SILVERITES IN COUNCIL

The White Metal Party's Convention Slightly Attended—Newland Speaks. St. Louis, Mo., June 22.—The delegates of the National Silver organization were slow in assembling in the music hall of the Exposition building, and there were not near enough visitors to fill the galleries when J. J. Mott, chairman of the national committee, called the convention to order at 12:30 o'clock.

Prayer was offered, after which Miss Lillie R. Pierce of this city read the Declaration of Independence. This caused another outburst of applause. MR. NEWLAND'S SPEECH.

When the call had been read, Congressman F. G. Newland of Nevada, was introduced by Dr. Mott as temporary chairman and proceeded to make his address. In doing so he referred to the Republican declaration of virtual gold monometallism and to the Democratic expression in favor of free silver coinage.

Mr. Newland spoke in favor of bimetalism, attacked England's gold policy and went on to state that the interest of the greatest factor nation of the world; of the great silver producing nation of the world; of a nation yielding the greatest amount of farm products in the world—farm products on which we rely for the payment of our foreign debts, and the prices of which have fallen so low, in gold as silver has fallen. Our opponents, gentlemen, exaggerate the difficulties of the task before us. In order to restore silver, it is only necessary to absorb the current product of the mines. The accumulated stock in the shape of coin, bearing the stamp of national governments, and it is absurd to assume that the owners of such coin will send it here simply to receive the American stamp. Silver coin is in silver coin it would remain. There is no surplus anywhere in the shape of bullion for the bullion in the treasury vaults is constructed of coin, and is represented by silver certificates and treasury notes now in circulation. The current product of the mines is now all absorbed in current uses—in the arts, in coinage, and for other purposes. Any demand that we erect a would be a new demand and would have a tendency to increase the value of the current product.

Mr. Newland combated the claim that free coinage would unduly increase silver production and suggested royalties as a means of checking too great outputs. He declared that the manufacturers of the country now produce to free silver would soon see that bimetalism was to their interest, and closed: "And with the change will come beneficent results, not only to the producer, but to the banking, mercantile and railroad interests which are now so steadily opposing us. They will realize that the prosperity is based upon the general prosperity of the entire country and that the prosperity of this country cannot continue so long as debtor and producing nations recognize gold as the only money metal and by their action build up its value and increase its price over the products of labor. This campaign is to open up an era of education and in this work the silver party enters, animated by no sectional spirit, controlled by no feeling of envy against the more prosperous, but inspired by the desire to maintain a broad American policy which shall protect the interests of American production, whether in the mining regions of the mountains, the wheat fields of the West, the cotton fields of the South or the factories of New England. But let us remember always that the policy that unites is strength, and the motto of our opponents is now, as it has always been, 'Divide and Conquer.'"

What relatives of my Patients Have To Say. My Great Cures During The Month of October, 1895. Read the following convincing testimonial from two prominent Omaha Citizens:

EX-CONSTABLE S. B. CLARK, office 319 S. 14th St., says: I can't say too much for Dr. C. Gee Wo. My little boy and girl had diphtheria and other physicians said they could not be recovered. I then called on Dr. C. Gee Wo, and in less than 24 hours they were out of danger. He also cured myself of Lascrrip and general debility, and my wife of inflammation of the bowels and female weakness, from which she had suffered many years. I can't thank him enough for what he has done in my family. S. B. CLARK AND WIFE.
