We wonder if the Board of Commissioners will let the printing of the bar docket to the lowest bidder?
James Cramer, of Little Cottonwood, killed a mountain lion last Saturday measuring seven feet from tip of tail to end of nose.

Remember the Board of Trade meeting Saturday evening. All whose dues are not paid on or before that time will be dropped from the list of membership.
John Thornton brought from Crawford last week a ten horse power for use at the Novelty Works and now the corn is being ground into meal and feed rapidly.

Chas. Biehle returned from his trip to Iowa last Friday. From the beaming smile displayed on his features we conclude that he must have had a pleasant time.
Frank Demasig is living on his homestead. Frank's house is more cozy than capacious but he says he is preparing to build a larger dwelling and is on the look-out for an ornament that wears calico.

Mr. Jos. F. Pfost recently received a car load of farming implements that he will sell as cheap as the cheapest. All who think of purchasing anything in the line of agricultural implements are invited to call and examine this large stock and get prices.
Work is progressing rapidly on the Cheyenne river cut off, near the T O T ranch, there being at the present time sixty teams engaged in the work. The new channel will be 1,400 feet in length and thirty-five feet deep in the deepest place. It is the intention to have the work completed by the time the river breaks up in the spring.—Oelrichs Advocate.

H. T. Merriman, of War Bonnet, is rapidly improving his home. He has several acres of timber land cleared and most of the stumps grubbed out and the land is being prepared for an orchard. Mr. M. contemplates fruit raising in abundance and he has one of the finest places for that purpose that can be found.
This section of the country was visited by a genuine blizzard last Friday. The wind blew so swiftly that you could not see it and when the storm was highest it was impossible to see over two or three miles on account of the dust and snow. It was very cold, the thermometer registering nearly zero for four or five hours—during the lasting of the storm. Three or four inches of snow fell but is now all gone.

The mush and milk festival at the church Saturday evening was a success as all the Harrison entertainments are. A large amount of mush and milk was consumed, the fish pond was flabed dry, the young folks—and older ones too—enjoyed themselves at games and other amusements until tired, and the net proceeds amounted to about twelve dollars. The society will soon have enough to complete the purchase of the organ.

The first installment of the boom edition gotten out by the Harrison Board of Trade, in connection with the Herald, will be issued Saturday—3,500 copies. This will be continued for four consecutive weeks and all persons are requested to furnish names of acquaintances, friends and relatives that they may be sent one or more copies of the paper. While it will be a "boom edition," as they are usually called, it will differ from the usual editions of this kind inasmuch as the statements contained therein will be true, all of which can be substantiated by reliable parties.

The Harrison Cornet Band will give a dance on the evening of St. Valentine's day; February 14, '89. The success that has attended heretofore in this line they will strive to exceed on the 14th. A P. O. department will be kept in the room and all who desire can bring their valentines and deposit them there and at eleven o'clock the postoffice will be opened and mail distributed.

The water works' boiler has been moved from its cumbersome position in the center of the street to a lot back of Griswold's store, where a brick house is being built over it. The steam is carried to the engine at the well through a pipe laid under ground.

On or about Feb. 20, there will be a change of firm at the Ranch Supply House, and all those indebted to the present owner are respectfully requested to call and settle their accounts before that date.

DEAD.
Writers for the press generally approach the subject of death with a feeling of solemnity, but in the preparation of this obituary we confess rather to a feeling of facetiousness. The Judge's Republican has made its last kick at honesty, decency, and progress and, we try to write it reverently with our hat off, is dead. Still, in common with our citizens generally, we are inclined to feel like the fellow who prayed at a burial service, "Lord we thank Thee for this opportunity." This announcement coming along with another to the effect that the Judge has reformed, is an occasion for universal rejoicing. When such men are able to reform, common every day sinners have reason to take courage.

We take occasion in this connection to call attention to the fact that the Journal is now the only Republican paper in the county.

War Bonnet Warblings.
Geo. Olinger is working for T. O. Williams.
Mr. Jas. Nolan will give the young folks a chance to wear out sole leather on his floor sometime soon.

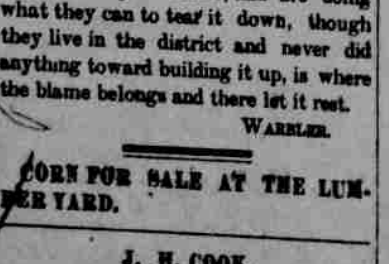

Last Monday Geo. Olinger found a broncho with a part of the harness on roaming about in Mr. Thomas's "big winter pasture," and a little farther up the road met Mr. Bigelow looking for a runaway team.

Mr. and Mrs. Zumbunner and family, brother-in-law and sister of T. O. Williams, are expected here this week, Friday, from Oakland, Iowa.

The article in last week's Herald under the head of "War Bonnet Dance," was all wrong, entirely uncalled for and out of place. PUT THE BLAME WHERE IT BELONGS. Some of the young men (outside of the district) contributed the lumber and put down the floor in the school house, and had permission from the school board to have a dance on that floor. But the devilry of the outfit who nailed up the house, and are doing what they can to tear it down, though they live in the district and never did anything toward building it up, is where the blame belongs and there let it rest.
