BOWLING RECORD IS BROKEN

New Mark for All Events Made by Herrmann of Cleveland.

DETROIT MAN FORMERLY BEST

Herrmann and Felgenhauer Go Into Third Place with Total Above Twelve Thousand—Davies and McKee Fifth.

TOLEDO, O., March 4.—Another American Bowling congress record was broken tonight when Eddie Herrmann of the Lincoln's five-man team from Cleveland, O., totaled 1,372 pins, which makes a new mark for all events.

The former record was held by Thomas Haley of Detroit, who made 1,361 in that city in 1910. Herrmann's work was sensational throughout. It began on Sunday night when he totaled 725 pins in six squares event. In the two-man work this morning he rolled 634. In the individual event he rolled 615 pins. In the two-man event H. Felgenhauer and Eddie Herrmann of Cleveland went into third place today with a total of 1,212. J. Davies and P. McKee, Columbus, rolled into fifth place with 1,136. They are tied with Elix and Selbert of Toledo. Scores:

Basket Ball Game is Postponed Until Saturday Evening

The game of basket ball between Wesleyan university of University Place and the Nebraska Telephone company team originally scheduled for Friday night, March 7, will be played Saturday, March 8, and instead of being played at the University of Omaha gymnasium will be played on the floor of the local Young Men's Christian association. The Wesleyan team is on a trip and cannot reach Omaha before Saturday so the change was made in dates. Since the game is to be played on Saturday it was thought best to have it at the association gymnasium.

The local team though not enjoying a wide reputation is working hard in preparation for the contest, which will be the last floor game of the season in Omaha, and while not certain of victory is going in prepared to make the fight of its life. Wesleyan has the strongest college team in Nebraska outside of the five playing under the colors of the University of Nebraska and plays stellar ball all the time. Notwithstanding this the Omaha team will give them a battle that will prove their mettle and of which the Methodists are not certain of winning.

The following champions and winners of the billiard and pocket billiard tournament which has been in progress at the Commercial club rooms for the last month are announced:

Extra Class—H. McCoy. First Flight—H. S. Daniel won most games and made high run. Second Flight—H. McCague won most games. Dr. W. K. Foote made high run. Third Flight—Dr. M. R. Beck made high run. Most games, J. P. Beach made high run.

M'KELVIE WILL ORDER PRIZE FIGHT STOPPED

LINCOLN, Neb., March 4.—Lieutenant Governor McKelvie, acting governor while Governor Morehead is in Washington, said tonight he would take steps to prevent the prize fight announced to be held at Wilber next Thursday night by telegraphing the sheriff of Saline county to stop any infraction of the law. The fight is to be between Pugilista Carr and Murphy, both Nebraska men. Lieutenant Governor McKelvie said he would take the same action as did Governor Morehead recently in a fight to have been held at Grand Island.

APRIL 23 FIXED AS DATE WHEN GOTCH MEETS LE MARIN

DULUTH, Minn., March 4.—April 23 has been named as the prospective date for a meeting between Frank A. Gotch and Constant Le Marin for the world's heavyweight wrestling championship.

KLING EXPLAINS HIS STATEMENT TO HERRMANN

KANSAS CITY, March 4.—John Kling, base ball catcher, today mailed a letter to President Herrmann of the Cincinnati National league base ball club, explaining the denial of Mr. Herrmann's recent statement that Kling had signed a contract to play with Cincinnati the coming season. Kling in the letter admitted he signed a contract, but insisted he did it with a distinct understanding that the contract would not be binding unless Kling's local partner consented to his leaving here. This Kling stated, his partner refused to do so and thus the contract never became effective.

CAPABLANCA BEATS CHAJES IN TWELFTH CHESS ROUND

HAVANA, March 4.—In the twelfth round of the chess tournament today Capablanca won from Chajes, Marshall drew against Corso and Jaffe won from Kueplich. The game between Janowski and Bianco was adjourned. Scores:

WHERE ARE THE NIGHTCAPS?

How the Beltons of Hygiene Days Soused Themselves at Bedtime.

Where are the possets and the neguses of yesterday—those nightcap beverages which were an accompaniment of the bedtime candles when they were lit in the drawing room or the billiard room of the early Victorian country house?

