappear as if by magic.

### FREE TO YOU

The Okola Method, which is fully explained in Dr. Corish's marvelous book, is the method which is directed at making your eyes normal and saving them from the disfigurement of these needless, unpleasant glass windows. If you wear glasses or feel that you should be wearing them, or if you are troubled with headache in the forehead or nervousness when your eyes are tired, write to-day to Okola Laboratory, Dept. 88E, Rochester, N. Y., and ask them to send you, postage prepaid, free of all charge the book entitled, "How to Save the Eyes," and you will never regret the step taken.

know, when you called I was busy, and I had my clerk tell you the deal went wrong; but of course I would n't let you lose. I—"

At this point the excited Sullivan managed to interrupt:

"Da clerk say you no could see me. I—"

"That's right; I told him to tell you I could n't see you lose, and that goes, too. Now—"

"But where da mon'?"

"Where is it? Well, if you'll give me a chance, I'll get to that. You have been very careless. You only had to walk over to my office. Hold out your hand—One, two, three, four, five, six, six-fifty, seven, seven-fifty, eight hundred dollars. Is that right? Now, give me a hair-cut."

Sullivan was in a trance. He held the money in his outstretched palm, and stared. Coming to himself, he counted it nervously, folded it up, put it in his trousers pocket, took it out again and placed it in his inside vest pocket. After buttoning his vest, he felt from the outside to make sure he really had it. He could only say:

"Tanka you, Meester Brown."

Mr. Brown, sure that he had re-established himself in Sullivan's good graces, made himself comfortable in the chair.

As Sullivan worked on Mr. Brown's head, a certain revulsion came over him. Before the Union Pacific incident he had been the respected master of his own home. Since that blunder his home rating had suffered a terrible slump. Maria no longer gazed upon him with wondering eyes. He was a very ordinary sort of fool to her now. It was fine to have recovered the eight hundred dollars; but there was still a grievance that money could not efface. Sullivan thought hard, and suddenly his face broadened out.

"You hava da sinificat shampoo, Meester Brown?"

"Everything same as usual," grunted the patient, whose mind was now on other problems. Then suddenly recalling the wording of the query:

"Scientific? What's it—something new?"

"Yes, sir, Meester Brown. Da's right—new, sit-still, chair shampoo."

"Very well," settling back comfortably in the chair, "you may go ahead."

The brush boy began to prepare the wash-stand; but Sullivan motioned him away, and attended to the arrangements himself. They were very simple, consisting principally of a liberal application of peroxide from a bottle, the label of which Sullivan took care that his confiding customer and erstwhile benefactor did not see. Having applied the solution in sufficient quantity, Sullivan proceeded to administer a soothing soap-and-water wash to the sparse, remaining locks. Carefully drying and then combing them with somewhat exaggerated precision, Sullivan presently announced, as he deftly removed the linen covering:

"Feenish, Meester Brown; untilla da nex' time you coma in—tomorrow, maybe?"

"Yes. Good-day."

IT WAS not until he had arisen from his slumbers and glanced into his shaving mirror the following morning that Mr. J. Montgomery Brown realized the full measure and extent of the calamity that had befallen him. Thrice he rubbed his eyes and thrice pinched himself as he stared at the grotesque reflection in the glass. The familiar, though meager, blond locks had taken on a deep purple hue since their owner had submitted to the vengeful ministrations of Sullivan, S. B. . . . And Maria had gazed upon Sullivan the evening previously with an expression of great respect.

# 3 IN ONE SHAVING OIL

Won't you try 3-in-One Shaving Oil, Free?

A few drops of 3-in-One on the blade of any "safety" or "ordinary" razor absolutely prevents the lather and moisture, which you can't entirely rub off, from forming rust on the microscopic "teeth." These "teeth" form the shaving edge of every razor. When they rust, your razor is dull and pulls. 3-in-One positively prevents that rusting.

Always do this before and after shaving: Draw your "safety" or "ordinary" blade between thumb and forefinger moistened with a little 3-in-One. Put a few drops on your strop, too. Strop—and have a perfect shave. Be sure to oil blade again before putting it away. Then no rust can form, between shaves, to ruin the sharp edge.

**FREE** Generous sample and scientific circular sent to any shaver on request. Your name and address on a postal will bring the free sample.

3-in-One is sold in all good stores in 3 size bottles: Trial size, 10c; 3-oz. 25c; 8-oz., (half-pint) 50c. Also Handy Oil Cans, 3 1/2-oz., 25c. Fits the hip pocket—a flat can—a man's oil can. **THREE-IN-ONE OIL CO.** 422M. Broadway, New York City
