Patients Have To

One of My Creat Cures During The Month of October. 1895.

Read the following convincing testimonial from two prominent Omaha Citizens:

Judge Isaac S. Hascail and R. F. Williams have this to say. We consider Dr. C. Gee Wo of 519 North 18th St., Omaha, Neb., one of the best physicians in the city for the following reasons: Four years ago our daughter became very nervous and at times sick and unable to control herself. We doctored with and consulted nine of the leading physicians of this city, but she gradually grew worse, until on the 7th of October, 1805, she was at tacked with spasms. She was unconclous and deliridus for weeks following the attack, and at a consultation of physicians they agreed that she could not get well. We then employed Dr. C. Gee Wo, and the patient began to improve at once, and in a remarkably short time was up. She is feeling better than she has for a long time. She is improving every day and bids fair to get entirely well.

Ex-Constable S. B. Clark, office 319 S.14th S. says: I can't say too much for Dr. C. G. Wo. My little boy and girl had dyptheria and other physicians said they could not recover. I then called in Dr. C. Gee Wo, and in less than 24 hours they were out of danger. He also cured myself of Lagripp and general debility, and my wife of inflammation of the owels and female weakness, from which she had suffered many years. I can't thankhim enough for what he has done in my family.
