SENDS HER BROTHER TO JAIL

Young Woman Testifies Against Youth Who Begs for Chance.

REFUSES TO HELP HIS PARENTS

Will Not Work to Assist Recoup the Family Exchequer, Which is Depleted by Tornado Losses.

Beginning for his sister to give him another chance. Will Irwin, 303 North Twenty-fourth street, was sentenced to forty-five days by Police Magistrate Foster for refusing to work and help his parents, who lost nearly all they possessed in the recent tornado. Irwin's

sister, a pretty lass of 16 years, appeared against him in court, crying as if her heart would break. "Will hasn't done a bit of work in the last five years," declared the girl between sobs, "and has been a constant drain on our parents, who have given him every opportunity to make a man of himself. When father was unable to supply him with money he stole his tools and sold them. Mother was quite severely injured during the storm and when father asked Will to get some work and help us along, he refused." I hate to send him to jail, but as long as he won't help us and is only a burden on papa, who has had enough troubles since the storm, it is all that I can do. Asked to Leave City. Irwin hung his head during the girl's testimony, but at the conclusion, begged

her to let him leave town. She steadfastly stood to her purpose of sending him to jail, although, judging from her sob, it was a painful duty. After the judge had sentenced the young man, who is 24 years old, the girl left the court with tears streaming down her face. Young Irwin's presence in police court is no innovation, as he has been arrested several times on minor charges. Members of the family are hard-working, respectable people, and have a very high standing in the neighborhood in which they live.

day morning in annual session at the Young Men's Christian association. Final settlement of matters relating to the recent contest were made, and plans drawn up for making the organization much stronger in the future than it has been in the past. Beginning Monday an active campaign will be started to arouse more interest in the organization at schools which are already members of the association, and there will also be steps taken to draw in many schools that are not represented. To accomplish this it was agreed that instead of paying the expenses of the winner alone, that the expenses of all orators who take part in the state contest should be met. Plans whereby second prize money will be donated by persons outside of the state were laid. Mr. Debardeleben, before going to the group contest at St.

Louis will be sent to Cotner and Doane, where he will deliver his oration in endeavor to enlist the support of those schools. R. B. Carey, secretary, will also make a full report of the contest and subsequent business meeting.

BURGLARS MAKE GETAWAY BEFORE POLICE ARRIVE

A telephone call was received at the police station early Saturday morning stating that the saloon of George Reaf at Eleventh and Jackson streets was being entered by burglars. Sergeant Vanous and Officer Murphy hurried to the scene and discovered the panel of the back door had been broken open, but the thieves had vanished.

SULPHUR SPRINGS IN CARTER PARK ARE GREAT

Mrs. Celia D. C. Jewett, secretary to Park Commissioner Hummel, declares the sulphur springs on the east side of the bluff tract, Carter park, ought to be as

well patronized as the famous sulphur springs of other states. "The water in these springs," said Mrs. Jewett, "have as great a curative value as the majority of sulphur springs, no matter where they are located. People ought to go there daily and drink that water. And many do use it regularly."

LABORER HITS FELLOW WORKER WITH HATCHET

John Cahill, a laborer, is being sought by the police for assaulting Charles Ryan, a fellow worker, at Forty-second and Lake streets with a hatchet. Ryan was not cut, but sustained a slight bruise on the forehead where the hatchet struck him a glancing blow. He reported the affair to the police in person before going to work.

MISSOURI PACIFIC ROAD MAY CONSTRUCT A SPUR

By a vote of four to three the city council has granted the Missouri Pacific railroad permission to construct a spur track on the south side of Boyd street north of Thirtieth. Commissioners Hummel, Withnell and Butler voted in the negative, saying the Missouri Pacific had failed to build certain viaducts and keep others in proper repair. Dahlgren, Ryder, Kugel and McGovern voted to grant the request.
