Council Bluffs

LIFE TERM FOR HOLMES

Man Who Tried to Wreck Train Admits Guilt.

ONE OF DOWN AND OUTERS

Unable to Make Living He Turns Hobo and Fails at that Landing in Fort Madison for Life.

Although warned of the consequences of such an admission, John Helmes, 32 years old, weak in body and feebler in intellect, confessed yesterday afternoon in district court that he had placed obstructions on the Great Western railroad tracks for the purpose of wrecking a train that he might get an opportunity to commit robbery. After closely questioning the man for the purpose of bringing out as much of his history as possible, the inquiry was so disheartening that the court declared he was obliged to sentence the man to life imprisonment.

Although still far from the meridan of life, Holmes declared he had spent many years in jails and prisons and had served twelve years in the prison at Auburn, N. Y. for burglary. He said his parents live at Buffalo and that the crime for which he was sentenced last was committed there.

He said he was released from prison last May and told a pitiful tale of his vain efforts to meet the buffetings of the world. He thought he could do better in the west and started out with a hopeful heart. He sought employment in many directions, but he was unskilled and failed. His only resource was that of a common laborer. His undersized body, poorly nourished, was unequal to the strain and he failed.

Joines the Hoboes.

Discouragements induced apathy and he joined the great army of hoboes. Even in that class he was inferior and suffered hunger where others were well fed.

One afternoon last February he reached Omaha. There was only one place for him to go for shelter and that was the police station. He staid there one night and was turned out with the order to get out of town. He reached Council Bluffs on Saturday afternoon and soon found his way into the city jail, where he remained until Monday. Monday afternoon he heard again the old order, "move on." He was thinly clad and faced the February cold at its most chilling point. Not able to meet on terms of anything but inferiority the members of the tramp army constantly flowing in and out of the city via the boxcar route, he started to walk alone, following the tracks of the Great Western railroad. He reached a point twelve miles from Council Bluffs when darkness came. There were cheerful lights in the farmhouses and he frequently heard shouts of merry laughter.

"I even wished that I might have been born a cow, a pig or a horse so I could have had a cozy stall, a warm coat and plenty to eat," he said bitterly, detailing his experiences. "I was down and out and did not care what became of me or what I did, and when the thought came to wreck and rob a train it seemed as good as anything else. I piled ties on the track in two places, hoping that a train would come along and be wrecked and I could get a chance to take something, rob anybody or anything I could."

A freight train, moving at a slow speed, coming from the east, encountered the last obstruction Holmes placed on the track. The train was stopped and the ties removed. Holmes, expecting a passenger train from the west, had gone back a mile, where he had placed the first pile, and was nearby when the train crew stopped and removed the ties. Holmes was put aboard the train and brought back to Council Bluffs and lodged in the city jail, with the crime committed that gave him a life sentence. The man will be confined at hard labor at Fort Madison. He took his sentence indifferently.

Five Years for Streeter.

S. E. Streeter, who was convicted of stealing 5,000 pounds of sugar from the Council Bluffs Stove Storage company and selling it in Omaha, received a sentence of five years, the maximum prescribed by the law, just as the other was the minimum. He was indicted also on the charge of breaking and entering, but declared he would admit the guilt of the first charge if the second was dismissed.

Mike Rafio, alias Mike Gusteno, an Italian, 22 years old, who was indicted for forgery for securing the value of several $5 checks to which he had signed the name of L. Solomon of this city, pleaded guilty to a modification of the charge and took a seven-year sentence for obtaining money under false pretenses. Both of these young men will go to the Anamosa reformatory, not to the penitentiary. Their sentences are indeterminate and both may be released by good conduct within two years.

