### BILL AFFECTING TAXATION

Senate of Iowa Passes Act Changing Corporation Assessment.

FOR CONSTITUTIONAL CHANGE

Plan is to Assess All Property of This Character by the State and Take It Out of the Hands of Local Officers.

Telegraphic news was received here yesterday afternoon that the senate had passed a resolution that has gone through the house, providing for a constitutional amendment to change the entire method of assessing railroad and other corporation property.

The plan is to assess all of this property by the state and to exempt it wholly from local taxation. The plan proposed is much the same as that by which all of the cities and towns lose the taxes that should be paid locally upon automobiles, but which now goes direct to the state.

If the proposed measure is approved by Governor Clarke, and goes to the people for solution, the fight that will follow will be between the cities and the remainder of the state, with the cities vastly in the minority.

Under the present system of railroad taxation conditions are brought about that make it impossible for a great city to be developed in the state and which has kept Iowa in the list of purely agricultural states and its population on the descending scale instead of the legitimate growth. It was to correct the injustice of the railroad taxation system that the cities of the state have so long been fighting for equitable terminal laws. The adoption of the proposed constitutional amendment would destroy it is said what little chance the cities now have of getting any revenue from the larger corporations.

Word was also received yesterday that the senate had passed a bill authorizing any city or town to levy a 7-mill tax for the support and equipment of fire departments. At the present time the money for such departments comes from the general fund tax of 10 mills. The bill was fought through the senate at the behest and in the interest of Sioux City.

During the absence of the family the home or William Hall, 720 Elighth avenue, was raided by a burglar Thursday night. He evidently used a pass key. He is the match-burning variety of burglar and is suspected of being the same individual the Fourth ward in the same manner and under the same circumstances. The fillow of the house was littered with matches. He secured \$40 in cash and some minor articles of value.

#### Making Search For Fire Fiend

Search for the fire fiend who has made five ineffectual attempts to burn the Young Men's Christian association's building is being prosecuted vigorously by the board of directors of the association, aided by two detectives from the Burns agency. An elimination process has been used and the statement was short service at the residence at 1 o'clock short service at the residence at 1 o'clock short service at the residence at 1 o'clock has been used and the statement was made last evening by Robert B. Wallace, president of the association, that all of the present officers and employes had been fully exonerated. Mr. Wallace said:

"I would rather see that building After an illness of only five days Henry."

"I would rather see that building burned down or blown into atoms than to cast unjust suspicions or fasten gulit upon an innecent man. Nothing is so sacred as human character, and to destroy that character is worse than destroying life. There are none of us but would rather see the beautiful building would rather see the beautiful building rooms and sent Friday morning to Rooms.

constantly at the building for many months past and who has been as familiar with it as any person could be, or in other words, that he has been working from the inside. We are at present without a clue and we can find no motive, or no sane motive, to ascribe to the miscreant. There never has been a word of complaint from anyone concerning the methods used or plans of conducting the

"The anger of the members, which culminated Tuesday night in a frenzy that would have meant summary punishment to the rascal if he could have been caught, has since changed into a feeling akin to horror as the dastardy of the deed is more fully comprehended. Our investigations are not nearly complete and we are going to discover the author of the mischief if discovery lies within the tange of human possibility."

ularity.

The officers of the association as well as its members and the people of the city are keenly appreciative of the splendid work of the fire department, which has saved the building four times when confronted by conditions that would have brought disaster if the least mistake had en made at the critical moment. Chief Nicholson said yesterday that he never was prouder of the department than he per can, 15c; loose oatmeal, 8 pounds for the hill. It made one sharp turn withdestroy the building.

was held last evening, following a ses- Ohio potatoes, 85c per bushel. Sun-Kist ployed to work con the mysterious fire nothing but the best quality of everyproblem. It was announced in the afternoon that the investigations made fully exonerated all of the present employes of the association, but to make it still stronger the board last evening passed this resolution:

Be it Resolved. By the board of directors of the Young Men's Christian association of Council Bluffs, in, that, Whereas, Certain reports have been circulated in the city with reference to the recent fires in the building; and, that Whereas, The board of directors have made a careful examination into the mater of such rumors and reports and have ter of such rumors and reports and have

ter of such rumors and reports and have made a thorough investigation of the same, be it, therefore,

Resolved, That after such examination and investigation this board does hereby cass a unanimous vote of absolute confidence in each and all of the employes and secretaries of the building and of the resolved, That after such examination and investigation this board does hereby unanimously experience any and all of the

some minor articles of value.

Judge Wheeler yesterday granted a temporary writ of injunction restraining Martha Cone and Sheriff Lindsey from selling under execution a lot in the western part of the city. The plaintit is B. H. Cone, who was divorced from his wife at the January term of the district court. A stipulation was entered into at the time by which cone was to pay his wife \$35 whenever he succeeded in selling the lot in question. He has listed it for sale, but it has not been sold, and the ex-wife has started to secure it under execution. The injunction was issued when Cone filed a bond for \$600.

Mrs. Margaret Heasten died vesterday.

would rather see the beautiful building we have brought forth at the cost of so much sacrifice and labor completely obliterated than to see one innocent person destroyed by injustice.

"We have not found the fiend yet, but are more fully convinced than ever that it has been one who has been almost."