From a ragged cookery book found on the stall of one of the little old bookshops whose decline Mayor Gaynor has remarked, one cuts a few recipes. Here is one under the head of "A Capital Nightcap":

"Drop four drops of essence of cloves on four lumps of loaf sugar, add one-half a pint of good, strong ale, a wineglassful of brandy, make it hot and drink just before bedtime."

Another favorite was freshly brewed hot barley water—a trifle less nocuous than the foregoing. "For this two ounces of pearl barley are required, which, after being well rinsed in a succession of bowls of clean water, are boiled for five minutes in fresh water, strained, and then returned to the pan with two quarts of cold water and the thin-peeled rind of a couple of lemons. The whole is allowed to boil gently until the half has boiled away, when the barley is strained away and the juice of the lemons added. A great deal of sweetening is needed, but it should be left for each person to add, as so many persons are on special regime requiring saccharine substitutes for sugar nowadays, while others consider that the bitterness of the lemon rind is the best preventive of colds."

Under the caption of "Popular American Drinks," this venerable cookery book provides the following: "The Locomotive—Beat up the yolks of two eggs with one ounce of honey, a few drops of essence of cloves, a liquor glassful of Curacao; add a pint of good Burgundy wine, heated; whisk well together with a whisk and serve in glasses hot."

SHABBY RUN OF HARD LUCK

Cigars and Pipes are Proffered Lavishly After He Had Sworn Off.

"I certainly have the worst luck of any man in the United States," complained the undertaker. "I've always been a smoker and I don't think any man got more solid satisfaction out of his pipe than I did. I smoked assiduously for many years, and finally I got so nervous I couldn't sleep, and the doctor told me I'd have to quit smoking or else I'd populate one of my own caskets."

"It would be highly inconvenient for me to die this winter, much as I'd like to demonstrate my confidence in my own line of goods, so I threw away my pipe and sent a couple of boxes of good cigars to the heathen. That was several weeks ago, and since then I have been in a position to sympathize with old Tantalus, whoever he was."

"Before I quit smoking, nobody ever offered to give me any smoking material, but since that period my friends seem determined to see that I am well supplied. I had a birthday last week and I received two meerschaum pipes and a cigar holder and three boxes of cigars and a silver match safe, and all the implements that go to make a smoker's life one round of pleasure. Every time I come downstairs somebody wants me to sample a favorite brand of cigars, and I expect it'll begin to rain cigarettes some day when I'm around without my umbrella."

Federal Appraisers Dismissed by Taft

WASHINGTON, March 3.—President Taft tonight summarily dismissed from office Thaddeus S. Sharratta and Roy H. Chamberlain, members of the Board of United States General Appraisers at New York, "because of malfeasance in office."

The charges against Sharratta were that he had used his official power to compel certain personal favors from the Baltimore & Ohio railroad and that he had diminished the usefulness of the board and impaired confidence in it through circumstances surrounding the practice of his son, a lawyer, before it and more especially in setting precedents for favorable decision in his son's cases.

SCHOOL FARTHEST WEST

Stars and Stripes Float Amid Scenes of Desolation and Three Hundred Eskimos.

An island of volcanic origin, made up of black hills and frozen salt marshes; a short summer, the temperature averaging less than 40 degrees, when the tundra grass and lichens grow, and quickly maturing wild flowers, but most of the year a waste of snow and ice set in in the ice sea, whose currents carry the ice floes down and pack them in great hummocks twenty or thirty feet high along the shore, until the currents themselves are frozen; emphasizing this desolation an Eskimo settlement of 300 souls; and in the midst, like a protecting angel (which in truth it is), a schoolhouse floating the Stars and Stripes.

Less than 10 degrees west is the 130th parallel, where east begins again; and it has always been known as "The Schoolhouse Farthest West," until recently a school has been established at Alaska, on one of the Aleutian Islands, three degrees still farther west.

