

IND EXPLOSIVE IN THEATER

In Canister with Forty-Two Cartridges Left in Lavatory.

SUFFRAGETTES ARE BLAMED

Within Cord, Soaked in Oil, Bursted When Bomb is Discovered—Unoccupied House Burns.

LONDON, May 11.—A tin canister containing forty-two gunpowder cartridges was found yesterday in the lavatory of the Empire Palace theater. The cartridges were packed all around with cotton soaked in oil. A cotton cord, also oil soaked, was attached to the canister, and the cord was burning when the bomb was found. Suffragettes are blamed.

A fire in a large unoccupied house at Berkenham, outside of London this evening was extinguished after three hours' work. The blaze was attributed to suffragettes. Firemen were alarmed at finding a bulky parcel in one of the burning rooms. They thought it contained a bomb, but examination revealed that it was merely a cylinder.

party which might interfere with the modern progressive spirit in the republican ranks.

Senator Cummins was asked if an attempt would be made at the convention to amalgamate the republican and the progressive parties.

"Certainly no representative of any other party will participate in our conference here. This will be a conference of republicans only. Senator La Follette will not be with us, but I think he is in harmony with our movement. Let me say, too, that we will have no secrecy about it."

Questioned as to how delegates might be chosen to the convention if one were called this year, especially in states which provide for primary elections, Senator Cummins said that was a problem that would have to be solved later.

"NOTHING DOING," SAYS MOOSE

Ohio Progressive Sees No Chance of Amalgamation of Parties.

COLUMBUS, May 11.—"Amalgamation of the progressive and republican parties in my judgment is impossible," declared Walter F. Brown of Toledo, progressive state chairman and member of the progressive national executive committee, in a statement issued at progressive headquarters here yesterday regarding the attempt of Ohio legislators and again to bring the two parties together again.

CHARTER MAKERS LET PEOPLE RULE

(Continued from Page One.)

Herring moved that further public hearings be discontinued except on call of three members, when any special subject could be discussed. With this motion unanimously carried the committee adjourned until the afternoon of May 20 at 4 o'clock.

Labor Submits Suggestions. The labor organizations, through a committee, submitted the following propositions which they desired be included in the charter:

Factory inspector. Public employment agencies. Public comfort stations. "Whenever the council or commission seem it expedient they shall have power for the purpose of paying the cost of construction, properly furnishing and equipping public comfort stations in the city to issue bonds of the city to run not more than twenty years and to bear interest, payable semi-annually, at a rate not to exceed 5 per cent per annum, with coupons attached, to be called public comfort station bonds, and which shall not be sold for less than par, and the proceeds of which shall be used for no other purpose. The aggregate amount of such bonds issued in one year shall not exceed the sum of \$200,000, and which bonds shall be used for the construction of four (4) comfort stations located at the intersection of Sixteenth and Douglas streets, intersection of Eighteenth and Farnam streets, intersection of Twenty-fourth and Cumming streets and Twenty-fourth and Leavenworth streets.

"We also endorse the Metcalf initiative and referendum and recall, no official to hold office longer than three years after being recalled."

"Pope" Gregory Dead in Kansas Town

Many of the older residents will recall Wesley C. (Pope) Gregory, who was a reporter for The Bee from 1884 to 1890, and who then went to Chicago, where he was on the staff of the Tribune for several years. News of his death, recently at Lyndon, Kan., has just reached the city. Mr. Gregory was born in 1851, in Indiana, and went to Kansas with his parents in 1859. Early in the '70s he went to Topeka, where he was employed on the Blade, and then by the Commonwealth as a reporter. Coming from Topeka to Omaha, he joined the staff of The Bee, and did considerable work on the staff of the Tribune and general assignments for several years. Since leaving the Chicago Tribune he has been engaged in magazine work. The cause of his death is not given.

City of Mexico Y. M. C. A. Building a Fortress

G. I. Babcock, general secretary of the Young Men's Christian association in the city of Mexico, relates in the Association magazine some interesting incidents of the bombardment of the Mexican capital between the forces of the late President Madero and the revolutionists, under General Felix Diaz. Revolutions Babcock writes in part:

The association building, five stories high, situated near the cuudalada (the arsenal captured by the Diaz revolutionists), was promptly occupied by the revolutionary troops before the seven days battle began, equipped with machine guns on the roof and on all the floors and became a very real fortress. Indeed, the battle was started by the "Young Men's Christian association guns." When the war was over and the building was given over to its peaceful purposes well nigh a wreck, the total damage reached \$20,000.

