Attorney Maine's house is rapidly developing into the finest dwelling in Harrison.

For Sale Cheap, a good grade English Shire stallion by J. H. Bartlett, Harrison, Nebraska.

Geo. Whitney and Ed. Galpin returned from a several day's sojourn at Crawford yesterday.

Born, to Jos. F. Pfof and wife on Monday, Jan. 21, a girl. Mr. Pfof says he had no idea there were so many smokers in Harrison.

Last evening's literary showed an increase in both attendance and enthusiasm. The next one will be held on February 6th. All are invited.

Born, to Mr. and Mrs. T. O. Williams, on Jan. 18, a young well digger. He is rather small yet but T. O. says it's only a matter of time till he will twist a rope and steer a drill rod as well as his daddy.

The ladies of Harrison will give another of their unique entertainments at the Church on the night of Saturday, January 26th. There will be music, also mush and milk provided for all who wish. Proceeds go to the Church fund.

The case of C. S. Columbia et al vs M. E. Scofield came up for hearing yesterday and was submitted to the Jury. The Jury after 6 hours of deliberation found that they could not agree and were discharged. The case will be tried again.

By a letter received recently from Dave Bartlett, at Burlington, Ia., we learn that his sister died the day on which he left Harrison and was buried the next day after his arrival at home. He writes that he will be back in Harrison this week.

Boggy Items.

Things flourish on this creek. The supper and dance went off fine. Everybody enjoyed themselves and especially at supper for the pies and cakes. 86 head of cattle was driven out of the valley for the rail road at Crawford.

District No. 9 will have a new house to teach school in. It is to be built by volunteer work.

There is a dairy started on the Boggy. Butter and cheese will be cheap soon.

T. Holly has built a cattle shed a good one and is going to start a pigery soon.

Stocco.

War Bonnet Warbling's.

Jan. 21, '89.

This weather is just too disagreeable for any use. Entirely too hot to wear boots and just a little too cool, nights and mornings, to go bare-footed.

Lyceum every Wednesday evening at the school house No. 15.

One of the most social and enjoyable event of the season was the dance in the school house last Friday evening. Every one had a good time and said "let's have another."

Charley Brooks has struck a new trail. Bob Keel is following the old one from where C. abandoned it.

Dr. Parrish intends to start home tomorrow.

If a young lady wishes to go to a dance she should not say, "Well, if Mr. W. does not come for me I will go with you." And the young man in question should not wait for the said Mr. W. until said young lady had retired for the night before going after her.

The Harrison papers are very modest. They haven't said a word about parties near town making hay for the past two week for fear (I presume) that some one might discredit it.

Darnell & Nelson are moving their saw mill into War Bonnet Canyon.

Last Friday eve some miserable "Kid" (partly in form of human beings) nailed the door had to be broken before the house could be entered. Also nailed seats inverted to the floor and did other damage to the district property. The parties are known and we trust that the district Board intend to make it dear for the miserable miscreants.

Mr. G. W. Kasher is the proud proprietor of the "hall" well in the county; 200 feet. Mr. E. don't believe in drinking surface water.

Will You do it!

We want a hundred letters, testimonials, from parties living in this county, telling how well they are pleased with the country and why. All can say a little if they only try. Write a letter for the JOURNAL and at the same time send us the names of friends in the east and south whom you think might be persuaded to migrate to this country of free homes and healthy climate; and we will send them a copy of the paper free. Now isn't this fair? We want to send out several quires each week of these sample copies, so send us names—anyone who wish—and we will send them a copy of the paper. Be careful to write the names and address plainly.

Write and tell your reasons for thinking that this is a better country than where you came from and why you advise friends to come here. Tell of the crops you have raised or seen raised, of the climate, the people, how healthy it is, how cheap you can live, the cheapness of lumber, wood, hay, vegetables, and all about it. If you don't write send us a few names and if we have the papers to spare will send them copies containing letters of your friends and neighbors.

A rumor has been current in this place during the week, that one of the men engaged in turning the channel of Cheyenne river, near the T O T ranch, was shot and instantly killed by the foreman of the gang, with whom he had been quarreling over the work. The fatal event is said to have occurred last Saturday. The murderer is said to have mounted a horse immediately after having committed the deed and rode away, thus escaping arrest. The names of the parties connected with the tragedy we failed to learn.—Custer Chronicle.

Guess the rumor must be without foundation, or else they are keeping the matter very quiet, as Oelrichs parties who were over at the point named last week heard nothing of the tragedy.

LATER—The killing occurred at the tunnel south of Crawford, and the party who done the act, a man named White, was immediately taken in charge by the railroads and lynched.—Oelrichs Advocate.

The above must have originated from the Sunday affray at Crawford spoken of in another place.

We were introduced to a school house recently about eight miles from here, that but for the introduction we should not have known, as its appearance did not indicate it. The condition of the house is such as to be a disgrace to the inhabitants of that district, and surely indicates a very great lack of enterprise on the part of the parents who send children there. The cracks are large and numerous that might be chinked or battened in a very few hours and at little or no expense. If the people there can do no better we invite them to come to the JOURNAL office and we will gladly lend them a few old papers and our paste pot that they may paste a strip of paper over the cracks which would be a very great improvement indeed, and if they will show that their individual business is such as to deprive them of the time we will send our "devil" to do the work free of charge.

The little hamlet of Hot Springs, said to be located in this county, is all torn up over the problem as to the difference between a foot square and a square foot. Over the fuss arising therefrom the teacher has been bounced from the public school and citizens are taking sides in a manner that is said to forebode actual war.—Oelrichs Advocate.

Messrs Chas. Brooks, John and Nels Anderson and Thos. Schults treated the young folks of War Bonnet to a splendid dance and supper at the school house on last Friday evening. About 35 persons were present and enjoyed themselves " hugely" for several short hours and all felt grateful to the donors for the very pleasant evening spent.

While Mr. Jas. Cook was leading his fine stallion Mendonian a few days ago the animal grabbed him by the right arm above the elbow and bit and tore it quite severely and some of the muscles are supposed to be torn loose from the bone. It is a painful wound but will probably heal without leaving any material defect.

Several parties from the railroad camps south of Crawford came into that thriving city last Sunday a week ago, and after "bowling up" got into an affray over a cap the bow of the gang had stolen from the hotel where they ate dinner. Several knockdowns ensued and the boss was arrested and fined \$75 and costs.

Mike Brick has been quite sick for several days past and the shoe shop where his familiar and usually smiling countenance was wont to meander in days past is vacant and lonely. We understand his health is improving and that he will be able to return to work shortly.