Information furnished upon application. D. S. Stanley, Lieutenant Colonel Quartermaster Corps. A11-15-16-17m3-19

Council Bluffs

Prices Upon Hose At Same Figures And Eats Cut Out

The hope expressed by Alderman Fisher chairman of the fire and light committee of the city council, that if bids for more than $2,000 worth of fire hose could be secured without the annoyance of having fifteen or twenty energetic salesmen invade the city and disrupt the digestive apparatus of the members of the council by insisting upon $50 banquets, the cost of these superfluous entertainments might be deducted from the price finally to be paid for the hose, did not appear to be realized last night when a big batch of bids were opened. With perhaps one or two exceptions, the prices ran along very evenly on the lines of previous purchases, with exactly the same figures for the same grade and brand of hose now being used by the department.

There were eight bids submitted and the prices ranged from $1.25 per foot for the highest and 75 cents for the lowest.

All of the bids were referred to the fire and light committee and chief of the fire department for tabulation to report at the next meeting.

Protests against the improvements made by A. A. Clark, when the council granted him permission to extend his show windows on the Main street eighteen inches and on the Broadway front nine inches, were quieted by the approval of a resolution renewing agreement permitting it.

The question of ordering the pavement of Franklin avenue from the present line of pavement south was discussed for half an hour and finally referred to the committee of the whole.

Robert B. Wallace submitted the plat of the new Lockwood addition on Woodbury and South avenues, comprising nearly ten acres of platted residence property.

The Lana Construction company was granted exemption from city taxation for a period of five years, upon its new tile plant costing $6,000.

The Great Western railroad served notice that it disclaimed responsibility and liability for clogged waterways at several points along its right-of-way.

A communication from the mayor declaring that the use of the street flusher had been prevented by crtain mmbrs of th council and that he was getting unmerited criticism for permitting dirty streets, awakened some interesting discussion and led to the prompt approval of a resolution directing the street superintendent to resume use of th sprinklr at once.

E. W. Hart, former manager of the Water company, was a council visitor and near the close of the session was called upon to make a speech.

Iowa

CHANGE IN COURT PRACTICE

Measure for Reform in Procedure Passes Iowa Legislature.

COUNTY ATTORNEY A LAWYER

Effort to Make Appropriation for San Francisco Exposition Fails Utterly in Spite of the Attempts.

(From a Staff Correspondent.)

DES MOINES, April 15.—(Special Telegram.)—The legislature today finished up one of the measures for court reform recommended by the supreme court, under which it will be required of attorneys that they make their objections to court instructions in writing and file them with the court before the instructions are given. The purpose is to prevent appeals on technicalities.

The senate today defeated the bill to make application for an Iowa building at the San Francisco exposition. An effort to get even a small appropriation failed.

The senate passed the house bill which will permit the people of Kossuth to take a vote on division of the county and forming Larrabee county out of the north half.

Among other bills passed was a bill to require a county attorney to be a lawyer; fixing pay of appraisers of land; forbidding taking liquor or drugs into the inebriate hospital, and one authorizing the board of health to require sanitary conditions at mining camps.

The governor today named A. C. Wilson of Oelwein a member of the pharmacy commission for the three-year term beginning April 23.

May Vote Aid for Trolley Line.

The senate passed a house bill Saturday which will provide for tax aid for the construction of a trolley line, or the electrification of certain railroad lines, from Fort Dodge to Spirit Lake. It permits voting aid by large districts not farther from the proposed line than five miles. The plan is to vote aid for electrifying the Minneapolis road to Livermore and the Rock Island thence to Spirit Lake, which would make a continuous trolley line from Des Moines to the northern Iowa city.

The senate passed a bill increasing the salary of Superintendent Mogridge at the state institution at Glenwood to $3,000.

Commerce Counsel's Duties.

The senate passed a bill changing the law as to the duties of the commerce counsel and somewhat strengthening that office. The bill gives the commerce counsel more specific duties and greater authority to take the initiative in all matters.

The senate passed a bill to provide that where petitioners ask for opening a highway they shall be exempt from damages.

The senate nonconcurred in house amendments to the bill to give banks the right to act as trust companies.

Approve Plans for Building.

