grow. Another was that the two or three cold spells over Texas and Okla-homa the last few days may have done grow. some injury to the plant. Strength was shown at Minneapolls when the May price went to Sec. This encouraged some buying in Chicago and Omaha. The market appears to be without any decided tendency at the present, a little over selling one day followed by a good rally the next. Cash wheat was unchanged. There is a tired feeling in the specula-tive trade in corn futures. Two or three times yesterday the May price was advanced close to 55% and July at one time close to 54%. The trade was extremely dull at the time and the market was helped by the bull turn in wheat. The cash trade all over the country is per-alyzed by the floods, which prevent business with the east Sentiment in the Chlengo trade is bearish, but there is a hesitation about pressing the selling side of the market because on each break of any importance buil leadership is felt and sellers are obliged to cover with losses. Cash corn was unchanged to become

advanced about 4c yesterday Argentina shipments of oats for the week are a little over 2,000,000 bushels. Shipping sales in Chicago were limited to 40,000 bushels. Cash oats were unchanged Sept to be lower.

Peters on Board of Trade.

CHICAGO. March 25. Favorable weather and reports of the excellent condition of wheat crops in the winter belt offset today higher cables and fears that damsge to the crop in the Ohio and Indiana flood district would be great. The effect was to make the range of prices narrow. The market closed steady, the lower to the higher. Corn finished with a net gain of 1-16c to be, oats with a similar het advance and provisions a shade lower to The higher.

Reports that flood damage to growing whent in Ohio, Indiana, Illinois and Kentucky would be at least 15 per cent caused a good demand at the beginning of the day and the market avened strong and active, but under ready selling soon active, but under ready selling soon active, but under ready selling soon active. OMAHA. March 23. ISII.

There was a bull market in wheat during the morning yesterday with a decidedty good upturn of \$\frac{3}{2}\$ cents for the late months and I's cents for May from the close Thursday. The Liverpoon market did not show the weakness expected following the late break in all markets on this side of the ocean Thursday. This was very surprising because Argentine shipments were given very large at 6.104.000 bushels and the total supplies from south of the equator at nearly double those of a year ago. Minnearly double those of the ocean thurselve on the beginning of the ago of the damage to reduce wheat in Ohlo. Indicat in to narrow strips and was more than counterbalanced by the henefit from moisture on the uplands.

The primary receipts of wheat were 542,000 bushels against \$2,000 bushels last year.

Statistics on seabcard clearances of wheat das and flour were not completed.

DISPOSITION-HEAD. Cudahy Packing company.

8,440 CATTLE-There were no cattle of any 16,354 head, being slightly smaller that last week and the smallest of any week for several morths back, as well as smaller than a year ago. At the same time receipts have been pienty large enough to supply the demand. The highwater in the east cutting off rallroad communication has made it very difficult for packers to forward meat products and still more difficult for eastern packing houses to ship live cattle. As a result of this the markt on all kinds of cattle has experienced a sharp decline during the week, notwithstanding the light receipts.

At the close of the week heavy beef steers are right around 25c lower, with the lighter weights around 15g20c lower. Cows and heifers, and in fact all kinds 5,354 head, being slightly smaller

Cows and helfers, and in fact all kinds of butcher stock shows about the same decline, being generally 15@25c lower than a week ago.

120 F 00 HOGS—Receipts were rather liberal this morning, but advices from other markets were of an encouraging nature and the feeling at the local yards was better from the outset. Shippers and speculators apparently had good sized orders and they started out buying light and butcher weight hogs at prices that were anywhere from strong to 5c higher. Pacaers seemed equally eager for anything on the light order, but mixed and heavy hogs were in very poor demand and prices for this class of stuff were at no time better than steady. SHEEP-There were no new arrivals today, therefore the trade remains nominally steady with Priday.

The week-end finds values in general on a sharply lower basis with lambs and wetners suffering the most decline. The bulk of the decent hilling lambs are new selling at a range of \$8.1008.50 as against \$8.0098.50 at the close of last week or largely 25.0000 lower than a week ago. As usual of late the most inquiry has been for the lighter grades of good quality, though owing to a relative scarrity of for the lighter grades of good quality, though owing to a relative scarrity of such kinds, the heavier ones sold to a good advantage on some days.
