GRAIN AND PRODUCE MARKET

Shorts in Wheat Eager to Cover the Outstanding Contracts.

CORN SHOWS UP QUITE STRONG Profit Taking Sales Are Realised by Three Conspicuous Leaders,

Who Unload Upon Buying Market. OMAHA, April 6, 1914.

OMAHA, April 5, 1914

Shorts in wheat were in dire distress yesterday and many of them were eager to cover their outstanding contracts, even at losses. Had not wheat furnished the frain wanted a runaway market would doughtless have been the result. A strong leature in the markets of America is the fact that a great deal of Canadian whust which has not been seeded has been taken for export for shipment next beptember. October and November.

The fact was learned yesterday through thannois which cannot be disputed. That the Canadian wheat affeat has all been sold to foreigners and a great deal of grain in various positions in Canada is owned by importing countries. These facts have caused the duliness seen in the export trade in the United States, but with any crop scares in our own winter wheat a demnad will develop from the other side that will help matters from the standpoint of the bulls.

If one would watch closely the reported crop conditions from year to year it would be seen that crop losses have always been forecasted by some kind of messages as are now being received. These dispatches tell of the wheat plant being in need of rains in certain quarters of Kansas and at least two measages were received here yetserday from points throughout the state which toid of a probable falling off in condition uness rains visited those sections before another week rolls around.

The Bartlett-Frazier company, through its crop expert, sent out a report showing the condition of winter wheat in the southwest and which was construed by the trade as bullish. The condition of the winter wheat plant on April 1 was placed at 85.6 per cent, against 81.2 last year and an average of 8£2 the last ten years. A decline in conditions between December 1 and April 1 of 4.6 was noted.

Cash wheat was unchanged to 'ac higher.

A stronger tone in corn futures soon after the opening yesterday was met by

Carlot Receipts.

Dry Goods Market.

NEW YORK, April & DRY GOODS—
Buyers of cotton goods are anticipating price concessions and for that reason they have been operating in a hand to mouth way. This is particularly true of the domestic buyers for the jobbing houses. The converters have been able to secure some concession and during to secure some concession and during the last week a few of them have placed better orders on contract. The demand is not broad and while it cannot be called either dull or quiet, it lacks the proportions that give sellers confidence in the maintenance of the highest levels of value. LONDON, April 5.-American securities of value.

Draperies are being ordered freely for fall. Low priced lines of cotton hostery and underwear are scarce. Good qualities of many kinds of cotton goods merchandise are noticeably hard to get for prompt shipment.

CATTLE-The market was practically bare of cattle today, only one car being reported in. For the week receipts have been very moderate, being the smallest of any week since the holiday week last

SHEEP—As usual on a Saturday noth-ing in the way of sheep and lambs showed up, so prices are quotably the same as on Friday.

range of \$8.50gs.75, with light-weight Mexicans making a top of \$8.55 and fed westerns selling as high as \$8.50. Shorn lambs have been in light supply on most days, especially towards the end of the week, closing sales being around \$7.50g 7.50. Feedling and shearing grades have had a weak and lower tendency and the trade has dwindled down to almost nothing, there being only one sale on yesterday's market. It consisted of hay fed offerings from Idaho averaging Il pounds that sold at \$7.55. Strictly feeding lambs that packers do not want would bring prices around \$7.50g7.75.

An unusually light supply of aged sheep and yearlings showed up and this has been true at most all live stock centers. There really were not enough muttons offered to try out values, though what were here indicated the same advance as on lambs. Bulk of the good ewes are now changing hands at \$8.55g3.50, the latter figure being the top for the week.

Quotations on Sheep and Lambs: Good to choice Mexican lambs, \$8.55g3.50; fair to good western lambs, \$8.55g3.50; fair to good western lambs, \$8.55g3.50; fair to good western lambs, \$8.50g3.50; fair to good western, \$8.50g3.50; fa OMAHA LIVE STOCK MARKET range of \$8.50g8.75, with light-weight Mexicans making a top of \$8.85 and fed Killing Cattle Twenty to Quarter

EFFECT OF CAFFEINE STUDIED Active Principle of Coffee Put to Test by Psycholo-

The influence of caffeine, the active

principle of coffee, on mental and motor afficiency has been studied by the paychologists. The Journal of Philosophy. Psychology and Scientific Methods reviews the experiments on sixteen subjects ten men and six women, over a period of forty days, reported by H. L. Hollingworth, including an intensive experiment of three days to study the effects of caffeine at close range and to determine their time relations; also a seven-day test of the effects of the drug administered with syrups. A cup of coffee contains about 25 grains of caffeine. Mr. Hollingworth finds the effect of small doses, up, so prices are quotably the same as on Friday.

The week's trade has been just the opposite of what it was last week in that receipts have been liberal and prices in both the lamb and sheep divisions show a substantial improvement of at least spece of less uneven all the week's closing quotations. As the market has been more or less uneven all the week there has been sven greater advances in some instances. Early in the week the trade had not fully recovered from the depressing influence caused by the bad condition of the sastern dreased mutton market during the closing days of last week Around mid-week, however, some strength developed in the east which to some extent helped the local situation. Another buillash factor was a slight falling off in the receipts both here and at outside points, resulting in inadequate supplies for the packers's demands.

At the close of the week the bulk of the decent killing lambs are selling at a

The quickest way to get results in your want advertising is to use The Bee - the paper that brings returns which are more than simple inquiries. The Bee returns are results that give you good satisfaction for the money you have spent, Here are the headings under which you may place your wants in The Bee and be sure of rich, substantial returns:
