Too bad, too bad! The Judge has fallen from his good resolutions and gone back into the same condition from which he did seem to be trying to lift himself. His desire to abuse some one has proven stronger than his will to do right, and has led him again to the use of "offensive personal matters" as of yore.

Next Saturday evening there will be a pleasant time at the church. During the week the ladies have been busy making night-caps, each lady making two just alike, one of which will be drawn by some gentleman, who will take to supper the lady having the cap similar to his. These caps will be nicely made and worn by all, and a good supper will be spread.

Some Des Moines young ladies have been called upon to contribute "patches" to an autograph quilt, which is now the popular thing among the society girls. The method of making the quilt is ingenious. A young lady cuts her pieces of the size she wishes, then sends them to friends far and near, together with embroidery silk or cotton, with the request that they embroider their names on the pieces and return them. It is very easy to comply with the request, as nothing but the skill to embroider and a little time is required.

How he Kept Her at Home.

She was a dear little woman, and hubby wanted her to stay at home all summer. She had her eye on a fashionable watering place hotel, and he knew that meant a clean thousand out of pocket. He did be storm, and rave, and argue, and talk of bankruptcy? Not at all. He urged her to go, he was eager; he poo-hoed every objection, and then he got his wicked cousin Charley to write him a mysterious note about horses and little dinners, and left it where wifey could find it, and inside of a week she declared that nothing could tempt her to leave home for longer than two weeks of her husband's vacation.

It is reported that the Anarchists have blown up a portion of Chicago.

A bright little youngster came to the home of Mr. and Mrs. John Bartells on last Friday morning the 7th. John says he is a Harrison man.

SAY! Did you know that you could get—at the Ranch Supply house—California oranges, all kinds of nuts, fresh candies—big stock,—apples in any quantity, camberries, Figs? WELL IT'S SO, and every thing is Fresh and CHEAP.

What a Baby Can do.

"Mothers will be interested in the following list of things a baby can do," says the author of "How to be Happy Though Married," in his new book, "The Five Talents of Women," just published by the Scribners. Doubtless every mother could add many items to it:

"A baby can beat any alarm clock over invented waking a family up in the morning.

"Give it a chance and it can smash more dishes than the most industrious servant girl in the country.

"It can fall down oftener and with less provocation than the most expert tumbler in the circus ring.

"It can make more genuine fuss over a simple brass pin than its mother would over a broken neck.

"It can choke itself black in the face with greater ease than the most accomplished wretch that was ever executed.

"It can keep a family in constant turmoil from morning till night, and night till morning without once varying its tune.

"It can be relied upon to sleep peacefully all day when its father is away at business and cry persistently at night when he is particularly sleepy.

"It may be the naughtiest, dirtiest, ugliest, most fretful baby in all the world, but you can never make its mother believe it, and you had better not try.

"It can be a charming and model infant when no one is around, but when visitors are present it can exhibit more bad temper than both of its parents together.

"It can brighten up a house better than all the furniture ever made; make sweeter music than the finest orchestra organized; fill a larger place in its parents' breast than they knew they had, and when it goes away it can cause a greater vacancy and leave a greater blank than all the rest of the world put together."

Boggy Items.

What makes Brown have such a grin on his face? Oh yes, he has a brand new baby, a girl.

Greger has a plug hat.
Bingy has a barn. He is a granger sure.

Mr. S. will have an entertainment as soon as his school is out.

T. W. Arensburg is moving his saw logs to the new site.

R. Corcoran and wife took dinner at Greger the 9th.

W. Corcoran has his logs on his claim, and is putting up a house.

Banen goes to the B & M. R. R. Wednesday, hauling timber to build sheds.

L. Verran is cutting logs for Bowser.

E. Camble was a caller at Greger's on the 9th.

B. Coffee has a new way to cook potatoes, by frying them in water. Try this way, it saves lard. Mr. Coffee is hauling lumber for his new house.

Larry Gibson is at the Old Lady's on a visit.

Montrose Items.

Corn picking is over but none is for sale as they all hold for 72c. per bushel.

Stock looks fine in the valley as free range is just the stuff.

