The case was laid before Attorney General Wolcott, who directed the girl committed to an institution pending his application to the court for annulment of the marriage.

First Step Toward Settling Struggle in Belgium Taken

BRUSSELS, April 19.—While it is premature to hope for an early settlement of the great strike that is paralyzing the economic life of Belgium, efforts made today by M. Hyman, the liberal leader in the Chamber of Deputies, to conciliate those opposed to granting manhood suffrage to the workmen, appear not to have been altogether in vain. The chamber adjourned until next Tuesday on motion of the premier to consider the situation.

PEOPLE OF OMAHA TO VOTE UPON GAS FRANCHISE

(From a Staff Correspondent.)
 LINCOLN, Neb., April 19.—(Special Telegram.)—The house tonight adopted the conference committee report on the bill giving the right to the people of Omaha to vote on the extension of the franchise of the gas company and to secure dollar gas. The amendment provides the franchise shall not be longer than twenty-five years and after twenty-five years the city shall have the right to buy the plant. The conference committee report on the

Welfare Commission Bill was also adopted.

The amendments reduced the membership of the commission to five persons, \$5,000 being appropriated to carry out the provision of the act.

The rest of the evening was spent in a good-natured riot, during which senators were hustled to the front and when they tried to speak were assaulted with paper and ribbons. Senator Crawford Kennedy told an old story and was nearly beaten to death, figuratively speaking.

Lobeck's Proposal Exempts Insurance

(From a Staff Correspondent.)
 WASHINGTON, April 19.—(Special Telegram.)—Congressman Lobeck has punctured the income tax provision of the tariff bill, which has been under discussion since Woodrow Wilson came into power. Lobeck has shown his contempt for the platform on which he was elected by voting in caucus for a tax on wool and against free sugar. Today Lobeck sent cold shivers down the back of his colleagues by suggesting an amendment to the income tax provision providing that the proceeds of life insurance policies paid upon the death of the person insured shall not be included as income.

WILSON GIVES VIEWS OF ANTI-ALIEN LAWS

(Continued from Page One.)

urge a recognition of the international character of such legislation.

"Being anxious to preserve and strengthen the long standing friendly relations existing between this country and the nations of the orient, he very respectfully but most earnestly advises against the use of the word 'ineligible to citizenship.' He asks that you bring this view to the attention of the legislature. He believes the senate bill as telegraphed to the Department of State is greatly to be preferred. That bill limited citizenship to citizenship to those who had declared their intention to become citizens."

"W. J. BRYAN."

The telegram was immediately transmitted to the senate and assembly in a special message signed by the governor.

The message was read in both houses and was ordered printed in the journals without discussion.

Two other telegrams, one from the Portland (Ore.) Chamber of Commerce and the other from the Young Barriers' association of Tokio, both protesting against the enactment of an anti-alien land law, were read in the senate.

No action on the message of the governor containing the Bryan telegram will be taken until next week. This was announced officially by the floor leaders in the upper house this morning.

Secretary Bryan's telegram called forth varied comment from members of the legislature, many of whom likened it to the messages sent by President Roosevelt six years ago when legislation was pending in California.

Senator Boynton, progressive republican and floor leader in the upper house, said: "It is not surprising that the democratic administration at Washington has taken the same position that was taken by Roosevelt and Taft. It is impossible to predict the outcome, but I believe that notwithstanding the views of the president an equitable alien land bill will be passed."

Senator Birdsall, whose name is on the committee substitute bill, believes that California has full rights in the matter.

"While Secretary Bryan's message is entitled to consideration," he said, "it does not change the situation. It is up to the people of California, first to determine whether they have a right to enact such a law, and second, whether they wish to do so. As for that, the attitude of the state toward alien land legislation is best shown by the vote of 60 to 15 in favor of the bill in the assembly."

Senator Thompson, who drafted the original committee substitute, said: "The position taken by President Wilson is exactly in line with that taken by Taft and Roosevelt under similar circumstances. It completely robs the subject of any partisan character whatsoever. The fran expression of preference for the senate bill indicates clearly the attitude of the federal administration as favoring a law that would apply to all alien allies."

"In view of the pending amendment which seeks to limit its application to stockholders of corporations who are ineligible to citizenship and exclude those who are ineligible, this expression is very timely."

ANTI-SUFFRAGISTS MAKE ARGUMENTS

(Continued from Page One.)

friend of her husband or to beat an enemy. It is not a pleasant prospect."

Mrs. George declared more legislation necessary to guard women workers had been passed in states where women do not vote.

"The suffragist," said she, "says the women should vote so as to raise the standards of life. The anti-suffragist says the vote is the least part of good government. What we need is not to increase the electorate, but we do need to be specialists in our lines and not be afraid of being specialists. The work of women has been fairly successful for the last nineteen centuries. If men have not been what they should, what can we say of the women who trained the men?"

CAMBRIDGE, Neb., April 19.—(Special.)—The old depot at this place is being reconstructed and improved, an addition is being erected on the west, giving room enough for two waiting rooms. Chinatown in State of Siege as Result of Tong Murders

SAN FRANCISCO, Cal., April 19.—A state of siege was declared in Chinatown today. By order of the police department and the district attorney, no white man will be allowed to enter Chinatown, and no yellow man will be allowed to leave it. If Chinatown is killed commercially, well and good; the price is not too heavy for an end to long murders. This is the answer of San Francisco to the tenth murder last night in the endless battle of the tongs.

Chief White said today that he is convinced the rich merchants of Chinatown, whether from fear or of their own free will, are behind the tongs, and he believes the best way to touch their consciences is through the pocket nerve.

Not a sightseeing automobile entered Chinatown today. The army of professional guides who show tourists the sights were idle. Every corner was picketed with a policeman or a detective. White men and women living in the district or having legitimate business there were allowed to pass the lines, but they were required to show cause.

The blockade will continue until the police are satisfied that a decent respect for civilized law has been brought home to the hearts of those who rule the district.

No opposition is expected from the Chinese consul, who recently informed the grand jury that tongs were murderous associations, born on the Pacific coast, ostensibly organized as charitable fraternities, but not permitted in China.

The Working Man's Friend In Time of Sickness

I am a blacksmith by trade and would like to say a word to all who have to work hard and suffer with their kidneys. I suffered for about ten years and was treated by a Waynesboro, Va., Doctor. He said that I had Bright's Disease and that he had done all he could for me. I read about Dr. Kilmer's Swamp-Root and as I could hardly do a day's work, was willing to try anything that would do me any good. After taking Swamp-Root a few days I felt so much better that I continued until I felt that I was cured and I was altogether a new man. That was eight years ago and if I ever feel the least pain about my kidneys I just take a few doses of Swamp-Root and in a few days I am all right. I feel today that I am a well man and would say to all who suffer with their kidneys, take Dr. Kilmer's Swamp-Root, for it has done more for me than all the doctors, and saved doctors' bills.

I can further say that about two years ago my son was sick in bed and was taking medicine from doctors and got worse all the time. I went in the night and got a fifty-cent bottle of Swamp-Root and told him to lay aside all the doctors' medicines and take Swamp-Root. He took six bottles and I am glad to say that he is well today and has not had any trouble with his kidneys since. It was Swamp-Root that cured him. My son now thinks that there is no medicine that a doctor can give that can compare with Dr. Kilmer's Swamp-Root. Very truly yours,

G. W. HARDING, Wa. Covington.

Personally appeared before me this 24th day of March, 1912, G. W. Harding, who subscribed the above statement and made oath that same is true in substance and in fact.

Given under my hand this 8th day of March, 1912.