The ways and means committee presented a report approving plans and specifications for buildings to be erected out of the millage taxes at the various state colleges. The aggregate of expenditures authorized in the report which will be approved by the legislature is $830,000.

Druggists May Continue Business.

The senate killed off a house bill Saturday that had for its purpose lessening the number of drug stores in the state by a radical change as to the manner of sales of liquors. It proposed that the druggists holding permits might sell alcohol only and that on prescriptions. It received but eighteen votes in the senate.

The senate passed a bill to give to the State Highway commission for expenses 8 per cent of the fees received from motor vehicle licenses.

Provides Eight Bank Examiners.

The house passed a bill to provide eight bank examiners for the state instead of six as at present, and they shall have had five years' experience in the banking business.

The house passed the bill to permit of railroads having the long haul at competitive points meeting the competition of the short line.

The house passed the bill to authorize city treasurers to place city funds in banks at 2 per cent interest.

The senate passed a bill making a small appropriation to reimburse two teachers in the school for the deaf for loss of clothing in a fire.

Failure of One Road Bill.

The house failed to pass a very important road bill which came from the highway committee, but which was amended in various ways after it reached the floor of the house. It was the first serious effort made to provide for the financing of the road movement by a safe method. It provided for road districts, the issue of bonds by counties and the construction of surfaced roads where the people of the district were willing to pay for the same. But the reactionary element which is determined that nothing shall be done toward permanent roads prevailed and the bill failed. An effort may be made to get a similar bill through the senate and again before the house.

Will Have One More Week.

It is conceded that the legislature will remain in session all the coming week and possibly into the next one. The preliminary talk is of adjournment on the 17th, but nobody anticipates that the work can be finished by that time.

The large appropriation and taxation bills have as yet to be passed or prepared. They will call for more or less of discussion and time must be taken to consider them. There is fear that if hasty action is taken for adjournment this will not be done.

No Income Tax in Iowa.

The bill for a submission to the vote of the people of Iowa a proposed constitutional amendment on the income tax was defeated in the senate today. It received but eighteen votes. The house had early approved this amendment, but federal government has adoped an income tax system it would be better for Iowa to wait and see how it works.

School Book Company Wins.

The school boog combine had a big winning in the senate today after a hard struggle over a bill which came from the house to make it easier to secure county uniformity of text books. The bill was juggled by the committee. The effort to get it out failed. It will therefore be killed by the committee.

The senate passed a bill amending as to the school text book commission making it a body of five educators.

To Adopt Tax Bill.

The senate fixed for tomorrow, a special order on the bill for a state tax commission, and giving power to the state to secure uniformity of taxation. The committee on ways and means introduced amendments that will be offered so there will be no new offices created, but the whole matter will go into the hands of the state executive council for its action. This will remove a large part of the opposition which has been directed at the creation of a new state commission. It is believed that a very strong effort will now be made in both houses to pass the bill.

Capitol Extension.

Governor Clarke has been warmly congratulated by many people of the state for having succeeded in getting the legislature to adopt a millage tax for the enlargement of capitol grounds. General G. M. Dodge of Council Bluffs, chairman of the Allison Monument commission, wrote him saying:

"I not only want to congratulate you, but to thank you most heartily for your success in having passed the bill for the development of the capitol grounds. You have no idea what a relief and satisfaction it is to me, and I know it was your personal influence and interest in the matter that brought it about. And I want to say to you I think it will be one of the most important features of your administration and of this legislature, and you many well be proud of it, for when these grounds are obtained and worked out on the general Masqueray plan, the Iowa capitol will have a better setting than any state capitol in the United States. And there will not be a citizen who will then view it, but what will not only appreciate it, but appreciate the fact that it was taken hold of so early and successfully."

Druggists Fear Measure.

Druggists of the state, and especially the jobbers, are up in arms over a proposal for a board to control the sale of proprietary medicines and to issue licenses to those who are authorized to sell the same. The scheme is to force the patent medicine trade out of the department and gneral stores, but it would also be a great hindrance to the general trade. Just why such a bill should have been introduced late in the session is now clear. It is in the hands of the sifting committee.

