OVERRIDING A. P. A. LAW. [From Chicago American.]

If the account published in the Herald regarding President Johnson's attitude toward the men who organized the new Independent American Citizens' party is true, loyal Americans have more to fear from their presiding officer than from the Roman Catholics. According to the Herald Mr. Johnson sent to the advisory board of the A. P. A. a request that subordinate councils refuse Mr. Sims, Mr. Richardson, Mr. Kelley and other leaders of the Independent American Citizens' party, the right to speak while visiting those councils. The Herald says this request was voted down, and that, too, in a meeting when more than 200 members of the advisory board were present. Not being a member of that board we have no way of ascertaining whether the Herald's report is true or not. If it is President Johnson is a disgrace to the A. P. A. And when President Johnson asks that subordinate councils refuse them the right to speak he attempts to override section four of the same declaration, which was adopted at the same time and place. That section begins: "We uphold the constitution of the United States of America."
