Pepulist Efforts to Control in Kansas.

SUPREME COURT AGAINST THEM.

So Far the Election Contests Have Sten. Desided Passemble to the Republicane. Cutorado's Senate Bradlocked Over Oc. gamination Other Legislatures.

TOPEKA, Kan., Jan. 8.-The Haskell county case, in which Joseph Resenthal, (Pop.), seeks to have the canvassing board reconvened for the purpose of issuing to him a cirtificate of election which was by mistake issued to Stubbs, (Rep.). the supreme heard In. court. The court listened to arguments legal points, but declined to hear testimony. From an equity standpoint, said the court, the plaintiff is unques-tionably entitled to relief, but the defendant seems to have the advantage from a strictly legal point of view. The court adjourned for dinner without rendering a decision.

The Republicans have scored a victory over the Populists on every point at issue. The Populists have abandoned the fight but they are still proclaiming openly that they intend to organize the house. Republicans laugh at their house. Republicans laugh at their claim which they say is based on hope that some man elected as a Republican will prove weak-kneed. A new element in the senatorial fight is the announced candidacy of Congressman Baker, who has been summoned home from Washington post-haste and will be pushed by the "Middle-of-the-Road" Populists.

The Populists still claim that they will organize the house. Their plan is this. The new state officers will be sworn in Monday next at noon. Immediately they will meet as a state canvass-ing board, reopen the matter and issue certificates of election to about twelve Populilist who they claim have been counted out, and then endeavor to take possession of representative hall Tuesday, keep out Republicans who have been given certificates by different officers and then organize. If this is done a conflict is likely to follow.

Topeka is thronged with visitors

of all political opinions and the senatorial wire pulling is growing lively. Martin the straight-out Populist has the backing of Jerry Simpson and in a mild way Govsrnor Lewelling, while Mrs. Lease favors Chairman Breidenthal as the "Middle-of-the-Road" Populist to put up. Waggoner, the straight-out Democratic candidate will have some difficulty in securing the solid Republican vote, although the opinion among the Republicans is general that Waggoner would be preferable to Martin if there is no chance of a Republican being selected. They also look into the future and see hope that if Waggoner is elected the Democrats will hereafter run straight tickets in Kanand that by this means the Republica... may gain control of the state.

NORTH DAKOTA SENATORSHIP. The Field Against Casey Is About the Sit-

nation. MARKEN, N. D., Jan. 6.—The senatorial fight has begun in earnest. Four candidates have opened headquarters at the Sheridan, and the fifth, ex-Governor Ordway, will be here on Sunday from Washington. The last named is said to be the special candidate of Representative Johnston, who is reported to be using his influence with the Scandinavian members.

Senator Casey is apparently leading with twenty votes. J. H. Worst has a following of about ten or twelve members on the Missouri slope. J. R. Smith's strength is in the Red river valley, and R. T. Kingman has some votes in the central and northern counties. The Casey men are working hard for a caucus, but developments indicate that there will be a combination against this by the anti-Casey men. They claim if the election is thrown into open joint session Senator Kinter (Dem.) will win,

because he has three or four Red river valley Republicans pledged to him in the event they are not bound by a caucus. The election will occur at noon, Jan. 17. DEADLOCK IN COLORADO.

Organization. DENVER, Colo., Jan. 6.—The Colorado senate is in a deadlock over permanent officers, the selection of Stanley Stokes for assistant secretary being the only progress made. For secretary of the senate there are three candidates and the vote stood: Kennedy, (Dem.) 6; Paddock, (Pop.) 13; Temple, (Rep.) 15. After spending the entire day in fruit-less balloting for officers the senate

finally adjourned. In the house no effort was made by the fusionists to break the Republican ranks. Upon all questions the vote stood :3 to 32 and in this order the business was transacted. At 1 o'clock the house adjourned after appointing a com-mittee to notify the senate that the house had completed its organization and was ready for business.

Organized in Indiana. INDIANAPOLIS, Jan. 6.—The Indiana legislature has effected a permanent organization. The organization of the ouse was effected by the election of James B. Curtis of Indianapolis, speaker. Senator Francis Griffith was elected president pro tem of the senate. The Republicans had little to do with the organization as the senate stands 35 to 15 Democratic and the house 63 to 37 Democratic, giving 46 Democratic majority on joint bllot.

