Got Rid of That Tired Feeling

(Medical News) "That drowsy, tired, worn-out feeling which most of us have at the approach of warm weather comes from the poisonous impurities in the blood which generally lead to sickness or poor health. At the first signs of spring a good, blood-purifying tonic should be taken by every member of the family. The expense of making such a tonic will be small if one gets from the drug store 1/2 pint alcohol and 1 ounce karoide, then mix these with 1/2 cupful sugar, adding hot water to make a quart. A tablespoonful taken before meals will soon clear the blood of all impurities, banish pimples and yellowness and restore lost appetite and energy. No known remedy is so strengthening and energizing to a tired, worn-out system as this old-fashioned body-regulator. It is one of the best health-restorers known to medical science."—Advertisement