Governor Clarke caused to be recalled to the senate a bill in regard to unprofessional conduct on the part of doctors, which contained a proviso that the making of a charge manifestly exorbitant for a surgical operation should be deemed unprofessional conduct. This was believed to be a clause that would cause a great deal of litigation and produce no good results.

Erect Women's Building.

Committees of the legislature have agreed upon a bill for a $75,000 building for women and children at the state fair grounds. This will be the only large building authorized for the state fair at this time. The legislature will approve plans for buildings at the colleges, including a $250,000 chemistry building at the State college, a gymnasium at the university to cost $125,000, a women's dormitory at the Teachers' college to cost $100,000, and a manual training building at the Teachers' college to cost $100,000.

Amend Appropriation Bill

The house amended the senate bill in regard to the appropriations for the state historical department, raising it to $20,000.

Bills passed by the senate:

House bill to penalize city clerks for failure to report to state auditor.

Bill by Kimball fixing the responsibility of guests to hotel keepers.

Senate bill to create education commission on adoption of text books in a county.

Senate bill to fix penalty for illegal sale of cocaine.

Senate bill fixing county tax levy at 6 mills in all counties.

Bill by Kimball granting to widows of policemen in Council Bluffs right to come under pension law.

Bill to permit paying drainage district assessments with drainage district warrants.

The senate defeated a bill to compel railroads to pay for cost of drainage ditches across right-of-way.

The senate amended a bill recalled from the governor defining unprofesional conduct on the part of physicians, and struck out the reference to exorbitant fees.

The senate refused to pass the Miller bill to strengthen the law as to prosecution of trusts.

State Highway Commission.

The governor today appointed the state highway commissioners provided under the new law. He named John Holden of Scranton and H. C. Beard of Mount Ayr. The former is a member of the Board of Supervisors of Greene county, and the latter the editor of a democratic paper in Ringgold county. The third member of the commission is Prof. Marston, dean of the engineering department at Ames.

Congregationalists In Session.

WEBSTER CITY, Ia., April 14.—(Special.)—The Webster City Association of Congregational Churches will hold its annual meeting Tuesday and Wednesday in Humboldt. The association is composed of the churches in central Iowa. A meeting of ministers is being held this afternoon and another will be held in the morning prior to the meeting of the association.

Iowa News Notes.

CRESTON—Notice of a suit for $10,000 damages has been filed against A. L. Bibbins, landlord of Bedford's leading hotel, the Garland, by Lorine Roberts, leading woman of a theatrical company which recently played there. Ferne Hamilton, another member of the company, has filed an action asking for $5,000 damages of Charles Breckenridge, manager and owner of the theatrical company. It is said when the company was leaving Bedford Lorine Roberts gave written notice to Bibbins that he should look to Breckenridge and not to her for a board bill. She then went to the station and the hotel man had her arrested. Later the case was dismissed and the suits followed.

ACKLEY—Dr. E. M. Brenniman of Ackley was robbed of $75 in cash Saturday afternoon in broad daylight while he was in a room next to that where the burglar worked. The doctor heard the burglar enter and supposed he was a patient coming in. He looked into the room, but the burglar satisfied his belief that he was a patient awaiting his turn for attention and the doctor returned to his work. The burglar began a cheerful whistling accompaniment to his manipulations, opened the doctors' safe and appropriated the roll of bills lying there, and finally walked out.

Father of Omahan Seriously Injured In Auto at Denver

DENVER, Colo., April 15.—(Special Telegram.)—Dr. Albert E. Disbrow was seriously hurt when his auto ran into a rope stretched across Fourteenth street near the Auditorium yesterday afternoon. The rope caught the physician under the chin and threw him backward so that his head struck against an iron projection. His throat was severely cut, and it is thought he is suffering from concussion of the brain.

Thomas Disbrow, the physician's brother, was slightly cut over the right eye by glass from the windshield.

