Los Angeles Grand Jury Will Look Into Blackmail Charges

LOS ANGELES, Cal., May 12.—Miss Emma J. Goodman, alias Jessie Rosenberga, pleaded not guilty today to two grand jury indictments charging pandering. She is charged with having been the means of introducing Irene Marie Brown-Levy, 17 years old, and Cleon Helen Barker, 19, to George H. Hixby, the Long Beach millionaire.

SCANDAL IN STRIKE FUND Master Looks Into Expenditures of Lawrence Subscriptions.

TEN THOUSAND DOLLARS MISSING Payments to Vincent St. John, Thomas Powers and Desire Steur Not Satisfactorily Accounted for.

BOSTON, Mass., May 12.—No satisfactory explanation of the disposition of \$10,000 out of a total of more than \$50,000 subscribed for the benefit of the striking operatives and their families during the last strike at Lawrence a year ago, has been made, according to the findings today of William Slocum, who as master investigated the strike expenditure.

It was claimed that these disbursements were returned to the strikers' fund, but Slocum finds that the money was not returned. Neither Joseph J. Eitor nor William D. Haywood, leaders of the Industrial Workers of the World; \$3,000 to Thomas Powers, a textile worker of Providence, and \$5,000 to Desire Steur of Lawrence.

An expert accountant found that \$1,800 had been spent in sending children of strikers to New York, Philadelphia and other cities; \$1,200 for "agitation" and \$1,712 for "law." About \$10,000 was paid to Joseph Shapen, treasurer of the strike committee; \$3,000 to Angelo Rocco and \$5,000 to August Detollereau. The three men had direction of relief work.

EXTEND GLAD HAND TO BULL MOOSE AT REPUBLICAN MEET

(Continued from Page One.)

Both left immediately, each saying he had to catch a train.

Senator Borah said that while at first he had been somewhat skeptical about the benefits to be derived from a national convention this year, he finally concluded to join in the unanimous belief that such a convention should be held.

MEAN WHO WERE THERE

Others who participated in the conference were United States Senators Gronna of North Dakota, Crawford of South Dakota and Sherman of Illinois, and Representatives J. W. Good of Iowa, Gilbert N. Haugen of Iowa, E. A. Hayes of California, L. C. Crampton of Michigan and Sydney Anderson of Minnesota.

"We recognized at the meeting that progressivism in the republican ranks has come to stay," said Representative Good. "We felt that it must be firmly and emphatically embodied in republican principles. It was brought out that elections held since last fall show that the progressive party merely was a temporary protest against the methods of the republican national convention and that as soon as the republican party reorganizes itself along progressive lines the third party will cease to exist."

As chairman of the conference Senator Sherman was authorized to appoint a committee of five members who, with the statement given out today as a basis, are to address the public and members of the national committee. Senator Sherman said he would leave for Washington today and would announce the committee there several days hence.

Hostility to the present national committee has been openly expressed by several progressives. Senator Kenyon's statement that "most of us" would have no objection to "most of the national committee resigning, is backed by Senator Lawrence Y. Sherman of Illinois, who said:

"The feeling is that the national committee should be less inflexible and more amenable to public opinion."

One of the aims of the convention is to curtail the powers of the existing national committee. Interviews have disclosed that the consensus of opinion favors following the rule adopted by the progressives and democratic national convention, providing that members of the national committee shall assume their duty immediately upon election, instead of waiting until the dissolution of the committee at the close of the national convention. By such an arrangement the new committee would handle the credentials of the 1913 convention.

The attendance of Senator Gronna of North Dakota is said to have the approval of Senator La Follette, who is not in sympathy with the gathering. The two have been strong political allies and it is reported that the determination of Senator Gronna to attend has caused dissatisfaction.

Badger State Asks Northern Pacific for Quarter Million Fee

MADISON, Wis., May 12.—Attorney General Owen informed Secretary of State Donald today that the Northern Pacific Railway company is obliged to file resolutions certifying to its increase of capital stock and to pay fees which will amount to \$250,000. It is likely the state will also demand interest upon this amount.

The increase of its stock since 1910, the date of incorporation, has been \$10,000,000 to \$20,000,000 and under the ruling the state may demand \$1 per 1,000 on the increase and \$20 for filing the amendments. It is expected the collection of the fees will be contested.

Science of Aviation Shows Remarkable Development

WASHINGTON, May 12.—The remarkable advance in the science of aviation since Orville Wright made the first flight in a heavier-than-air machine at Fort Meyer was the subject of a statement compiled by the War department and just made public. Although the honor of inventing and utilizing the aeroplane belongs to the United States, it was disclosed that virtually all the advances made in the utilization of the air machine have been accomplished by foreign air men, principally Frenchmen.

In 1909, the records show the greatest height attained by a heavier-than-air machine was 1,400 feet. The mark now stands at more than 30,000 feet, while the height of something over 10,000 has been attained by a dirigible balloon. The aeroplanes, however, have demonstrated they can rise higher and much more rapidly, and for that reason their efficacy in a military sense is regarded as much greater.

