JAPAN DECIDES TO WAIT

No Further Protest Until Land Bill Becomes a Law.

WILL NOT TEST IT IN COURT

Mikado Takes Ground that it is Business of United States to Determine Legality of California Act.

WASHINGTON, May 13.—The Japanese ambassador will take no further steps in the protest against California's anti-alien land law until Governor Johnson acts on the bill before him. Should he sign it, it was learned today, Japan, without making further representations to the State department, will wait a reasonable time to learn what the federal administration intends to do to meet its complaint.

Japan will not move to test the constitutionality of the law, holding it incumbent upon the United States to take up that question. Although it is understood here that Governor Johnson has thirty days to act, officials believe his answer to Secretary Bryan's last communication will be received within a week.

The Japanese situation was discussed today at the cabinet meeting, but no conclusion was reached.

Real Value of Arbitration.
LONDON, May 13.—"If it be true that Japan wishes to carry the California land question to The Hague tribunal we may shortly obtain a fruitful lesson in the practical limits of arbitration," says the Financial Mail Gazette today in discussing the situation which has arisen between the United States and Japan in regard to the land ownership bill.

The newspaper continues: "If the Chinese and Japanese are to have free entry to the Pacific coast it means eventually the extirpation of white labor from that region. All the arbitration in the world will not persuade the people of the western states that it is their duty to give up their bread and butter to an alien race and we can imagine how much likelihood there is of the government at Washington taking measures to enforce such an award on its own subjects. We should rather like to see the experiment for its usefulness in bringing dreamers back to hard facts."

STATE MEDICS IN SESSION

(Continued from Page One.)

berculosis, venereal disease, and incidentally refer to alcoholism. Each of these diseases is coextensive with civilization and probably antedates recorded history. Dr. Allen J. McLaughlin of the United States Public Health service assured before the Association of Life Insurance Presidents in New York, December 6, 1912, that the economic loss caused by typhoid fever in this country is \$100,000,000 a year; that this disease is more disastrous than cholera, although the mortality rate of typhoid fever is lower, yet is transmissible in more ways, is more expensive in its lingering course, and more disastrous in its sequelae than Asiatic cholera.

Some Local Records.

"But what of our own state? From December 1, 1911, to December 1, 1912, there were reported 126 deaths from typhoid fever in this state. From authentic reports we have it that there are twelve cases of typhoid fever to each death due to this cause, and if we accept this as a basis there were 1,512 cases of this disease in Nebraska in 1912. Now, if we allow seventy-five days of incapacity of earning power for each one recovering, we find there was a combined loss in time of 103,500 days, or more than 284 years. Expressed in dollars, at \$1.50 per day we find there has been an economic loss of \$125,250. Now computing the average value of life at \$2,000 for each of the 126 reported deaths, we have an irreparable loss amounting to \$31,680 and a total tribute to typhoid fever during the year 1912 of \$156,930 in Nebraska." The speaker made a mere reference to the many sequelae that follow typhoid fever.

Dr. Pickett touched on tuberculosis as a preventable disease and gave figures to show that in 1912 there were 526 deaths in Nebraska due to this disease. This loss of life he represented in money value or earning power as \$2,740,000.

Two Billions for Alcohol.

In referring to the toxic agents that affect the system, Dr. Pickett referred to alcohol as "the first in potency of liability and the curse of humanity." "I refer to alcohol and all its derivatives used as a beverage," he continued. "There is a belief entertained by even some of our profession and generally accepted by the laity in some communities that alcohol in small quantities, such as beer, is not injurious, but that it is a stimulant, a food, and healthful. According to accredited investigators and the authentic opinions of those most capable to render unbiased judgments, such belief is erroneous." The speaker quoted these authorities to show that from actual experiments it had been found that a loss of muscular power equivalent to 5 percent resulted when wine containing one ounce of alcohol was taken in the course of luncheon as compared with normal muscular capacity when the same quantity of food was taken without alcohol. He gave a number of other results of experiments tending to show the same results and said "the chemical effect of alcohol on the brain cell is the same as chloroform, but of slower action."

He gave figures showing that the people of the United States are spending annually more than \$2,000,000,000 for alcohol, which, he said, was a sum sufficient to build four Panama canals.

Entertainment has been provided for the women of the association. Wednesday, immediately after luncheon, a committee of the resident women will conduct the visitors through the Linniger Art gallery, the new court house, the observatory of the Woodmen of the World building and other places of interest in Omaha. This evening they will be given a theater party at the Orpheum.

NEW MEMBER OF AK-SAR-BEN BOARD OF GOVERNORS.

F. W. JUDSON.

The men are scheduled for a smoker and vaudeville at the University club rooms Wednesday evening at 8 o'clock.

