NO SALOONS NEAR SCHOOLS

Iowa House Passes Measure That Will Bar Drink Bazaars.

RELATES TO IOWA CITY

Appropriations Asked for by Bills in Iowa House Will Total Six and Half Million Dollars.

(From a Staff Correspondent.) DES MOINES, Ia., March 18.—(Special Telegram.)—The house of representatives this afternoon passed the bill to forbid any saloon within five miles of the state educational institution.

The bill was passed with sixty-six yeas. It is believed the senate will defeat the bill.

The house also passed a bill to require that railroads shall provide seating cars on all stock trains for the benefit of the men who are compelled to travel with the trains.

High Appropriations.

Announcement was made in the house this afternoon that the appropriations asked for by the house bills amount to upwards of \$6,500,000 and that the policy of the legislature will be to take care of the larger items with special taxes and not pay for them out of the general funds of the state.

Supreme Court Decisions.

The supreme court decided today the following cases: Gettrude Eastman against D. P. Eastman, appellant; Boone county, appellee; Klundon & Richardson against Lauder, appellant; Wright county, appellee; Robert M. Kline against F. L. McClary, appellant; Blackhawk county, appellee.

Railroads Must Settle.

The house passed the bill to require that railroads settle claims for damages within thirty days. It was passed by the senate in similar form. It provides a remedy where small claims are established in court after resistance and failure on the part of the companies to make settlement.

The house also passed a bill to forbid unfair discrimination in the purchase or sale of all mercantile commodities for the purpose of destroying competition.

Teachers' Pay Raised.

The senate passed an important bill which provides for minimum wage for school teachers, based on the percentage shown on the certificates of the teachers. The bill is one intended to materially increase the pay of rural teachers and forbid employment of teachers at extremely low wages in some districts. The senate failed to pass a bill to authorize employment of a school superintendent for a three-year period and also defeated a bill to forbid school dances.

Oppose Mines.

The senate passed a bill to place 57,000 acres under state inspection and regulation the same as coal mines. The senate passed a bill to permit state and county banks to take advantage of the postal savings law for deposit of postal funds.

Found Body of Dead Man.

The body of C. L. Neary of Lake Mills, Ia., was found in the woods along the Des Moines river. The body was found by boys, and evidence showed that he had taken his life. Letters left by him indicate that all his health caused the suicide.

John Evans, a coal miner, was shot dead by Mike Leo in the home of the latter following a carousal and a quarrel.

May Not Have Oregon Plan.

The bill to give to Iowa the "Oregon plan" for electing United States senators by pledging the legislators in advance of election has passed both houses of the Iowa legislature, but is being held up so that the governor will be in no need of haste in signing it. This is done because of the fact that the amendment to the United States constitution may become a part of the constitution almost any day, and when it has so become a part of the constitution the bill would be of no avail on the statute books. If the amendment is ratified by a sufficient number of states to make it effective the bill here will be withdrawn. There lacks but a few states of the necessary number and it is expected that this week or next the ratification will be complete.

Quarterly Conference.

The following is the program for the quarterly conference of the chief executive officers of state institutions with the Board of Control of state institutions, to be held in the office of the board commencing today:

"Epidemic Cerebro Spinal Meningitis," by W. E. Whitner, M. D., physician Industrial School for Boys, Eldora.

"Education of the Institution Child," by F. J. Sessions, superintendent Soldiers' Orphan's home, Davenport.

"Ephphasia," by Mrs. Laura McMillan, teacher School for the Deaf, Council Bluffs.

"Restraints," by S. C. Lindsay, M. D., first assistant physician Independence state hospital.

"The Occurrence of Pelvic Lesions Among Insane Women," by Rose A. Russell, M. D., assistant physician Cherokee state hospital.

"Correlation of the Work of the Several Hospital Departments," by Sidney D. Wilson, superintendent Kanawha state hospital, Kanawha, Ill.

WORK ON THE STATE BUDGET

Nearly Six Million Dollars is Already Asked for.

DES MOINES, March 18.—(Special.)—Heads of the appropriation committees of the two houses of the legislature have been getting together to figure out how to cut the appropriations to fit the state's funds. There will be about \$1,000,000 that can be appropriated for the next two years aside from the cost of running expenses of the state government, though an increase in revenue is anticipated that will make possible a somewhat larger

Iowa

appropriation. The state tax levy will not be materially changed. Over \$6,000,000 was the aggregate of \$400,000 in the various appropriation bills introduced. The state colleges need more than the state could give, and the state institutions ask more than the entire appropriation.

Below is a statement of the sums asked for in various senate bills now before the legislature:

Table with 2 columns: Bill description and Amount. Includes items like Omnibus state institutions bill (\$1,622,700), State custody farm (\$250,000), State aid for high school normal schools (\$25,000), etc.

Total \$6,570,000

In addition there are a number of bills for smaller amounts, such as the inauguration pay; then a number that would cause expenditure, but in how large amounts could not be known in advance. Among these latter are the following:

Table with 2 columns: Bill description and Amount. Includes items like Public utilities commission, cost possibly \$150,000; State highway commission, cost possibly \$25,000; State tax commission, cost possibly \$100,000; etc.

