NEW YORK, April 18.—The drift of prices was downward on the stock ex-change today, although the pressure of selling was not severe and few impor-tant stocks lost more than a point. Trad-ing was of the same listless character as on recent days. There was a con-tinued absence of outside speculative in-terest and offerings of stocks were prin-cipally in the nature of professional short selling.

Paul Offering Helps the

Bears.

NEW YORK STOCK MARKET

Downward.

15

Bear traders felt that their position was reinforced by the result of the offer-ing of the new St. Paul 4's bonds. The fact that even the comparatively high 1.3 rate of return was not sufficiently attractive to capital to call forth subscrip-tions for the entire issue was regarded as significant of conditions to confront other applicants for capital. Sale of more than \$50,000,000 of these bonds, however, showed that control to avoid the second seco 21.3 that capital is available, provided bor-rowers adapt themselves to present con-ditions. The new St. Paul bonds again sold on the stock exchange at 3 under 14.1 23.5

the subscription price. There was further pressure on some stocks which have been affected by new financing. Baltimore & Ohio dropped to the lowest pluce 1911. Southern [83]4, the lowest since 1911. Southern Pacific was sold heavily at times, its weakness being attributed to the bellef that Union Pacific's holdings of that slock might be placed on the open mar-ket, should the latest dissolution plan be approved by the courts. The copper 26.0 shares also were heavy and among the specialties there were a number of snarp declines. Mexican Petroleum rose over 5 points, its strength being explained by the increase in dividend rate from 4 to 5 per cent. 5.2 8.8 6.4

The result of the week's currency no result of the week's currency movements apparently has been to strengthen the position of the banks, forecasts based on known movements pointing to a cash gain of \$6,000,000 or \$7,000,000. Money rates were inclined to be easier. Foreign exchange weak-ned under the influence of lower discounts Bonds turned downward again. Rock
