Girl Tours as a Peddler. Unique Experience of a Dimpled Darling from Jersey.

MADE MONEY ON FOREIGN TRIP. American Noveltyies Go Like Hot Cakes and Home Made Candy Likewise—Four Months of Fun.

American ingenuity has thought out a good many original plans, but perhaps nobody before Miss Grace M. Putnam of Landing, N. J., solved the problem that confronted her in exactly the same way that she did.

Miss Putnam is pretty and the possessor of a particularly fetching dimple, which were no doubt factors in her success as a peddler. She cleared \$250 on her venture, besides seeing the sights of England and having her living.

What made her do such a thing? Everybody asks her. She said she was well, she did it chiefly because she wanted to and because she was born with a spirit of adventure.

She had a great success. She had a great success. She had a great success. She had a great success. She had a great success.

She had a great success. She had a great success. She had a great success. She had a great success. She had a great success.

She had a great success. She had a great success. She had a great success. She had a great success. She had a great success.

Reagan Submits Proposal. Aka's Charter Committee to Consider Need of Labor Commissioner.

COULD SETTLE LABOR DISPUTES. Appointed by Mayor and Could Subpoena and Examine Witnesses and Enforce Sanitation and Liability Laws.

Senator John E. Reagan, member of the city charter committee, proposed to the convention last night that an article be incorporated in the new charter providing for the appointment of a labor commissioner by the mayor.

Another automobile party of Chicago and their father overtook her and invited her to see several cathedrals. They were profoundly interested in her story and they put up at the little inn in her town and came around the next day and helped her make fudge and taffy and old-fashioned peanut stick.

They said they had the time of their lives and they bought all the candy she had.

Miss Putnam was gone from the middle of May to the first of October and she will never, never, never forget the joy of her experience.—New York Sun.

UNDERWOOD SAYS TARIFF MEASURE SHOULD BE SECRET. WASHINGTON, March 21.—Democratic Underwood asked tonight that the country withhold judgment on the tariff revision bill until it is presented to the house and made public by the authors of its framers.

Now she wanted to go to Europe. She wanted to go to England, and it was the only thing about her father's reverses that troubled her.

Now for spring painting. Neighborly Suggestion Roused the Energies of the Vocal Knacker.

The house will have to be painted this spring," said Mrs. Jamesworthy, "and while we're at it, I think it would be wise to paint the barn and woodshed also."

It is true that Mr. Pumpehead stopped a minute as he was going down town and called my attention to the fact that the house needs paint, but I don't see anything wrong about that.

It is true that Mr. Pumpehead stopped a minute as he was going down town and called my attention to the fact that the house needs paint, but I don't see anything wrong about that.

President Eliot May Be Ambassador to Great Britain. WASHINGTON, March 21.—Charles W. Eliot, president emeritus of Harvard University, has been decided upon by President Wilson for ambassador to Great Britain.

Order "Frat" Society to Disband Soon. BLOOMINGTON, Ill., March 21.—The council of administration of the University of Illinois issued an order today to Yoxan, an exclusive secret society, to disband by June 1. Alleged excessive use of intoxicants caused the order. This society was founded in 1906 and elected to membership upper classmen from the leading fraternities.

HOODOOS OF HIGH FLYERS. Charns and Mascots Carried by Superstitious Aviators for Luck. Like most people who play the game of chance, aviators are superstitious, and those who do not look to some sign or mascot for luck are the exceptions.

Engine and Work Train IS BURIED UNDER SNOW. GIBBON, Neb., March 21.—(Special Telegram.)—In a mile-long cut on the Hastings & Northwestern railroad during the recent blizzard the tender of an engine attached to a work train jumped the track. The efforts of the train crew to put it on the rails proved futile and the work train, engine and all was buried under the snow for two days.
