

WORK OF CLEANING UP CITY TO BEGIN IN EARNEST TODAY

Five Thousand Men to Assault the Tornado Zone Early This Morning. CITY HALL MEETING PLACE Are to Be Assigned to Districts Where They Will Labor.

HOPE TO FINISH IN ONE DAY

Tools for Conducting Campaign Are to Be Supplied. CORPORATIONS SEND EMPLOYEES Free Meals Are to Be Served and Removal of Debris is to Continue During the Entire Day.

If the 5,000 men turn out to help clean up the wreckage of the tornado district today, as they are expected to do, in the minds of some members of the committee there will not be very much to do Sunday. In spite of this fact the committee is planning the work of cleaning up for a two days' job.

Persons who have not visited the devastated district for nearly a week until yesterday were surprised to find what wonderful work had already been done in the way of cleaning up. Bemis park does not look as it did ten days ago. It has been cleaned and cleared of rubbish, and the grass lawns throughout the park are smooth and neat.

Home Owners Busy. Dozens of home owners have not waited for the public to get in and help clean up, but have got their own lawns and have already cleaned them.

Meet at City Hall. It is the belief of W. S. Jardine, in charge of the work, that if 5,000 workmen can be thrown into the tornado district early this morning and will work hard throughout the day the district will be cleared of debris and Sunday may be a rest day.

MARTIN DEFENDS THE BOARD

Attorney General Makes Address to the House. POWER PROVISION IS EXPLAINED Resolution to Expunge Criticism of Irrigation Board from Record Goes Over Under Objections from McAllister.

(From a Staff Correspondent.) LINCOLN, Neb., April 4.—(Special Telegram.)—Attorney General Martin appeared before the house this morning and answered the charge and criticisms made against the State Board of Irrigation by a special committee of the house.

After the conclusion of his address, and following a defense of the committee by Representative McAllister, its chairman, a resolution was introduced by Representative Richardson to expunge from the records any reflection upon the irrigation board. Representative Norton objected to the resolution at this time and it went over under the rules until tomorrow.

Goes Over Report. In his talk Mr. Martin said the house adopted a report of the special water committee which charges the State board of irrigation with granting certain water rights without considering the welfare of the state and further charges those grants were made in bold defiance to the peoples rights at the issuance of such rights is a crime against the people of the state.

FARMERS ARE NOT INCLUDED Elective Measure and Does Not Take in Small Firms.

OLLIS BILL GOES WITH IT Recommended as Drafted by Valley Member to Provide for Employers' Insurance.

(From a Staff Correspondent.) LINCOLN, Neb., April 4.—(Special.)—A new workmen's compensation and employers' liability act was sprung on the senate today when Senator Hoagland of Lincoln moved that a bill prepared by a subcommittee of the judiciary committee, consisting of Healy, Saunders and Cordell, should be substituted in place of S. F. 1, introduced by him at the beginning of the session and now on the general file.

Makes Act Elective. Healy said the measure was elective and did not include farming or domestic lines, neither did it include retail or wholesale firms employing less than five persons. The law would not be compulsory, if the employer elected to stay out, then the three defenses—contributory negligence, fellow servant and assumption of risk would be taken from him.

Ordered Engrossed. After discussing the bill for most of the day with very little change it was ordered engrossed for third reading without a dissenting vote.

FREE WOOL, FREE STEEL RAILS AND LOW DUTY ON SUGAR

President Wilson and Leaders in Both Houses of Congress Agree on Tariff Program.

FINAL DRAFT OF NEW BILL Ways and Means Committee Will Be Ready to Report.

DIFFERENCE ON MINOR POINTS Senate Finance Committee Will Again Confer with Wilson.

LOUISIANA SENATORS BALK They Say Their Constituents Cannot Compete with Sugar from Cuba—Wilson Would Remove All Duty Soon.

WASHINGTON, April 4.—With President Wilson and congressional leaders practically agreed upon free wool and very low duty on sugar, eventually to become free, the ways and means committee today began drawing a report on the new tariff bill, estimating the loss of revenue from the new rates at \$9,000,000 a year.

Among the numerous additions to the free list will be steel rails. Cuts will be made all along the line on the metal schedule. After the senate finance committee reviewed the bill today a subcommittee went into conference with Chairman Underwood of the ways and means committee. There is now believed to be a general agreement all around.

When the conference was asked it was announced that a complete agreement was hoped for, though there might be some delay on the house. The finance committee will meet again Sunday prior to a further conference with President Wilson.

President Wilson would like to see free sugar, but recognizes that a concession may be necessary to southern planters and would consent to a duty of practically 1 cent net a pound, provided all duty be removed within three years. This would mean for the present a duty of 1.25 to all countries except Cuba.
