House Passes Tariff Bill.

The passage of the new tariff bill by almost a strict party vote in the house was a foregone conclusion and, while it may be delayed, and possibly modified, it is not likely to be defeated in the senate. The outstanding fact is that the democrats, with full control of the government, are determined to meet the demand for tariff reduction by enacting a law of their own making. They pretend to favor scientific revision, but when put to the test on the tariff board amendment by the Julius Meyer and L. Raspke. republicans and progressives, showed that as a matter of fact they cared nothing about a scientific tariff, but simply to slash duties right and left, regardless of consequences.

This, then, is the party's redempence to the tariff:

It is obvious that the changes we make should be made only at such a rate and ir, such a way as will least interferwith the normal and healthful courses of mmerce and manufacture.

Creation of a tariff board as profectually take the tariff out of politics, and eventually give us import street, are mourning the loss of their duties based on expert findings of fact. But the democrats, by their Twenty Years Agorejection of the whole tariff board evidently of losing the one issue on which they have been able to divide the opposition.

OMAHA, May 9.-To the Editor of The Bee: On Sunday the busy nation will pause reverently, as with bared hends and loving hearts there is paid a tribute to the sacredness of motherhood. Emblematic of the purity and fidelity of a mother's love, little, snow-white carnetions will appear in the lapels of thousands and thousands of men, to cend their clear message of affection to mothers all over the world, and to the soemories of those who have passed beyond. Every day is Mothers' day to those men who have known the ceaseless love of a mother, but it is particularly fitting the purpose of revering the mothers who this earthly sphere to a richly earned reward. Protect the Lawns

He and lawn now, since we are agitated over the ubiquitous dandellon, therefore it is very timely. There is both provocation for and wisdom in what he says, whether we should go as far as he suggests or not. It is not only provoking to the man who has expended money and time and labor laying out a pretty terrace and building steps and walks conveniently to see his lawn defaced by careless and indifferent people. In most neighborhoods there are enough children playing promiscuously on the streets to do all the trampling on the grass that it really needs; those having business at the homes should certainly keep off.

United States of Australia.

OMAHA, May 9.-To the Editor of The Bee: The article by Rev. Thomas B. Gregory, on the above subject seems to be open to some correction.

Firstly he remarks that on April 28. 1770, Captain Cook made "England" a present of that great island-continent of Australia, but it might have been better had he noticed the date was considerably after the union of the crowns, in 1707, when England ceased to be a treaty name, and Australia became a "British" pos-

Making Omaha Beautiful.

OMAHA, Neb., May 9.-To the Editor of The Bee: There has been quite a little said of late about making Omaha heautiful. Then there are our public alleys. Some purpose. The opposing party claim that of them are in a deplorable condition. even in a very unsanitary condition, for the reason that most of the public think that alleys are public dumping grounds. Then the street cleaning department gets blamed and criticised for not keeping the alleys clean. The public do not stop to consider that the stret cleaning departnent has a limited amount of money for the expense of keeping the streets and alleys clean, and with the large area they have to cover and the long distance they have to haul garbage to dump, they are

handicapped in their work I am inclined to think that the publi do not always give the city officials proper credit for what they do and endeavor to do. If the public would assist them more, especially the street cleaning department, there would be less cause for omplaint.

I had occasion to call on Mr. Kugel of the street cleaning department in reference to cleaning up our alley and 1 on hand, and with the havoc of the recent tornado, it has kept this department busy cleaning up the wreckage, with more work on their hands than they could handle. I simply went to him like a man, stating the conditions, and when he found then to be as stated he gave them prompt attention. Now that we have our alley cleaned up in good shape, we will cooperate with the street cleaning department and endeavor to keep it in condition. All alleys can be kept in a clean, healthy condition if the public them selves will only do their part and not throw all the responsibility and expense

on the city. There is a city ordinance against throwing garbage and refuse in the alley, and a complaint to the street clening department or to the Board of Health will put a strop to it.