A canvass was made of both houses and the Democrats are, with one exception, in favor of re-electing Senator Turple. The only contest is on for the empty compliment of the Republican minority vote. C. W. Fairbanks, a millionaire lawyer and railroad owner. has made a hard fight against ex-Governor A. G. Porter, whose friends have been pushing him for the place. The canvass shows that out of tifty-one Republican members of both houses, Fair-banks has thirty-seven, Porter has ten

and four are non-committal. Warming Up in Wvoming. CHEYENNE, Jan. 6.—The senatorial fight in this state waxes warmer as the convening of the legislature draws

nearer. Nearly every Democratic po'

in his hat. Ex-Occoraw Groupe W. Daxter is plainly in the lead. Mr. Baxter is young, wealthy and popular and as many warm, personal and political triends arong presented Democrats all over the country. Netwittetanding Me-Baxter's popularity and strength in the amutorial fight his opposite is are referriloody warming up and to all probability the first few ballions in the legislature will result in a doublook. The Populities claim they will give Mrs. Mary E. Bart lett a complimentary xole. This will take five votes from some one and when they do come back to the leading cands dates, as they will do, they will undoubtedly elect him. The legislature convenes Jan. i.

BUTLER MUST PAY.

His Objections to the Payment of a Promissory Note Overraled.

Boston, Jan. 6.—The full bench of the supreme court has sustained in a decision handed down, the superior court judgment in a verdict of \$16,971 against General B. F. Butler in a suit brought by the Prescott National bank of Lowell, Mass. General Butler endorsed in 1886, a note for \$12,500 and discounted it at the bank, receiving its value. General Butler presented two grounds of defense. He contended that a national bank could not legally buy a promissory note on the market, and in the second place held that the note was made on the "Lord's Day" The full bench, referring to the first ground of objection, says that there is a conflict of authority, but that the maker and endorsers cannot be relieved from their contracts to pay the holder the amount promised in the writing. Concerning the "Lord's Day" objection, the court says that the contract relied upon is the contract between the defendant as endorser and the plaintiff. That was not made on the "Lord's Day" although the contract between the makers and endorsers may or may not have been. The verdict includes interest and costs.

Villard for the Cabinet.

St. Paul, Jan. 6.—The president of one of the St. Paul banks who has daily business with Governor Merriam, stated positively this afternoon that Mr. Merriam is to become president of the Northern Pacific Railroad company in spite of the denials that have been made the past week. The same authority states that two other changes are to be made in the official staff of the Northern Pacific. Mr. Villard, chairman of the directorate has been tendered the position of secretary of the interior and will accept. With Mr. Villard in the cabinet and Mr. Merriam president of the company, Thomas Oakes will become chairman of the directorate. Governor Merriam was seen, he said: "I am a di-rector of the Northern Pacific company and as much as I would like to discuss the matter, I think you will see that I cannot talk of the road's affairs to the

ON TRANSCONTINENTAL TRAFFIC.

Cut the Southern Partie Sate from Calfurnia to Chicago - A Bestston Affecting the Rights of Stockholders in Miner.

Curcano, Jan. t. - The second stage of branches of the legislature met at 11 the rate reductions of the Southern Paing out its policy that no lower rates. should be made from California to the cago. It served notice on the transcontinental lines at the New York meeting that it would protect Chicago against the seabcard rate. The Southern Pacific at that time was threatening to make the reductions, but was deterred by the Atchison's stand. The reuse tions of the Southern Pacific were on canned goods, wine, borax, beans and brandy. On the first four commodities it made rates of 50 cents from California to the Atlantic seaboard points, and 75 cents to Chicago. On brandy the reductions were 65 cents to the scaboard and 85 cents to Chicago. The Atchison has taken the seaboard rates of the Southern Pacific and applied them to Chicago from every point on the Atchison system in California. From points on the Southern Pacific the 75 cent rate must of recessity be quoted. The reduced rates of the Atchison to Chicago were quoted at such late hour that competing lines could take no action. The 75 cent rates of the Southern Pacific are quoted over the Burlington and Rock Island, and on beans over the Union Pacific and Northwestern. It is doubtful if any of them will care to join with the Southern Pacific in meeting the 50 cent rate of the Atchison.

AN IMPORTANT DECISION.

The Rights of Mine Stockholders Defined by Judge Hallett.

