Longs on Wheat Have to Sell at Loss Before Day is Over.

Off Surplus Supply in Order to Realize Profit Upon Their Holdings.

OMAHA, February, 27, 1918. As rapidly as the professionals in wheat cared to absorb that grain on the ad-vances established by the big longs in the trade in order to secure profits, they vances established by the big longs in the trade in order to secure profits, they allowed the much sought cereal to slip through their fingers. The buying was much weaker than the selling. Whether the longs will be able to sell their holdings at a profit, or whether they will be obliged to throw it overboard at a loss will be known at the close today. There was a strong desire on the part of people known as the "bull combination" in wheat to influence values upward without being obliged to take on any great amount of grain. A report came from the seaboard late yesterday saying exporters bought forty loads of Duluth wheat on Monday and Tuesday. Omaha was again on the "firing line" yesterday, and reported \$2,000 bushels of wheat sold for foreign shipment via the guif. Only \$0,000 bushels changed hands at Chicago.

It was said last night that a bullish

It was said last night that a bullish document from the northwest will be thrown upon the world within a day or two, in which the enormous consumption two, in which the enormous consumption of wheat and smaller stocks back in farmers' hands in that country will be put under the spotlight. In order to make this document more builted than it otherwise would be, a claim will be made that the government's final report on northwestern yield was at least \$5,000,000 hushels short. There are many who bebushels short. There are many who be-lieve that wheat is now held at a price

GRAIN AND PRODUCE MARKET taken because of the heavy visible supply in the United States and Canada, coupled with a smaller scattered demand for the cash article. The fact that the southwestern plant is well covered with snow in nearly every state, and that ample moisture for a long period has been furnished by the recent precipitations, is, under ordinary circumstances, enough to cause heavy selling on short account. Cash whoat unchanged. It was the gossip of the corn pit that the surplus has been taken off the market by the leading buil interest and there

ket by the leading bull interest and there is enough corn held by them and by others who have profits in their purothers who have profits in their pur-chases to make the shorts uneasy and put prices highen Some are looking for a further upturn of I cent or more before the present bull move spends itself. CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Feb. 27.—Shutting down of export demand caused weakness today in wheat. The market closed heavy at a decline of 140% to 150% net. In corn the outcome was the same as last night to 160 down, and for oats a drop of 160 to 160. Provisions wound up dearer by 75%

10c to 35c.

Bearish sentiment ruled the wheat market throughout the day. Cables were decidedly disappointing to the buil side. Not only had foreign inquiry been halted by the previous day's advance, but there were more predictions of more liberal shipments from Argentina. In addition. shipments from Argentina. In addition, reports came that the crop outlook for India had greatly improved in consequence of rain, while as for the United states winter wheat belt the prospect states winter wheat belt the prospect was declared to be nearly ideal.

Assertions from the southwest that country offerings of wheat were much smaller seemed to attract no attention, although receipts at Kansas City showed a notable failing off. It was pointed out that total arrivals at primary points were 744,000 bushels, against 254,000 bushels,

the state for alfalfa and live stock; wheat oats, rye, barley and corn do well. Will make a fine stock farm. Price only \$10 per acre. Write for particulars. A NELSON, P. O. Box 305, Holdrege, Neb.

NEW YORK STOCK MARKET

Further Progress Upward Made in Day's Trading.

PRICES MOVE IRREGULARLY

Outburst of Strength in Final Hour Lifts lint Well Above Yesterday's Close-Some Investment Buying Reported.

NEW YORK, Feb. 27.—Further progress upward was made by stocks today, although the market did not possess the sustained strength of yesterday. Prices sustained strength of yesterday. Prices sustained irregularly, but the tendency wastoward a higher level and an outburst of strength in the final hour lifted the list well above yesterday's close. Gains among important stocks ran as high as 2 polyus and autone a serve.

The improvement in all the principal markets this week is regarded as in-dicative of a belief that the long period of strain is nearing its end. A develop-ment to which significance was at-tached was the Prisslan government's decision to place loans aggregating \$137. Wide fluctuations in Can shares once

this morning, only ninety-three cars being reported in. For the week the receipts still show a considerable falling off as compared with last week, but a gain of more than 3,000 head compared with of more than 3,000 head compared with the corresponding period last year. Offerings of beef steers were very mod-erate this morning while there was a fair demand, so the trade opened quite early in the morning and was fairly active at good, steady prices. If anything, the feeling was a triffe better than yesterday, although there was hardly epough differ-

although there was hardly enough difference to quote the market higher. Among the sales were some right good heavy cattle that brought \$8.45, which was the high price for the day.

Cows and helfers were in good demand and free sellers at fully steady prices.

Totals

Chicago 10c lower than yesterday's eart; trade, or a short nickel lower than Wednesday's close. As far as the packers were con-

cerned it was largely an \$3.00 marks cerned it was largely an 8.00 market. Speculators and shippers took over quite a few loads, and while the prices they pald were generally a little higher than those paid by the packers, their purchases included only the best quality of stuff and such hogs as just suited their waits. As was mentioned before, it was argely an \$8.00 market, while a spread of \$8.000\$8 to takes in practically all of the sales. Good light hogs brought as high as \$8.124, 74c lower than Wednesday's top.

day's top.

Today's receipts amounted to about 188
cars, or 9,600 head, being over 6,000 head
short of last week, 1,000 less than two
weeks ago and 15,000 smaller than on the orresponding day a year ago

PIGS. early movement was somewhat slow, the huyers doing very little during the opening rounds aside from picking up some of the few choice lots of both lambs and sheep. Later in the morning after the majority of the prime offerings was disposed of a weak feeling developed for anything that did not just suit the buyers, there being apparently more or less discrimination against any offerings having too much weight. In the end, however, a fair clearance took place in good season and the market generally might be summed up as steady to a little easier as compared with Wednesday's trade.

As on yesterday fed western lambs sold up to \$8.5, there being very few

be summed up as steady to a little easier as compared with Wednesday's trade.

As on yesterday fed western lambs sold up to \$3.5, there being very few prime lambs among the receipts. Among the sales of aged sheep was a bunch of fed ewes on the Mexican order that brought \$3.00, which is the same figure the same class of ewes sold at yesterday. Some fed western yearlings went to the packers at \$7.25.

The total receipts fell considerably below yesterday, but were fairly large for a Thursday, as some thirty-one cars, or 7.000 head, were reported in. This is a little larger than a week ago and two weeks ago, but around 4.572 head less than on the corresponding day a year ago. As to general quality the supply compared very favorably with the last few days, but the number of really prime lambs was rather small. Unlike most days lately the supply ran largely to aged sheep, most of which were ewes, there being quite a sprinkling of year-lings and wethers on sale.
