For several months we have been telling you what Hood's Sarsaparilla is made of and the ailments it has been curing for more than a third of a century. Below we give a letter telling particulars of one of the many cures it has effected, and we leave it for you to say how many and how strong adjectives we might truthfully use in introducing a letter of this character.

C. I. Hood Co., Lowell, Mass.

38 Upper Front St.,
"Exeter, N. H., May 7, 1912."
"Gentlemen:—It is with the sincere purpose of benefiting others I write what Hood's Sarsaparilla did for me."
"On getting upon morning I found what seemed to be a mosquito bite on the calf of my right leg. Soon the eruption grew larger and continued day after day, becoming more and more troublesome. The physician advised poulticing, and I soon found I had a running sore. It ate steadily into the flesh, discharged freely, and grew worse. Another physician told me to use a rubber bandage, but the sore grew worse until I had had several more, but none equal to mine."
"One day a neighbor, Mrs. Buckley, spoke of the value of Hood's Sarsaparilla for scrofula, and I said 'I don't think such a simple thing as Hood's Sarsaparilla would do me any good.' But my husband joined in urging me to try Hood's, and as he bought a bottle, I thought I might as well take it. Before long the pain and could see the edges of the sore beginning to heal. As I kept on with the medicine, new flesh formed, the raw surface diminished, and after using ten bottles the sore was completely healed and my general health perfect."
"I am able to work every day, weigh 135 pounds, my leg never gives me any trouble, and I use it the same as the other. I believe it my duty to tell what Hood's Sarsaparilla did for me, and I praise it to all my friends." Mrs. Josephine Sargent.

Hood's Sarsaparilla

Having cured such a tenacious case of scrofulous impurity as that described above—and it has cured many other cases—its efficacy is certainly to be relied upon for all troubles caused or promoted by impure or low state of the blood.

Food Commissioner Harman Has Plan for Seed Analysis

(From a Staff Correspondent.)
LINCOLN, March 10.—(Special.)—Food Commissioner Harman has announced the following plans regarding pure seed.
A former ruling by this department relating to the analysis of seeds being made for dealers in this state is hereby revoked, in so far as it relates to Nebraska-grown seeds.
Many complaints have been received by this department protesting against the operation of the pure seed law against Nebraska-grown seed for the reason that dealers will not buy seed from farmers as the dealer has no way to tell as to the purity and germinating properties of the seed the farmer has to sell.
The intention of the law is to protect those who wish to purchase seed and to stop the practice of making Nebraska seed dumping ground for seeds that have a low percentage of pure seed.
This department will, during the coming season, make seed analysis for Nebraska-grown seed for any person forwarding a sample of seed that they desire tested, when same is accompanied by the analysis fee of 50 cents, which fee is a provision of the law. This fee does not cover the cost of making the analysis, but it was evidently the intention of the legislature to have the state of Nebraska do its part in raising the standard of seed in this state and to protect the buyer of seed against the loss incurred by inferior and impure seed in loss of time, money, and labor and crops, and to as much as possible prevent the seeding of fields with noxious weed seeds.
The department now has in its employ an expert seed analyst and is in a position to take care of samples and to make a new 1,000-sample seed tester has been installed, which is coming in freely each day and to those desiring to have seeds analyzed, this department would advise them to forward their seed at once.

GENERAL HALL LIKES GUARD

Returns from Washington Pleased at the Outlook.
CONFERRED WITH GEN. WOOD
Applications for Enrollment in Provisional Regiment Coming in Fast, Over 300 Being Received Up to Present.
(From a Staff Correspondent.)
LINCOLN, March 11.—(Special.)—Adjutant General Hall returned from Washington yesterday and is feeling jubilant over his trip. He believes that he was able to pull off some stunts which will mean a great deal for the guard in Nebraska in the future. He had personal confabs with Generals Wood and Mills and feels that they better understand the needs of the guard in the future.
On his return he found that applications for enrollment in the "provisional" regiment which he is forming had been coming in fast and there are now over 300 applications for membership in the special regiment. These applications come from former members of the guard and those who saw service in the Spanish-American war. General Hall expects to give each one of these who are worthy a commission as second lieutenant, and in time of a call these men will be sent out as recruiting officers and be given commissions promoting them to the command of companies. Three letters received from former men who have held commissions as captains in the regular service.
All past officers of the National Guard are to be placed on the retired list without pay, thus keeping them as members of the guard and subject to service.

HIDES HIS FACE ON STAND

Man Who is Miked Tells of the Old Race Horse Game.
WAS TREATED TO ICE CREAM Gets Judgment for All that is Left After Gang of Mikers Get Through with 'em from Missouri.
Judgment for \$187, all that is left of a certificate of deposit, a mortgage for \$4,000 and \$900 in cash, was entered in Judge Kennedy's court against A. J. Lewis, William Simpson, Harry Gordon and a man named Casey, who miked Albert S. Hanna of Maryville, Mo.
The money recovered was part of the certificate of deposit and the action was a lawsuit. The mikers have disappeared so ashamed of his innocence in the hands of the robbers that he held his hand over his face as a shield. He was not otherwise tempted by the snares of the city when he came to Omaha last summer and his tempters plied him with ice cream instead of stronger stimulants.
The Missouri met one of the mikers soon after his arrival here and was taken to a room where "pools" on horse races in Canada were ostentatiously sold. He saw others win easily and tried it himself. His first venture was successful, but later he lost \$400. Tips were supposed to be received by telephone.
The \$4,000 certificate of deposit, which was on the First National bank of
