COLUMBIA Council No. 3, Jr. O. U. A. M., had a public installation of officers and a musical entertainment at their hall last Tuesday night. The commandery of Omaha and a number of the members of the commandery at Council Bluffs were present in full uniform. After partaking of refreshments those present who trip the "light fantastic toe," participated in a few numbers, and then departed for their homes. A royal good time is reported.

A NEWSPAPER man often forgets a very important item, but it is seldom he forgets the same thing more than one week. But we have broken the record. Some time ago a friend informed us of the election of the officers of Success Council No. 3, W. A. P. A. and at the same time called our attention to the fact that the officers and members had united in purchasing and presenting a beautiful silver water set to their honorable president, Mrs. Gen. Giles H. Fitch, who had, contrary to all political rules, and her own desires, been elected to fill the office of president for three successive years. Mrs. Fitch is justly proud of this beautiful testimonial of the confidence and es. teem of her co-laborers in the vineyard of loyalty and patriotism.

We can conceive of nothing more disgracefor then the actions of the Roman Cathealie hoodlums and saloonke pers in several of the wards of this city on election day, when respectable citizens were terrorized, common decency outraged, and American eltizonship disgraced and lowered by the minions of the pope, who were bent on carrying the election and leceping as discoputable and corrupt gang of rascals in office as ever disgraced this or any other ofty.

However, those disreputable methods availed little, as we see few men returned to office in whose interests riot, murder and all other kinds of lawlessness were practiced. Those crimes did not have the effect desired. They did not warp public opinion or intimidate voters so that the hoodlum and criminal element did the voting and retained their henchmen in sole possession of this city. It acted rather differently to what they had anticipated. Men who seldom exercise the elective franchise except in presidential elections, realizing the enormous prize at stake, left their business and deposited their ballot on the side of American principles, and against the Roman hoodlums who assayed to control the city government. As a result we see the American orders and their friends coming out of the confliet unscratched; their very quietness being an eloquent and forcible answer to the many contemptible flings which have of late been admitted to the columns of the daily press-wherein Romanism has been fawned upon and the A. P. A. has been denounced-a condition which our cut on the first page sets off to quick music.
