Fifteen Companies of Catholic Soldiers in San Francisco.

The military force at the command of the Roman hierarchy continues to increase in all the cities in this land. In San Francisco nine companies have already been organized, and the daily papers state that before long it is ex-

leading spirit in having these military companies organized in this city, and on the out-ide. It will be observed that the name of this military organization 1s "The League of the Cross."

This shows that its primary purpose is to defend Romanism. If any think the work of Romanism have been overdrawn, we ask them what means all this battle array? It should be remembered also that what is being done in San Francisco is only a sample of what is being done in other cities. - San Francisco Harbinger.