School meeting will be held at the store of Montrose. We want everybody to come.

Church at Montrose the 16th.

The principal talk is about railroad here as there is about 300 men working at Long Branch. We think it will be a great benefit to the country.

One of the leading men of the valley was at Harrison recently, and he says they haven't as much business as Montrose.

Miss Webber left the valley for her home in Minnesota on Monday last.

More folks are expected from the east, about 15 families.

We did think that all the men at Montrose were out of the ring but one found them the other day as he said that a change of pasture fattens calves. They appointed him assessor last year and gave him a job of laying out roads at \$4 a day. The ring uses him for the tale

end. The last account we have of him was that they had promised him all of the dusty work.

The cattle men of Hat creek valley will give a dance one mile south of Montrose on New Year's night. A fine supper will be served and good music rendered by the Montrose string band composed of Frank Hitners, Joseph Powell, Fred Hitners and Michael O'Tool.

WAR BONNET.

Items are scarce but the weather is fine.

What is the matter with Weed Wrestler and the Judge?

We have heard a new name for the Sioux County Republican; it is "The Sioux County Reprobate."

The young cow boy of Squaw creek returned from the east a few days ago.

It does not seem as though free range is of much benefit, as shooting and dogging cattle seems to be well practiced in this part of the county.

Mr. Thomas Schilt purchased a job lot of yarn recently which he intends to have knit into overcoats and jackets, besides various other articles.

NOTICE.

All parties intending to make final proof must get my consent or their proof will be rejected.

War Bonnet Head Council.

The W-S outfit started on the roundup about the 16th. The boys did well until it came to third relief. It took two to stand guard, and the outfit being a little short of men the foreman had to roll out with John Warn who was on third relief. The weather was not very agreeable so the foreman slipped back to his bed and rolled in again. The next night or two Chas Brooks and Loren Jensen were put on third relief together and well the cattle took a stampede and all hands and the cook rolled out and the boys rounded up in Harrison about five o'clock in the morning.

LYNAMITE.

Glen Items.

J. N. Frazer has bought himself another horse.

A. E. Gates is hauling wood from the divide.

Mr. Davenport lost a horse a few days ago.

Another case of Herd Law vs. Fence Law is soon to be tried in our justice's court. Joe. Iecker took up some horses belonging to Mr. Wallace and held them for damages and Mr. Wallace replied them.

Obs. Fraizer is getting out a lot of posts.

John Iecker has gone on a hunt.

A horse belonging to A. E. Gates broke his leg recently and had to be shot.

Ed. Lundy is building a frame house on his claim, and is intending to get it done sometime in the near future.

Lave Colville will winter his stock on Deep creek.

Mrs. Mary Kreeman started east on a visit a few days ago.

So our friends of Pine Top and Cottonwood are just beginning to get mad. They must be pretty badly mixed or they wouldn't have misstated facts as they did. That caucus was called by parties on Cottonwood and not by the Mule Party, as they call it; and not for the purpose of indorsing any one, but to try and concentrate on one man, let it be who it would. As for the White river Rats, they have decency enough to speak respectfully of men they know nothing about. As for a third party, it is time for one when county conventions are run by a few men at Harrison, as they have been since Sioux county was organized, and the ring will exist as long as one or two precincts want to fill the county offices and are willing to stand in with the ring, or be their tools, in order to get a chance to do it, and the sooner you find out that you are not the county's guide the better it will be for all concerned.

-No. 2.-

Elmer McFarling is working for J. T. Mason.

John Shay is busy at work on his new house.

The new mill is at work at M. H. Green's place.

There is some talk of putting in a setting of logs at Mr. Kreman's place.

The free range men have got a chip on their shoulder these days and they say: "out you touch it or we will cinch you."

The dance at Mr. Kreman's the other evening was well attended, and everyone passed a pleasant evening.

The replevin case of Wallace vs. Iecker, before Justice Mason on the 8th, was tried by jury and a verdict rendered in favor of Wallace. It seems that there is no law in Sioux county to protect the farmer and it also seems that the stockmen are doing their best to cripple the farming interests in this county, but we are here to stay and will win after a while.