The injured doctor is the father of Mrs. Olive Claggett of Omaha.

Mrs. Claggett is the wife of Horace G. Claggett of 4810 Pierce street. Her father, Dr. Disbrow, formerly lived out in the state, but moved to Denver several years ago where he has lived since. Mrs. Claggett did not know of the injury to her father early last evening.

How to Beautify Hair and Complexion

(Martyn's Health Guide.)

Nothing has been found so efficient to keep the scalp clean and healthy and the hair lustrous, fluffy and growing as a shampoo prepared by dissolving a teaspoonful of canthrox in a cup of hot water. After rinsing the head feels good and the hair dries quickly without streaking. This shampoo costs little and is very easy to use. It removes dandruff instantly and prevents brittleness and split hairs.

A lotion, far better than face powder, which seems part of skin when on and whitens and beautifies the complexion can be made at home for little money. Dissolve 4 ounces spurmax in ½ pint witch hazel (or hot water), then add 3 teaspoonfuls glycerine. For taking away that shiny, oily, sallow look and improving a "muddy" complexion it is unequaled. It is very beneficial to the skin, does not show as a powder or rub off easily and gives to the skin such a smooth, refined appearance.—Advertisement.

This Washer Must Pay for Itself.

A MAN tried to sell me a horse once. He said it was a fine horse and had nothing the matter with it. I wanted a fine horse. But I didn't know anything about horses much. And I didn't know the man very well either.

So I told him I wanted to try the horse for a month. He said "All right, but pay me first, and I'll give you back your money if the horse isn't all right."

Well, I didn't like that. I was afraid the horse wasn't "all-right" and that I might have to whistle for my money if I once parted with it. So I didn't buy the horse although I wanted it badly. Now this set me thinking.

You see I make Washing Machines — the "1900 Gravity" Washer.

And I said to myself, let's see if people may think about my Washing Machine as I thought about the horse and about the man who owned it.

But I'd never know, because they wouldn't write and tell me. You see I sell my Washing Machines by mail. I have sold over half a million that way.

So, thought I, it is only fair enough to let people try my Washing Machines for a month, before they pay for them, just as I wanted to try the new horse.

Now, I know what our "1900 Gravity" Washer will do. I know it will wash the clothes, without wearing or tearing them, in less than half the time they can be washed by hand or by any other machine.

I know it will wash a tub full of very dirty clothes in SIx minutes. I know no other machine ever invented can do that without wearing out the clothes.

Our "1900 Gravity" Washer does the work so easy that a child can run it almost as well as a strong woman, and it don't wear the clothes, fray the edges nor break buttons the way all other machines do.

It just drives soapy water clear through the fibers of the cloth like a force pump might.

So, said I to myself, I will do with my "1900 Gravity" Washer what I wanted the man to do with the horse. Only I won't wait for people to ask me. I'll offer first, and I'll make good the offer every time.

Let me send you a "1900 Gravity" Washer on a month's free trial. I'll pay the freight out of my own pocket, and if you don't want the machine after you've used it a month, I'll take it back and pay the freight, too. Surely that is fair enough, isn't it?

Doesn't it prove that the "1900 Gravity" Washer must be all that I say it is?

And you can pay me out of what it saves for you. It will save its whole cost in a few months, in wear and tear on the clothes alone. And then it will save 50 cents to 75 cents a week over that in washwoman's wages. If you keep the machine after the month's trial, I'll let you pay for it out of what it saves you. If it saves you 60 cents a week, send me 50 cents a week till paid for. I'll take that cheerfully, and I'll wait for my money until the machine itself earns the balance.

Drop me a line today, and let me send you a book about the "1900 Gravity" Washer that washes clothes in 6 minutes.

Address me this way—H. L. Barker, 380 Court St., Binghamton, N. Y. If you live in Canada, address 1900 Washer Co., 380 Court St., Toronto.

MAYR'S WONDERFUL STOMACH REMEDY

**Will Prove a Genuine Blessing to Every