JUDGE CORNISH DISSOLVES OZMAN'S INJUNCTION

LINCOLN, May 13.—District Judge Cornish this evening dissolved the injunction issued last night restraining the putting into effect of the commission form of government in Lincoln. Immediately the old city council met and tonight the five commissioners, ex-cise board and other officers elected at the recent municipal election were installed. Judge Cornish, in his ruling, said the question of the validity of the late election could not figure, inasmuch as the city charter adopted was subject to any amendment made by the legislature and these amendments had been legally adopted.

The only recourse for those behind the injunction suit he said was a suit of ouster and that matter was beyond his province in the present proceedings.

Pay of Iron and Steel Workers is Advanced

YOUNGSTOWN, O., May 13.—The last bi-monthly wage settlement of the scale year of the Amalgamated Association of Iron and Steel workers and representatives of the Western Bar Iron association and the Republic Iron and Steel company, was arranged yesterday at Fort Wayne, where the annual convention of the mill workers is in session. Examination of the sales sheet showed an advance in the selling price of bar iron and an advance of another point was granted the workmen, making the base rate for June and July \$1.50, and advancing the puddling rate from \$6.90 per ton to \$7.75 per ton with a 1 per cent increase for finishers. This is the highest puddling rate received since 1907. Fully 15,000 workmen affiliated with the organization are affected.

EVIDENCE OF PEONAGE SUBMITTED TO KERN

WASHINGTON, May 13.—Charges of peonage, "medieval feudalism" and oppression of workers in the Paint Creek and Cabin Creek coal fields of West Virginia were laid before Senator Kern today by representatives of the State Federation of Labor and miners' unions. The senator, expected to use the charges in support of his resolution for a congressional investigation of the situation. Copies of resolutions adopted by the miners declaring "that a Baptist church could not be organized without consent of the mine managers" were left with the senator.

COST OF RECLAMATION IS TOO HIGH, SAYS HILL

WASHINGTON, May 13.—"Hurry up and complete the reclamation projects already under way and be sure you have competent men in the field," was the advice James J. Hill, the railroad magnate, gave to Secretary Lane today at a reclamation hearing. He reiterated his statement that it cost the reclamation service more than twice what it cost other services and private enterprises to reclaim the desert land.

TALL SPIRE CATCHES FIRE

Fire Chief and Chief of Police at Stratford, Ont., Killed.

BIG CHURCH BADLY DAMAGED

Firemen Trying to Fight the Blaze Far Above Them from Roof When the Belfry Falls on Them.

STRATFORD, Ont., May 13.—The tall spire of the Knox Presbyterian church, 100 feet above the curb, was struck by lightning early today, and in the ensuing fire the chief of police, the fire chief and a policeman were killed and a fireman was mortally injured. The three men who lost their lives were buried beneath the burning belfry when it fell.

The dead are: J. A. McCARTHY, chief of police. HUGH DURKIN, fire chief. MATTHEW HAMILTON, policeman.

The injured man is Sidney Van Stone. The steeple, visible over a great radius, burned without hindrance, as the puny streams of water far below fell many feet short of the blaze. Showers of blazing embers fired the roof of the church, and McCarthy, Durkin and Hamilton, dragging hose, had scrambled upon a ladder to the roof when the belfry fell. The blaze ate its way into the building. The loss is about \$20,000.

Buffalo Labor Council Ousts a Socialist

BUFFALO, N. Y., May 13.—At a stormy session of the United Trades and Labor council which lasted from 8 o'clock last night until early this morning, W. Frank Cattell, a socialist, was ousted from membership in the council. The formal charge against him was that he had made slanderous statements about the council's business agent.

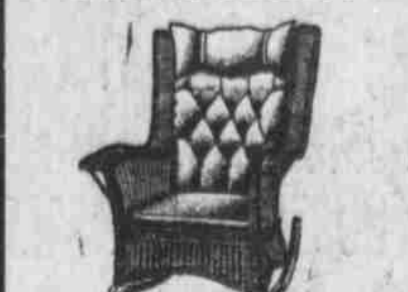

Cattell has been a thorn in the side of organized labor for several months.

The strike of department store clerks was under his leadership and the premature walkout of 400 machinists yesterday also was under his auspices. Union leaders declared at last night's meeting that Cattell precipitated strikes at a time when the unionists were successfully working out plans to secure betterment for the workers.

With the machinists, who have voted to strike on Saturday night, there will be about 7,000 persons on strike in the city.

The police commissioners are finding it difficult to secure the 200 special policemen wanted for strike duty. About half the number was enrolled yesterday, but seventy-two of these handed in their resignations after one of their number had been shot.

BRYAN TALKS SHIP OF PEACE

Nebraskan Makes Farewell Address to British Delegates.

