CATTLE—Receipts were moderate to-day, making a total for the two days this week 6,253 head, the smallest for a number of weeks.

It was evident this morning that general conditions governing the cattle trade were improved to some extent at least. Buyers were all out in the yards in good season and were all looking for desirable fat cattle. As a result of this the market on beef steers was active at an advance of 100 over yesterday's prices. The big bulk of the receipts changed hands in good season.

Cows and helfers were also in good demand and they were a little stronger again, making the market for the two days making the market for the two days making the market for the two days this week 10g15c higher than last week's close. 

sellers for several days back, but today there was a little better inquiry and the trade, if anything, a little more active, trade, if anything, a little more active, prices remaining just about steady with last week's close.

first bids, they fell in line with the shippers and speculators and consequently the majority of the light hogs in the yards soid at \$8.8098.56, a big nickel higher than yesterday's prices on the same grades. By the time buyers had filled their early orders there were not nearly so good as the figures paid early, being in most cases little if any better than Monday.

The demand seemed to be confined entirely to the light hogs and heavy butcher and packing grades were a drag on the market all morning. In the majority of cases it was impossible to get a bid on this class of stuff, and when a salesman was lucky enough to get a bid necessary.
