He used to ask for and see that you get Dr. Burkhart's Vegetable Compound, also recognized as the greatest spring remedy known.

To prove its merits conclusively, a trial treatment will be sent free. Address Dr. W. S. Burkhart, Cherry Hill Square, Station R. Cincinnati, Ohio.

MOST NUTRITIOUS FOOD

SOLD IN OMAHA

To some Omaha women it will be news that "Minnesota" Macaroni, besides being so delicious, is also four times as nutritious as beefsteak and six times as nutritious as potatoes.

"Minnesota" Macaroni contains more proteins than most foods and is therefore more strength giving, and it gives the body great power of endurance without overloading the stomach.

If it is served often in place of meat the whole family will be much healthier. And, besides, it will reduce the cost of living, as "Minnesota" Macaroni costs only about one cent a dish.

Try the handy "Minnesota" Macaroni, which is cut into uniform pieces—it cooks more evenly and is quicker to prepare.—Advertisement.

THE SOCIETY OF THE BEE-HIVE

By MELLIFICIA. Wednesday, February 26, 1913.

WHEN automobiles first came into practical usage, their ownership was more or less a series of continual worries. Every time something was wrong and the machine refused to budge, a mechanic had to be called, and even auto mechanics were then more or less in an experimental stage. Then the electric car came along and filled a long felt want with women who wished to drive without all the aggravation that went hand and hand with the gasoline driven cars of that day.

But electric cars were only suited for town use, and there are times in spring and summer when a little jaunt out into the country lures us consumingly. Among people who could not afford two cars the pleasure had to be often forgone. Hope, however, never deserts us, and now we are shown the all-around practical family car at the auto show—the new Sedan. To me it is the embodiment of everything a one-car family could expect in a single machine. A woman can run it and keep it spotless. The machinery is all enclosed; the headlights are lit by push buttons from the inside and the motor is started and stopped from the seat. It has room enough inside for five people, which is about the maximum of the modern family.

Secret Government Agent Has Fought Under Many Flags

Harry Bodie, secret agent for the War department, survivor of four wars and a soldier of fortune, was a visitor at the local navy recruiting station. He is on his way to Texas, where he will join the United States army and be ready to act as a guide through old Mexico, where he is well acquainted with the lay of the ground.

Bodie is a unique character. He has fought under several different flags, yet he has managed to escape without even being wounded. He was an officer in the Russian army when that country fought Japan. Coming to the United States he joined the United States navy and made the trip around the world with the Atlantic fleet.

Prior to battling in the Russo-Japanese war Bodie fought with Uncle Sam's boys in the Spanish-American war. Leaving the United States navy Bodie traveled abroad and later returned to this country and when the first trouble with Madero and Diaz broke out he joined Madero and helped him in his insurrection with the federals.

After leaving Madero Bodie left this country and went abroad again. When the Balkan states took up arms against Turkey Bodie came to the front and joined the Greek warriors. He does not ask anyone to believe his story, but his credentials and discharges from every army with which he has fought. He speaks seven different languages fluently and can make himself understood in several others.

No Will is Left by Mrs. W. B. Millard

The estate of Mrs. Frankie Barton Millard, estimated to be worth at least \$120,000, will be divided share and share alike among her four sons, Mrs. Millard having left no will. Barton M. Millard, the only son who has attained his majority, filed application for his appointment as administrator of the estate in county court today. Hearing was set for March 1. The petition was filed by Stout & Rose, attorneys for Mr. Millard. Mr. Stout said \$120,000 is a conservative estimate of the estate's value, which will greatly exceed the figure given.

Mrs. Millard's sons are Barton M. Millard, Joseph H. Millard, 24; Henry K. Millard and Willard B. Millard.

B. B. Young, in early days conductor of the Omaha Apollo club and a baritone soloist and singing teacher in Omaha, is a prominent lecturer in the field of Christian Science and is known as Rick-nell Young.

L. A. Tortora, who was identified with Omaha's music growth some score of years ago, is now one of the well-known singing teachers of Chicago.

W. A. Derrick, whose magnificent bass voice used to be known to Omaha people as soloist of several of our most important churches, has become one of the rich men of the American colony of Berlin.

Herbert Butler, known as "Bert Butler" when the popular orchestra leader at the Boyd theater, is a leading violinist and teacher of Chicago.

W. S. Marshall, for many years organist of All Saints' church here, is now in Minneapolis interested in musical affairs there and pursuing his professional work.

Henry Barrett Chamberlain, former newspaper man and occasional lawyer reader in Episcopal churches in Omaha, is now managing editor of the Chicago Record-Herald.

Nebraska Skunks Desirable Variety

"Nebraska skunks, those of the four-legged variety, are the best in the world and I am taking home with me an even eight dozen to restock my skunk farm at Bridgeport, Conn.," said Henry H. Burlison, who is now in Omaha arranging for the shipment of his skunks caught out in the vicinity of Holdrege.

According to Mr. Burlison, he owns a skunk farm of twenty-five acres just outside the corporate limits of Bridgeport. It is rough, rocky land, enclosed by a concrete wall, on top of which is a high board fence. Here he breeds and rears his skunks, the annual capacity of his farm being 1,000 animals. He is also a city official, being the dead animal remover. The carcasses of the dead animals he feeds to his skunks, so his profits are consequently large.

Aside from the flesh of the dead animals, Mr. Burlison feeds his skunks grain and grasses, they being vegetarians to some extent.

Skunks, according to Mr. Burlison, are prolific animals, breeding four times per year, and the young running from eight to fourteen to the litter. When 1 year old the skin of a skunk is in prime condition for market. A skin will sell for from \$1 to \$2, according to size. The skin, however, does not constitute the only profit in the skunk raising business.

A carcass will yield from one to two pounds of oil and this oil sells at from 75 cents to \$1 per pound. It forms the basis for numerous medicines put out by the

COLONEL GROTTÉ NOT WITH ANY LOCAL LIQUOR HOUSE

Colonel Charles Grotte, who purchased the Neville property on Douglas street, takes some exception to the published statement that he is a traveling salesman for a local liquor house. He has no business connection with any Omaha firm, but is connected with eastern manufacturers.

GRAY HAIR DARKENED

A Simple Home-Made Preparation That Exceeds the Best Dyes and Stains.

It often occurs that the simplest and least expensive preparations are the most meritorious, and this simple little recipe for darkening gray hair and correcting the fall of the scalp will be found to possess all the merits of the most famous dyes, stains and other hair nostrums. It is made by adding to 7 ozs. of water one small box of Barbo Compound, 1 oz. of bay rum and 1/2 oz. of glycerine. Get the ingredients at any drug store at very little cost and prepare the mixture at home. Apply to the hair or beard once a week until the gray hair is darkened sufficiently. This is a remarkably good mixture for gradually changing the gray hair to a nice glossy brown, and is equally as good for removing dandruff and other scalp humors and for promoting the growth of the hair. It does not make the hair sticky, does not color the scalp or soil clothing or pillow slips, like many made-up dyes and stains. If your druggist cannot supply Barbo Compound ask him to order it for you.—Advertisement.