DENVER, Colo., Jan 6.-An important decision in connection with mining corporations has been made by Judge Hallett, of the United States circuit court. The decision is, in brief, that any stockholder in a mining corporation has a right to enter the mine and journed. make examinations of the property to his own satisfaction. The the suit of Captain Thatcher against the Mollie Gibson Mining company of Aspen. The Mollie Gibson has during the past twelve months paid dividends amounting to \$1,800,000 and the January dividend has been declared this year. But while this is the case stockholders have been compelled to blindly await results, as the managers refused admittance to any of the stockholders out-side of the officers of the company, while workmen in the mine were eworn to absolute secrecy and a word expressed as to the condition of the mine one way or the other meant dismissal from the company's service. This ruling of Judge Hallett that Captain Thatcher as a stockholder had a right to go down in the Mollie Gibson mine is, of course, applicable to all stockholders, and a divulgence of the hitherto secret condition of this properstock is selling at \$8 to \$8.75 per share.

Iron Hall Officers Arrested.

PHILADELPHIA, Jan. 6.—Freeman D. Somerby, late supreme president of the Order of Iron Hall; Dr. Charles S. Baker, late supreme medical examiner; Joseph Gladding, late supreme organ-izer, and James H. Eckersley, late chairman of supreme finance committee, were arraigned before Magistrate Pole on the charge of using \$200,000 of the order's funds to sustain the Mutual Banking and Trust company of this city. Counsel for the defendants made a motion to waive a hearing and the magistrate bound them over in \$5,000 bail. District Attorney Graham said he would resist the attempt of Indianapolis authorities to take the defendants there for trial and said he believed the governor would refuse the requisition from the Indiana courts.

The Fire Record.

DENVER, Colo., Jan. 6.-About midnight the fine four-story business block of Halleck & Howard, at the corner of Seventeenth and Market streets, was discovered to be in flames, and was completely gutted before the fire could be got under control. The heaviest losers are the Hallett Paint and Glass company, \$50,000; Denver Stamping company, principally valuable machinery, \$35,000. The National Cracker company lose \$6,000 and the R. W. Stewart Lumber company about \$3,000. The fire started in all probability in a laundry in the rear of the building. Insurance not

Quebec's Jail Scandal, QUEBEC, Jan. 6.—A scandal has leaked out in connection with the Quebec jail. which seriously implicates one of the employes. He is accused of taking lib-

delivered by Mr. Vilus of Wisconson against the actioption bill. For rearly there hours he hold the undivided astention of the supporters and oppositely of the measure while he stated in a pivepared argument delivered with great parameters and impronvenue the constitutional objections which in his comion precluded the possibility of its pas-rage by the senate. He denounced it as a flagrant advance to centralization and as involving the charac-teristics of the most odious paternalism There was a c olospuy between him and Mr. Washburn of Minnesota, who has charge of the bill, in the course of which the question was put to Mr. Washburn as to whether he would accept an amendment that would confine the operation of the measure to operations that were absolutely gambling and in which there was to be no delivery, but the Minnesota senator hesitatingly declined to answer the question affirmatively, re-marking that he did not believe that any such restriction would be effective. The bill has gone over till Monday, Sat urday having been set apart for the con-sideration of the two bills in relation to quarantine and immigration.

Washington, Jan. 5,-The demand of Mr. Beltzhoover of Pennsylvania for the regular order, cut off any requests for ananimous consent in the house, and the business in order was the calendar of unfinished business, which contains about thirty private pension bills. The first bill was passed by a vote of yeas of 95; nays, 73—a bare quorum.

Mr. Dockery of Missouri, from the committe on appropriations, reported the District of Columbia appropriation bill and it was referred to the committee of the whole.

The consideration of pension bills was resumed. The bill under consideration was finally defeated, after three-fourths of an hour had been consumed to secure a quorum.

Saturday, Feb. 4, was set apart for paying tribute to the memory of the late J. W. Kendall of Kentucky. By unanimous consent the house then

proceeded in committee of the whole to the consideration of the fortifications bill. There was no general debate. The bill was passed without amendment. It appropriates \$1,735.055.

The consideration of private pension bills was resumed and a few of the measures were passed without opposition, because little if any attention was paid to them, and then at 3:30 o'clock as there was no quorum the house ad-

Judge Scott instructed the clerk to enter an order that all prisoners appear in court without fire arms and that this order shall apply to witnesses and spectators. The sheriff was directed to see that the order was strictly enforced. The case was then taken up. Of the forty-four defendants in the case only twenty-four were present. The others are out of the state. The trial will hardly begin in earnest this week. At noon the regular panel had been exhausted and not a man had been retained. The sheriff has subpænaed fifty more men for jury service. It will be several days before a jury is secured.