The battle centering around the building has given the association greater prestige, even than it enjoyed before. Hundreds of people have called to see the damage and to tender sympathy, some of whom we have never known before. Oth. I have expressed their regret for the occurrences by making substantial contributions. A well known Mexican physician called in to see us before the soldiers had left the building and said that "it was the grandest institution in the city and that in this time of crisis he wanted to help, pledging himself to every service and leaving a \$50 subscription as he did as pay for the losses of such an institution as this!"

And we are at least certain of the well wishes of the new government. As President Madero's government was well represented in the association, three of his cabinet having been members, so is the new government. General Diaz, the leader of the revolution and the next president of Mexico, has for eight years been a member of the association and for six years was a member of the advisory board (his uncle, President Porfirio Diaz, having dedicated the building in the last year of his term). Lic. Rodolfo Reyes, minister of justice, in the new cabinet, has for years been a member and is greatly interested in the work of the association. The chief revolutionist next to General Diaz, has expressed himself as interested in the association and has promised his active help. Two of his nephews are members of the association. Not a few of the officers of the army are members of the soldier's uniform is a common sight at all hours of the day.

Wilson Discusses Currency Question

WASHINGTON, May 11.—President Wilson yesterday discussed with Chairman Underwood of the ways and means committee and majority leader of the house, the general situation in congress and the prospect for currency legislation, which the president is anxious to have considered and passed at the present session, if possible.

The president was particularly interested in the organization of the committee of the house. He was anxious to learn the complexion of the democratic side of the banking and currency committee, which the ways and means committee, acting as a committee on committees, for the democratic caucus, is now preparing to select.

Wilson Discusses Currency Question

WASHINGTON, May 11.—(Special.)—Weldon Shiveley of Nemaha has purchased a Buick touring car and he and his family will start in a few days for a motor trip to the Pacific coast. They will take a tent and cooking utensils, and when the weather is nice will "rough it" in "prairie seaboater" style.

AFFAIRS AT SOUTH OMAHA

E. L. Gustavson Slated to Be Deputy City Treasurer.

MAY MOVE SLOT MACHINES

City Attorney Says He Will File Complaints that Will Cause These Contrivances to Be Taken from Saloons.

E. L. Gustavson, at present engaged in County Treasurer Ure's office, will become deputy city treasurer-elect Martin, as soon as the latter takes office, it is understood. James Crjček, clerk in Treasurer Gillin's office may be retained if the Bohemian citizens endorse him. Treasurer Martin has announced that he will appoint a Bohemian in his office and he will leave the choice of the man to the Bohemian organizations. It is understood that Crjček may obtain their endorsement, in which case he will be retained. It is thought that other selections Mr. Martin has not yet made. The choice of Gustavson for second place is approved on all sides. Gustavson is one of the most competent men in the office of the county treasurer and his transfer to the treasury of South Omaha will mean the introduction of modern methods of book-keeping.

City Clerk Wheeler will make no changes in his office. John Mercall will remain deputy and John C. Murphy will remain deputy and John C. Murphy will also reappoint his present force, including Assistant City Attorney S. L. Winters, City Prosecutor E. R. Leigh and Stenographer Miss Isabelle Flaherty.

After Building Inspector. There is some competition between several who want to become building inspector of the city. A number of applicants having been called in to see the board of city engineers, the board of police and police board advised in the hope of making room for themselves. Agitation to displace Chief of Police John Briggs is confined to a small circle and appears to have small chance of success. It is understood that a majority of the Board of Fire and Police commissioners is anxious to escape the nagging of certain politicians bent upon having some of the firemen and policemen discharged, because of any part taken by them in the recent election.

City Attorney Henry C. Murphy says the slot machines must go. There are some forty machines in different saloons of the city. Several times a number of them have been removed and then re-installed. The city attorney some time ago drew an ordinance leveled against the slot machines. The ordinance was vetoed by the mayor. The city attorney has the power to file county complaints in the county or district courts, and failing that means he will resort to these tribunals in order to get out the slot machines in South Omaha. Mr. Murphy will also file county complaints against dive keepers, who permit boys under age to gamble in their places.