In both speed and duration of flight the strides since 1909 have been remarkable. In that year the speed record was forty-eight miles an hour, while the length of time that a machine kept in the air was four hours and seventeen minutes. The present record for speed now is 108.9 miles an hour, made by Vedrine of France, while another Frenchman, Fournier, raised the record for duration for flight to thirteen hours and seventeen minutes. Bussen, still another Frenchman, recently also established a record for speed for passengers. With five persons with him in his machine, he made fifty-four miles an hour in sustained flight. The War department's records show that six persons have been carried to a height of 2,633 feet.

RESCUES HIS SON FROM NINETY FOOT WELL

SIoux FALLS, S. D., May 12.—(Special.)—Bert Wilhelm, sr., a resident of the northern part of this (Minnehaha) county, proved himself a hero when he descended into a ninety-foot well but sixteen inches in diameter and rescued from certain death his son, Bert Wilhelm, jr. At a depth of ninety feet a huge stone was encountered in the well and a charge of dynamite was exploded to remove this. Some hours later the young man thought it safe to descend into the well to see to something at the bottom that required attention. After a time he failed to respond to the signals of those who were lowering him and, fearing the worst, the father determined to enter the well and rescue him if possible. After strenuous efforts the father was lowered to his son, who was gasping and apparently near death. The father was unable to place a chain around his son's body, but finally managed to fasten it to one arm, and in this manner the son was dragged to the surface of the ground, having been unconscious for some little time. The father then was pulled up, and so great had been his exertions in saving the life of his son that he fainted immediately after being dragged to the top of the well. The father states it is a mystery to him how the men at the top of the well succeeded in drawing the body of his son past him in an eighteen-inch hole, and yet the feat was accomplished.

RIOTERS BURN STREET CAR Trouble Follows Attempt to Resume Service at Cincinnati.

MAYOR SENDS AN ULTIMATUM He Says He Will Take Charge of Lines and Operate Them if the Company Does Not Agree to Arbitrate.

CINCINNATI, O., May 12.—One car burned, five deserted and left standing on the streets in the downtown section and the crews of these six cars, either beaten or forced to run to cover, is the total result of an effort made today by the Cincinnati Traction company to operate cars on its lines. Men driving along side an Avondale line car, three gasoline over it and then put a match to it. The crew, numbering ten men, deserted and were pursued by a crowd, but managed to escape.

A combined assault was made on other cars by a crowd of strikers or sympathizers and several of the crew were roughly handled. The others hastily departed, leaving the cars.

The traction company announced that it would continue to make attempt to operate the cars and further trouble is feared.

Company Does Not Reply.

No reply has been received by Mayor Hunt to his letter to President Keesley Schoepf of the Cincinnati Traction company, demanding that the company arbitrate its dispute with its employees. The mayor, in the letter which is considered as practically an ultimatum, said that he would begin court proceedings to place the company in the hands of a receiver and to annul its franchise if his proposal was not accepted by 5 o'clock tonight.

Suffragette Set Fire to Boat House

LONDON, May 12.—One of the bands of militant suffragettes, assigned to interfere with the pastimes of the men of the British Isles, celebrated Whitmonday, which is a general holiday here, by burning down the headquarters of the Nottingham Boat club on the banks of the River Trent. The structure contained many valuable racing and other skiffs. The loss was \$10,000.

AMES GUILD PRESCRIBES HATS FOR FRESHMEN

AMES, Ia., May 12.—(Special.)—Preparations being made by the Cardinal guild, the student governing organization of the Iowa State college, point to an intention to compel the freshman class to be the inaugurator of the colored, distinguishing hat custom, instead of leaving the honor, embarrassment and all connected features to the class of next fall.

The guild has ordered an initial lot of 1,300 of the helmets for the "preps" to wear during the two or three closing weeks of this college year. The freshman class will hold a meeting on the hat question soon to decide whether the 1916 class shall be made the "goat" of the custom.

The guild held a referendum election some weeks ago to determine student sentiment on several student-conducted propositions and the Etotic freshman hat was one of them, all having been carried overwhelmingly.

DEATH RECORD

Rollin M. Rolfe. NEBRASKA CITY, Neb., May 12.—(Special.)—Rollin M. Rolfe, one of the pioneer residents of this city, died at his home here after having suffered for about a year from a cancer on his face. The deceased was born near Bath, N. Y., October 12, 1838, and received his education in a district school, and in 1855 came west to get a start in life. He located in Nebraska City and was engaged in business for several years, when he became a banker, and for years continued in the same, afterward going into the wholesale grocery business and continued in this until his health failed and then retired. He is survived by his widow and three sons, Charles and Harry of this city, and Emmons Rolfe of Galveston, Tex. The funeral will be held tomorrow and be private.