NEW CRAFT NAMED FRIENDSHIP

He Says Ship to Be Launched by Celebration Will Do More Good Than Many Great Dreadnaughts.

WASHINGTON, May 13.—Foreign delegates in this country preparing for the centenary celebration of the treaty of Ghent separate today for Philadelphia after being the guests of John A. Stewart of New York at a breakfast at the Army and Navy club.

Secretary Bryan today bade the delegates from the empire farewell in the name of the United States. In the course of his remarks he said the preparations of peace celebration were in the nature of building of greatest super-dreadnaught and that it was called "friendship."

"His compass is in the heart," said Mr. Bryan, describing the allegorical ship of peace. "Its shells carry good will, its masts are projected by the smokeless powder of love, its captain is the prince of peace. I want you to drink with me to the battleship of 'friendship.' No target will withstand that which friendship sends abroad."

Plans for Celebration.

Mr. Stewart, chairman of the American executive committee, said a meeting would be held in New York May 23, when plans would be formulated for raising several million dollars for the American features of the proposed celebration. Similar meetings are to be held by sub-committees in London, Toronto, Melbourne and Ghent.

JUDGE KENNEDY LEAVES AFTER LAST OF MONTH

Judge Howard Kennedy of the district court gave notice yesterday of his resignation to be effective May 31 and mailed a letter to Governor Morehead informing the governor that he would take up his duties as member of the State Board of Control immediately after that date.

The judge has been disposing of a number of unfinished cases. A severe tooth-ache, which caused a swelling on the side of his face, failed to cause him to stop work Monday.

Judges of the district court, the Social Service club and juvenile authorities have been planning farewell entertainments, but the three receptions probably will be merged into one large affair, according to those responsible for the plans. A date for this reception has not yet been decided upon.

MORTGAGE ON HOCTOR TERRACE IS FORECLOSED

The Peters Trust company has filed a suit of mortgage foreclosure against Thomas Hoctor, mayor of South Omaha. The amount of the mortgage is \$12,850 and represents the principal and accumulated interest of notes against Hoctor terraces in South Omaha, executed under date of July 10, 1908, and due July 15 this year.

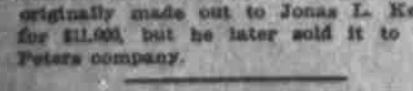

In foreclosing the Trust company alleges that the interest has not been met and that the taxes on the property have not been paid, hence the right of earlier demand for settlement. The paper was originally made out to Jonas L. Keith for \$12,000, but he later sold it to the Peters company.

BOY HAS HAND TORN OFF BY DYNAMITE CAP

SIOUX FALLS, S. D., May 13.—(Special.) Mrs. Peter Christianson, living on a farm in Turner county, while playing, found a dynamite cap and in the endeavor to discover what it contained pounded it sufficiently to explode it. A part of one of his hands was blown off. His father was at work in a distant field and it was some time before medical aid could be secured.

The BECHSTEIN PIANO is known to be the world's best make of piano and we are the exclusive selling agents for them in this part of the country. You are invited to call at our salesrooms where it will be our pleasure to go into the merits of this splendid instrument with you.

HAYDEN BROTHERS

DEATH RECORD

Francis O. Judkins. FULLERTON, Neb., May 13.—(Special.)—Francis O. Judkins of this place died Friday and the funeral was held yesterday morning at the Presbyterian church conducted by the pastor, Rev. W. H. Cooper. Mr. Judkins came here from Oak, Ia., in 1888, and for a number of years was engaged in stock raising. He has been in feeble health for the last two years and died at the age of 69 years. He was an active worker in the financial affairs of the church, and greatly due to his untiring efforts the new church was made possible. He leaves a widow, a daughter, Dr. Dora Judkins Davies of Tecumseh, and two step-sons, Joseph Binney of Springfield, Mo., and Millard Binney of this city.

Nemo WEEK

Continued Until Saturday, May 17

The Overwhelming Success of Nemo Week Demonstrates Two Interesting Facts of Vital Importance to the Trade and to all Women!

Fact 1 INTERESTING TO THE TRADE: Nemo Week—the greatest trade event this country knows from one year's end to another—was established and has grown to international importance as a sale at REGULAR PRICES. This upsets the theory of some merchants that "out prices" alone can make a special sale; and it supports the belief of other (and wiser) merchants that QUALITY is remembered long after the price is forgotten. It is a victory for higher standards in merchandising.

Fact 2 INTERESTING TO ALL WOMEN: Nemo Week's 700 year address tens of thousands to the contented host of Nemo wearers; for it brings home most forcibly the unique usefulness, the splendid style and the unequalled comfort which have made the Nemo the world's standard of corset excellence—the most widely popular corset in existence.
