"My Feet Were Just Aching For TIZ"

Let Your Poor, Tired, Chafed, Tender Feet "Spread Out" Gloriously in a Bath of TIZ! Send at Once for Free Trial Package. "O, O, glory what a feelin'! Wonderful what TIZ will do for your feet!"

Just couldn't wait to take my hat off! The man or woman who says there's anything like, or as good as, TIZ never had a foot in a TIZ bath. You'll be able to wear smaller shoes, too, when you use TIZ; your feet will keep cozy.

Miss M. Pearl Lloyd, Glendora, Wis., got one box of TIZ for her mother. "She has had sore, tender feet for a long time," writes Miss Lloyd, "but after using TIZ her feet are not troubling her." TIZ operates under a new principle, drawing out all the poisonous exudations that make feet sore, corny and tired. There's nothing else like TIZ, so refuse any imitation if anyone offers you a substitute, just remember your poor, suffering feet, and tell him to give you what you asked for.

STAMINA

A standard Packard "38" motor has completed an official non-stop test of 200 hours at the Automobile Club of America, New York. The best previous record was 132 hours, made four years ago in England.

The motor is running at a constant speed of 1200 revolutions per minute.

Measured in road performance it is pulling the "38" car with full load at a speed of 37.46 miles per hour over roads heavy enough to call for a wide open throttle.

Making 899 miles a day, the motor has rolled up nearly 7500 miles in 200 hours. An average season's mileage, at twice the average touring speed with a load that requires at all times the full power of the motor, has been compressed within a period of less than nine days.

The test has attracted many spectators. As a further demonstration of Packard stamina, it will be continued for 100 hours more.

Endurance far exceeding the requirement is the uncompromising standard to which every Packard is built.
