Admiral Dowey intends to demand a capitulation the instant reinforcements arrive. He told Prince Henry of Prussia that he would be glad to see the German officers at Manila, but it would

FORCES FAILED TO UNITE.

General Pando Tried to Send 10,000 Me to Reinforce Linares.

NEW YORK, June 30.-A dispatch to the New York Herald from Juragua de Cuba, via Kingston, Jamaica, says: Information has been received from Manzanillo to the effect that five batallions of Spanish troops which left that city several days ago to reinforce General Linares, returned to Manzanillo two days after their departue. This news is regarded as indicating the failure of the Spanish attempt, under command of General Pando, to rush 10,000 trained troops to the defense of Santiago.

The information has set at rest the fears of both the American and Cuban commanders. They believe that Pando's men were either unequal to the difficult march from Manzanillo to Santiago, or that General Linares, realizing the hopelessness of his position. sent word that it was useless to send these additional troops to that point.

from Captain General Augusti, dated from Manila on June 23; "The situation is still grave. I continue to maintain my position inside the line of blockhouses, but the enemy is increasing in numbers, as the rebels occupy the provinces which are surrendering.

"Torrential rains are inundating the intrenchments, rendering the work of defense difficult. The number of sick among the troops is increasing, making the situation very distressing and causing increased desertions of the native soldiers.

"It is estimated that the insurgents number 30,000 armed with rifles, and 100,000 armed with swords, etc.

"Aguinaldo has summoned me to surrender, but I have treated his proposals with disdain, for I am resolved to maintain the sovereignty of Spain and the honor of the flag to the last extremity.

"I have over 1,000 sick and 200 wounded.

"The citadel has been invaded by the suburban inhabitants, who have abandoned their homes, owing to the barbarity of the rebels. These inhabitants constitute an embarrassment aggravating the situation, in view of the bombardment, which, however, is not seriously apprehended for the moment.

"The governor of the Viscayas and Mindano islands cables that he has defeated the insurgents in an engagement, during which Chief Arco, Aguinaldo's representative, was killed. He adds that tranquility now prevails throughout these islands, and he further asserts that the principal Malay chiefs of the Mindano group declare they desire to fight on the side of the Spaniards against the invaders "

According to other advices, the emisaries sent out to seek General Monet's

insurgents. A majority of the detachments in the island of Luzon have surrendered, owing to their lack of food, though some succeeded in escaping. Numerous Spaniards, including the

governors of Batanga, Laguna and Bulacan, have taken refuge at Cavite. The rebels who are besieging Manila exceed 25,000 men.

The city is completely isolated and the arrival of the Spanish squadron is anxiously awaited, for the position of Manila is untenable. Small rebel craft navigate the bay,

conveying prisoners to Cavite.

Barbed Wire Cutters. AGUINALDO TURNS TO EUROPE.

The Powers May Be Asked to Guarantee Freedom From America

MANILA, June 23, via Hong Kong. June 30,-It seems probable that the situation in the Philippines is about to become complicated, and it is much to be regretted that the American government did not hurry forward 1,500 men to enable Dewey to take and hold Manila and to plant the flag firmly on the citadel. Possession is nine points of the law, and interference, which would be almost impossible were the American flag flying over Manila, may become comparatively easy while the City is still under Spanish rule.

We are threatened with various complications. First, the rebels, either influenced by foreign consuls or inflated by their surprising success under arms, have changed their tone and now want complete independence. Aguinaldo has already issued a circular saying that it is probable that he will invite the European powers to recognize and guarantee the complete independence of the Philippines. This leader, in his complete ignorance of diplomacy and of how to deal with the astute European diplomats, will soon involve himself in inextricable complirupture with his American protectors, which is what Germany is aiming to secure.

To Use Flying Torpedoes.

LONDON, June 30 .- The London Daily Mail publishes this morning an interview with Lieutenant Grandon, describing his invention of a torpedo system that he thinks will revolutionize naval warfare. Lientenant Grandon claims that his system will increase the effective range of torpedo boats to 6,000 yards by the use of aerial tor-pedoes charged with an explosive more powerful than dynamite. He asserts that he has received a letter from President McKinley saying that the American War and Navy departments have

KANSAS CITY, Mo., June 30 .- Adjutant General Bell of Missouri announced at Jefferson City to-day that Kansas City would not be permitted to raise a company to fill Missouri's quota under the President's second call for troops. warfare.

LONDON, June 30 .- A dispatch from Port Said says: "A distinguished naval officer, who examined Admiral Camara's ships carefully, laughs at the idea of Admiral Camara attempting to reach Manila. The Spaniards, he says. are wise to keep the fleet out of the Americans' way. The battleship Pelavo and the armored cruiser Imperador Carlos Quinto are in scandalous disrepair, indeed, are hardly seaworthy, while it will be impossible for the torpedo boat destroyers to get far. The Spaniards cannot keep the engines trimmed."

To Attack Sampson in Rear.

Lospon, June 30 .- The Star prints a story to the effect that a part of Admiral Camara's fleet left him off Algeeras, near Gibraltar, and is now on its way to Porto Rico "to join the squadron of torpedo boats which Captain Vallamil has had concealed near there for three weeks past. This fleet will attack Admiral Sampson in the rear while Admiral Cervera attempts a sortie simultaneously with the commencement of the land battle. Thus Admiral Sampson will be too preoccupied to help General Shafter."
