Everybody at all familiar with militarism knew that the sinews for war alarms came from those who profited most. The difficulty was to procure and produce documentary proof. This is what Dr. Liebknecht, the social democrat leader, did in his speech in the Reichstag. He showed how the Krupps supported a publicity bureau through which war alarm articles were printed in French papers, reproduced to Germany with warlike comment, thus boosting sentiment not so much for war as for increased appropriations for war material.