Daughters Learns Mother is Living

SHENANDOAH, Ia., March 17.—(Special.)—Margie Ellen England, known in this city as Marguerite E. Branson, for the first time in her life learned last week that she has a mother living.

Nearly seventeen years ago Mrs. England was left a widow in Illinois with three small children, and being unable to care for them she placed them in an orphanage in Chicago. When Margie Ellen was 2 years old Mrs. E. A. Branson secured her from the home and has since given her a home and a mother's love and care. The other two children, both boys and older than Margie, were placed in other families. The older boy was afterward returned to the home and later to his mother, who had by this time regained her health and strength and was married to Eli Fischer of Dixon, Ill. The other boy is with a family in Kansas and has not yet been located.

Two weeks ago Mrs. Branson, having the knowledge that the mother was looking for the daughter, made a trip to Illinois, started at the birthplace of Margie Ellen, and by riding, was able to

FIRE "GOLDEN-RULE" CHIEF

Fred Kohler of Cleveland, O., Police Guilty of Immorality.

FOUND WITH ANOTHER'S WIFE

Visits to Home of Mrs. May Scheerer While Her Husband is Absent Cause Discharge of Model Police Head.

CLEVELAND, March 18.—The Civil Service commission announced tonight that it had found Chief of Police Fred Kohler guilty of "gross immorality" conduct unbecoming an officer and a gentleman and conduct subservient to good order and discipline in the police department and immediately discharged him from office. The formal charges were filed by Mayor Baker and the trial of the chief was heard last week.

The charges involved alleged visits of Kohler to the home of Mrs. May Scheerer, February 3, May 23 and June 5, 1912, in the absence of her husband. On the last named date Scheerer testified in the trial that he surprised Kohler and his wife in the Scheerer home "in scanty attire."

Kohler attempted to prove alibi for the first two dates and declared his mission on the night of June 5 was an innocent one. Last September Scheerer was granted a divorce from her wife in a suit in which Kohler was named as co-respondent.

"Had we authority," the commission said, "we should add to the sentence of removal to this officer to receive a full pension to which a retired chief is entitled in view of the term and character of his service, but we are without power to do so."

In a statement issued last night Kohler indicated his willingness to resign if allowed to receive his full pension of \$125 a month. If discharged his pension would be but \$50 a month.

Kohler is 48 years old and has been a member of the police department for twenty-four years and chief for ten years. His plan of "golden ruling" first offenders and minor offenders has made him one of the best known police chiefs in the country.

The commission's decision praised Kohler's work as a police chief and says: "While in other cities police officers have been guilty of corruption and extortion, Frederick Kohler is a poor man."

Three years ago Kohler was tried and acquitted by the Civil Service commission on charges of drunkenness and personal misconduct in office.

Demands of Waiters Met by London Hotel As Irish Celebrate

LONDON, March 18.—The waiters at the Hotel Cecil took advantage of the Irish national day today to inaugurate a strike, but the management conceded their demands and 700 patriotic Irishmen enjoyed the feast.

Proposing the toast, "Ireland, a Nation," John E. Redmond, leader of the Irish parliamentary party, said that opposition to home rule in Great Britain was dead and the general feeling was one of impatience and regret that the House of Lords still had the power to delay the passing of the measure into law.

"But," added Mr. Redmond, "we have only to possess our souls in patience for a few months more, and the home rule bill will be the law of the land with the good will and sympathy of the whole empire."

Loud cheers greeted the reading of a cablegram from the United Irish League of America announcing the dispatch of another \$10,000 for the cause.

Brains of Tomorrow

Find their foundation in food of today.

Scientists have proven that the three vital elements of brain and nerve matter are water, albumen and phosphate of potash.

Water and albumen exist plentifully in everyday food—meat, potatoes, etc., but phosphate of potash is often lacking.

Grape-Nuts

Is the Food of Today

Because it is rich in the vital food elements, including the organic phosphate of potash, that valuable mineral element stored by Nature under the outer shell of wheat and barley.

This necessary element is lacking in white bread flour, but faithfully preserved in Grape-Nuts food which supplies true, well-balanced nourishment for body and brain.

Tens of thousands eat their regular morning dish of Grape-Nuts and Cream.

"There's a Reason"

Grocers everywhere sell Grape-Nuts.

Where is the strong man who can drive a nail with one blow?

What child cannot drive it by continued pounding?

Do you want to drive into peoples' heads where your store is—what you have there and how you aim to run it?

You can't do it by telling people once. You have to tell them again and again—now and forevermore.

If you do, they can never forget. Do you suppose there is a royal road to human memory? The only

way, and it's a sure way, is to keep yourself, your store and your goods constantly in their minds.

Advertising makes people think about you.

What they think depends on what you say and how you say it. Don't you want people to think about your store and your goods every day? If you make them think about you every day, they will come to you, when they want what you sell.
