Announce their
Spring apparel show

For Saturday, March Eighth, Nineteen Hundred Thirteen

On which date we shall make our initial exhibits for the approaching Spring season in Apparel and Accessories for Men, Young Men and Boys—introducing to the thousands of patrons of this Quality store—what we know to be the most comprehensive showing of smart, stylish Apparel for Men and Boys ever collected under any one roof in the entire middle west. Our stock appears as an immense Fashion Book, which features only styles that are distinctive, exclusive and becoming. The sort that well dressed men demand.

This store extends to Yourself and Ladies a most cordial invitation to pay us a visit during this Apparel Show. We urgently request your presence; not for the purpose of effecting immediate sales, but more particularly to acquaint you with the superiority of our Spring Apparel, the variety and broadness of our stocks—our methods and our service. May we have the pleasure of meeting you Saturday, and showing you through the greatest clothing institution within hundreds of miles!

A short story pertaining to the character of Apparel that will greet you at this quality store, Saturday

The reason King-Peck Clothes are different — In establishing this great Clothing Institution we adopted methods that were entirely foreign to Omaha retailing. We realized that to become what we are today, The Greatest Men's Outfitting Store in the West, would necessitate a new and far more progressive mode of merchandising than was in vogue at that period. Plans were laid; we placed our new proposition of clothes making before the highest reputed manufacturers in America—we specified certain standards of clothes making to enter every garment regardless of the price. The result: Only a very few manufacturers could comply with our demands. Before any garment becomes a part of our stock, it must undergo one of the most exacting merchandising tests that is required by any clothing concern in America. Many manufacturers declared that the buying public would never appreciate the advantages derived from such unusual merchandising; be that as it may, but from the day the doors of this establishment swung open to the public, it has grown by leaps and bounds, until now it is looked upon as an absolute authority regarding Apparel for Men, Young Men and Boys.

A Store Service That Serves Your Best Interests

We realize the extreme importance of an efficient store service—next to the merchandise itself no other branch of the business is so all important. We are constantly alert to adopt new ways and methods that will in any degree whatsoever improve our service. We've studied conditions and have remedied every known weak point. Will you take advantage of this improved store service? We welcome any suggestion that tend toward further improvements.

Preparation For Approaching Season Greater Than Ever Before

At some stores this is a semi-annual cry, whether based on facts or not, but not so here. We have the best founded reasons for anticipating a record-breaking season. This store, because of having all of its stock respectively made, placed orders far in advance of the great strike which just terminated the season and can honestly claim to be one of the very few clothing concerns in the west receiving complete shipments of all garments ordered.

Arrangements Of Departments Makes Shopping a Pleasure At this Store

Every department is so arranged as to allow the greatest possible space for display. Daylight floods every corner of this popular store, no guessing at the color here, you can see what it is, the entire store is abundantly equipped with triplicate mirrors—you won't experience no tire some waits for packages, or wear a garment requiring alterations you'll find an expert tailor right on the spot to give you his personal attention without any delay.

Former Veterinarian Forms Organization to Manufacture Treatment for Hog Cholera—Auditor Looks After Insurance.

(From a Staff Correspondent.) LINCOLN, March 7.—(Special.)—Deputy Attorney General Ayers has rendered an opinion in a case referred to him by Secretary of State Walt, in which two corporations bearing the same name had filed articles of incorporation and one protested against the filing and recording of the articles of the other.

A corporation known as the Good Samaritan filed its articles with the secretary of state and later another corporation calling itself the Good Samaritan also filed its articles. One of them objected to the filing of the other and the deputy attorney general has decided that the secretary of state's office is an office of record and that it has no right to refuse to record any papers tendered for filing.

Serum Company Formed. The Midwest Serum company has filed articles of incorporation with the secretary of state. The company will have its headquarters at Omaha and will engage in the manufacture of anti-hog cholera serum, biological, pharmaceutical and chemical products. The company has a capital stock of \$25,000 and the incorporators are P. Juckness, formerly state veterinarian under Governor Shallenberger, Guy L. Axtell and F. M. Smylie.

Looking Up Advertisement. In a letter received by Auditor Howard this morning complaint is made that a newspaper published at Spaulding, Neb., is carrying an advertisement of the New World Life Insurance company over the signature of Charles Ryan, agent, soliciting business in Nebraska. The records in the office of the state auditor do not show that the New World Life Insurance company or Charles Ryan has complied with the law in regard to doing business in Nebraska and the auditor will look the matter up.
