From One to Three Inches of Rain Falls All Over the State.

ALL OF KANSAS ALSO IS SOAKED

Rattroad Crop Experts Say It is the Most General Spring Rain the West Has Ever Enjoyed -All Elated.

With from one to three inclus of preelpitation all over Nebraska, Kansas, Colorado and South Dakota since Wednesday morning, railroad officials are estimating the condition of winter wheat in the states named at 100 per cent, plus,

Instead of the rain ceasing Wednesday, as was anticipated, it continued all day and most of the night, from the moun tains, east into central lows. It was general everywhere, McCook and vicinity reporting three Inches; Central City, Minden, Harvard and a score or more of other points in both the North and South one and one-half to two inches. One inch almost every town from the Missouri into Kansas and Oklahoma.

According to railroad crop experts, the rain of Tuesday and Wednesday was the districts and still he will find the most Further, he says, a settee or a hammock most general in years, covering practically every acre of the wheat belt west of the Missauri.

H. G. Kaill of Kansas City, general freight and passenger agent for the Union Pacific lines in Kansas, is at headquarters and speaking of the rain of this week, says it has been the most general in ten years. Said Mr. Kaill;

"The rain of the last three days assures a bumper crop for Kansas and Oklahoma. The plant of the cereal is so far along that the crop would mature without another drop of rain. The acreage is enormous and this year Kansas will have to feed the world. The farmers have out fully 7,000,000 acres, an increase of almost 1,000,000 acres over last year, and right now the condition is perfect." In the northwest, especially through Wyoming and South Dakota, the weather is clearing and this morning when reports were filed for the railroad headquarters, it was much colder, many points in Wyoming and the western part harm. It is not a fruit section of counare, they are not far enough along to be nipped by frost.

#### Thirty-Five Loans for Restoration Are Made by Committee

Thirty-five leans averaging some \$600 apiece have thus far been made to tortwenty-five other cases are being considered. In these cases the data is all seto see what money the individual is able was the fault of the leaders. to borrow from the loan company, real estate company or individual that is holding the mortgage. The restoration comit has referred the individual to the loan | England right now." or other institution carrying his loan. Often the man finds that the company is able and willing to make him the further loan required. In more cases still the company, loaning on a 40 to 60 per cent basis, is able to make the loan get closer together. "No man ever is of part of the money required to restore the individual comes back and the committee carries the rest for him on a sec-

## COMMERCE SCHOOL TO

It has been announced that the Commerce school will put out an annual in The annual will consist of the usual school paper, only containing much more material and being of even better appearance and quality. Every society in the school, as well as

been asked to co-operate in furnishing group or individual pictures, and, as the editorial staff has announced that the treasury of the paper will not permit of so great an expenditure, it will be necesof these cuts themselves. Outside of the Attractive Homes mary for each club to stand the expense cost of having pictures taken and cuts made, however, no additional charge for printing will be made.

Those clubs whose pictures and write ups are expected to appear in the annual are as follows:

#### SOUTH DAKOTA PAYS FOR G. A. R. GETTYSBURG TRIP