Jim Kudrna Injured. Jim Kudrna, Eighteenth and O streets, had his right hip broken and his body badly bruised yesterday noon, when his team became unmanageable yesterday noon at the Union Stock Yards. Kudrna is an employe of the yards. In some way his horses became unmanageable and threw him under his wagon wheels. The wheels passed over his right hip breaking the bone near the hip. He was attended by Dr. F. O. Beck and sent to the South Omaha hospital.

Jerry Howard Revives. Jerry Howard, who first lambasted Mayor Hoctor and then got out and supported him for election is going to hold a meeting of laboring men Monday night previous to the organization of the new council. Howard has not said what he is going to do at the meeting, but the following cryptic statement will no doubt have a meaning for laboring men and politicians. He says:

I wish to announce to my fellow laboring men that I would be pleased to meet them at the city hall Monday evening previous to the organization of the city officials. It is possible that I may make some revelation beneficial to the uplift of labor.

JERRY HOWARD, Turns on Tormentor. Because he teased S. McAuliffe, employed in the beef-killing department of Armour and company, Adolph Boukal, an employe in the same department, sustained a painful wound in the left arm from a butcher's steel, thrown by McAuliffe. According to the story gleaned by the police, Boukal had been teasing McAuliffe by throwing off at him. The latter finally became angered and threw the sharp steel at his tormentor. The instrument pierced Boukal's right arm near the wrist. His wound was dressed by Dr. Shanahan, after which he was sent to his home at Twenty-fifth and W streets. McAuliffe was arrested.

Joe Pesek Fired. Joe Pesek, a cripple, who for a number of years has been attached to the street department and detailed to the police station for janitor work, was curtly dismissed yesterday morning by Street Commissioner John Fennell. Fennell is said to have told Pesek that there was not sufficient money in the street fund to pay him. It is charged that his dismissal is a matter of politics. The fact that he is a cripple has also caused comment. It is said that other dismissals will take place in the police department.

High School Notes. The Valium society of the high school has postponed its open meeting to a week Friday next. The program will be served and a program has been prepared.

The Gavel club gave a party for its members last Friday evening at the home of Walter Taylor, one of its members. The party was largely attended and proved a success.

The physical geography class has not been able to go on its excursion to the river yet because of the bad weather. The excursion will be made some time during the coming week.

The girls of the gymnasium class, training in the high school, are becoming experienced gymnasts. It is rumored that this class will feature in the commencement exercises.

The seventeenth issue of the Tooter went to press last Saturday and will be issued to the students this next week. This will be the last regular issue of this semester, the commencement issue being the next edition.

Quick Thinking Wins

Is your thinker fed right for prompt action?

At a dinner not long ago Thomas W. Lawson was talking on the subject of success. "Success in finance," said Mr. Lawson, "is due in a great measure to prompt action. The hesitating, hesitating Hamlet type of man has the best keep out of finance. He is quite sure to be swamped."

It doesn't matter much whether it's finance, a base ball game, or winning promotion; Keen Brains Count

Keep on with your "bacon and soggy pancake breakfast" if you choose, and stay in the Hamlet class, but if you really want to get ahead, just begin to live right.

A good start is to cut out the heavy, indigestible breakfast and have a dish of Grape-Nuts

and Cream. Analysis shows that Albumen, Water and Phosphate of Potash are the three principal essentials for building up one's thinking outfit—the Brain. You get the first two in everyday food, but the third, the vital organic Phosphate of Potash, is often lacking.

Grape-Nuts Food made of whole wheat and malted barley is rich in this vital, brain-building element. A good, healthy working brain can be built up on right food. That's why Tens of Thousands of get-ahead Americans eat their regular morning dish of this distinctively American food.

"There's a Reason" for Grape-Nuts Sold by grocers everywhere.

SKINS OF FROGS USED TO COVER MAN'S BACK

AMES, Ia., May 11.—(Special.)—W. A. Speck, a farmer near Ames, who was operated upon in Des Moines hospital a year ago for the removal of a five-pound tumor growing on his back between the shoulders, has recovered thoroughly from the effects of the severe surgery in which the skins of frogs played an important part. Following the operation, Mr. Speck was taken to his home in Story county, where Dr. J. E. Adanson of Ames grafted frog skins over the wound, which was so large that the human cuticle could never have covered the space. The amphibian epidermis is carrying human blood and doing well.