Two weeks ago he returned and warned Freeman to leave the house. Freeman was then a favored boarder. Yesterday evening Frasheim walked into the house, burst into his wife's room, and finding Freeman there shot him. The affair was kept from the knowledge of the police department until last evening.

Four Will Die.

CHICAGO, Jan 6 .- Four of the twenty firemen burned by the natural gas explosion at the Donohue & Henneberry building on Dearborn street will probably die from their injuries. They are: J. C. Michael Nolan, fire insurance patrol, residence 14 Charlton street. Thomas Nevans, pipeman, resi-dence 38 Sebor street. I suppose that I am in as close and intimate touch with Mr. Carlisle as anybody on earth, not even excepting the members of his own family, and though I have not seen him for three weeks, am confident that he is bound to yield to the tremendous pressure upon him to administer the country's financial and economic policy during the Cleveland

SUBMITTED TO THE SENATE.

Arresting to the Report Please to see a BIA and Years Proof Have Been Stamped Out - The Report About the Frenident's 211 Stealth Dented

Washington, Jan. 6.-According to the report of Secretary Rusk on the operations of the bureau of animal industry for the year 1895, laid before the senate the work of stamping out pleuro pneumonia has been carried on as rapidly as possible under the prevailing DR. F. D. WILSON. conditions of the country and the disease has completely disappeared. "The scope of this branch of the work of the bureau has therefore been completed," Secretary Rusk adds. "And this dangerous and much dreaded disease has been eradicated from our soil and the United States is the first of the large nations of the world which, having been once extensively affected, has been able to completely extirpate it. The time required was only about five years, and the total expenditure a little in excess of

"The regulations for preventing the dissemination of Texas fever have not hindered the shipment of cattle from the infected districts to the markets for slaughter, nor have they depreciated the value of these cattle. The numerous large outbreaks of the disease which have been the rule in former seasons, have not occurred, and with the exception of an outbreak in western Texas and in Lyons and adjoining counties in

Kansas, none have been reported."

It is shown that one of the main causes of the appearance of the fever among export cattle is the shipment of animals in cars which had not been disinfected, and the prevention of the disease, the secretary says, will not be absolute until congress enacts some legislation that will compel railroads to comply with the regulations for clean-ing and disinfecting cars. During 1892 there were reported 131 head of cattle in the export trade affected with this dis-ease, as compared with 524 during 1891.

Animals imported from Canada are inspected owing to the prevalence of foot and mouth diseases and pleuro-pneumonia in Europe, and the constant importation of animals from Europe into Canada. There is no authority to inspect imported horses, but as these animals are liable to be effected by contagious diseases, the secretary says that some provision should be made for the inspection of these animals.

The work of meat inspection has more than justified the hopes of its promoters and fully warrants the comparatively small expense incurred by the government for its maintenance, says the sec-retary on this subject. The total cost of this bureau for the year has been

The Report Untrue.

WASHINGTON, Jan. 6 .- In view of the statement published that President Harrison's health was failing and that was likely to break down, Postmaster Wanamaker said the report that the president was in failing health must have originated with some one with little opportunity to know the truth. The fact is the president is in perfect health First class Cleaning. Dyeing and Repairing and has not in four years Satisfaction Guaranteed. and has not in four years been away from his desk a single day from personal sickness.
When the quarantine against the White
House has been removed, it is probable that President Harrison will take a few days recreation in duck shooting. He has been importuned to visit a shooting resort on the Potomac and ex-Senator Sewell, who has accompanied him on a number of gunning expeditions has also requested him to take another trip of this character.

THE STORY REITERATED.

Confirmation of the Bakersville Riot from Many Sources.

Marion, N. C., Jan. 6.—Snow has covered the battlefield at Bakersville and the mountain roads are impassible. It is impossible to obtain further details of the riot in the mountain ham let, but the details published are substantially correct. The accounts of the fight came from half a dozon isolated towns and all agreed in essential particulars. Denisls of the story, as sent out from Cranberry Forge and other points, are utterly unreliable. All of these points are snowed in and it is impossible to obtain a word from them. It cannobe denied that the riot occurred and that there was a heavy loss of life, but the number of killed is in doubt. All the news brought to the different telegraph offices came by the mail carriers who traverse the mountain roads once or twice a week, and every one of them brought about the same report.