The nearest land is Indian Point, Siberia, forty miles away. Since nobody knows when the natives traced ivory walrus skins and skin canoes to the Indian Point natives for reindeer skins and bear skins. They were often compelled to trade against their will, and many hat extractions of the law. Lawrence people. The plain, one-story school house, with living rooms in the rear, to which the wing has since been added, was built more than twenty years ago by the Episcopalian for a mission, at a cost of \$2,000. About that time the missionary at Cape Prince of Wales was murdered by three of his school boys, and it was decided St. Lawrence was too remote and dangerous, and the idea was abandoned. Later the Presbyterian purchased the building for \$2,000. In 1894 the United States cutter Bear landed a missionary and his wife. SIoux CITY BALL PLAYER IS IN GRAND RAPIDS JAIL

GRAND RAPIDS, Mich., March 4.—Dannie Claire, last year with Des Moines in the Western league and signed by Sioux City in the same league for 1913, is in jail here on indictment under the Mann white slave act. It is alleged Claire induced Blanche Steinberger, alias Alice Blanche Ellis, to leave Pueblo, Colo., and go to Ludington, Mich., where Claire lives.

MILWAUKEE COURT SAYS BOUT IS PRIZE FIGHT

MILWAUKEE, March 4.—District Court Judge Neil B. Neelen today decided against the boxing promoters in the test case involving Joe Welling of Chicago and Jack Redmond of Milwaukee, who engaged in a ten-round bout here on January 17. The men were bound over for trial to the municipal court. The court held that the fact the announcer said that some other boxer was ready to meet the winner made the event a prize fight.

ROAD TO SYLVAN LAKE

CUSTER CITY, S. D., March 4.—(Special.)—A railroad survey of more than ordinary interest is the one being made at present by the Northwestern road from Fairburn, thirty miles east of here, on the Northwestern line between Rapid City and Hot Springs, to this city. This is thought to be the result of the taking over of the famous summer resort, Sylvan Lake, at this place, by a Chicago firm, who purpose to erect a modern concrete hotel at the lake and improve the lake park grounds in various other ways.

LAST RING OF LIBERTY BELL

Some Facts from Historic Records Overturning the Popular Belief.

Seventy years ago, February 22, the Liberty bell was rung for the last time. This is contrary to the popular belief, but it is correct, as proved by some of the records. The usual theory put forth is that the old bell was cracked in 1835 and ceased to be rung after that time. Part of this notion is correct and part is wrong. On the morning of June 8, 1835, the Liberty bell, which for a century had been the city's greatest instrument for showing joy or grief, was being tolled for Chief Justice John Marshall. This greatest of American judges had come from Philadelphia to undergo a surgical operation at the hands of the eminent Dr. Physick. Being an octogenarian, he did not recover, but died in this city. Marshall's body was one of the very few that has ever been honored by being permitted to lie in state in the Independence hall. As the corpse of this famous jurist was being borne away from this home of liberty and taken down the street to be sent to Virginia, the Liberty bell was tolled mournfully.

On that occasion it was very badly cracked. But, broken as it was, the bell was afterward rung on great occasions, although the tones were but sorry reminders of the once powerful tongue. So it happened that seventy years ago Washington's birthday—1863, the old bell was rung again, tolled in joy. At that time, however, the previous crack became so wide that the tones sent forth were completely broken.

It was never again rung after that day, and for seventy years it has remained voiceless. Men like the late Frederick Freley had often heard the Liberty bell ring. I heard him once say that the tone was unusually fine, but he added that perhaps an American had such great reverence for the bell itself that he was not a competent judge of its note-producing qualities. Before the steam engine came into use, with its powerful steam yells, the ringing of bells must have been, according to stories that come down from that day, the chief method of celebrating. When the declaration of independence was adopted the new famous Liberty bell was first to sound the great news, but immediately afterward many other Philadelphia bells took up the chorus. For there is neither legend or honor—Philadelphia Ledger.

RUPTURE. I have a certain cure for rupture without resorting to a painful and uncertain surgical operation. I am the only reputable physician in this line of work who will take such cases for treatment upon a guarantee to cure, or make no charge. You may deposit the money in a bank in your own name, and when you are satisfied a cure has been made you then instruct the bank to pay the money to me. By doing this you are absolutely certain of a cure, or it will cost you nothing. If I was not perfectly sure of my work I could not do business in this way very long, but instead have been doing business so for 29 years, and adopted this plan because so many have been swindled by quacks and cures. Not one of them will permit a patient to deposit his money until a cure has been made. My treatment, patients must come to my office once each week for four weeks, and if they live nearby can return home and work during the interval. I do not use the Farinae Wax treatment, as it is dangerous. Call or write for literature. A FEW OF MY CURED PATIENTS. A. F. Born, Norfolk, Neb.; W. H.
