—Do not fail to call on THE JOURNAL if you want a nice job of printing done.

—If you want to have a good time do not miss the masquerade ball on New Year's eve.

—Barb wire will be 50c. higher inside of one month. Buy now of Griswold & Marsteller.

—W. O. Patterson has purchased the Hart property and now occupies it. He contemplates opening the blacksmith shop.

—A ladies' prayer meeting will be held at the M. E. Church on to-morrow (Friday) afternoon at 3 o'clock. All are invited to attend.

—There is to be a dance at the residence of Jacob Marking on the evening of Jan. 2, 1890. All who will behave are invited to attend. Tickets, including supper, \$1.00.

—Otto Tietze had the misfortune last week to loose his smoke house and contents by fire. It is quite a loss as he had his winter supply of meat in the smoke house preparing it for use.

—The grand masquerade ball on New Year's eve promises to be the most enjoyable event of the season. No one should fail to attend. Good times are always had at the balls of Harrison.

—Rev. Lusk, pastor of the M. E. church, reports that he and his family are highly pleased with northwest Nebraska and that the church is in a prosperous condition, and the attendance on the increase.

—All who enjoy dancing should be sure to attend the ball here on New Year's eve. The indications are that a larger number will be costumed than ever before and the result will be that a grand time will be had.

—The indications are that a good session of the teacher's association will be had on Jan. 2nd and 3rd, 1890. An effort should be made by all interested in the welfare of the educational interests of the county to be present.

—It is noticed that some of the boys are in the habit of going to the depot at train time and jumping on the train to take a ride, getting off when the train is in motion. It would be well for parents to look to this matter before some of the boys are killed or crippled for life by the cars.

—A subscription paper was circulated a few days ago to raise money to complete the large cistern near the town well, and it was understood that work would be commenced at once. There appears to be some hitch in the matter as things still remain as they were. It is to be hoped that it will be completed in the near future.

—Elsewhere in this issue appears a card of S. L. R. Maine relative to a special school meeting, which was petitioned for. It seems that there is some mistake in the matter as the petition contains a provision for the election of a school district treasurer, and there is no vacancy on the board. The petition asks that the meeting be called on Dec. 30, 1889, but the petition was not filed in time to give the requisite fifteen days notice so that the director does not feel that it is his duty to call the meeting.

—It is reported that the engineers of the F. E. & M. V. will go into the field about the first of the year to survey a line from the end of the Wyoming branch to the Yellowstone park. This is good news for Harrison and Sioux county for it will not be long until this line will become an important one and the development of the country west of here will assist in the development of this section. The vast mineral wealth in the territory through which the road will pass will furnish employment for a great many people and thus make a good market close at hand for the products of the agricultural districts just east of the mining territory. It is to be hoped that the extension will be pushed rapidly along.

—Grand masquerade New Year's eve.
—Get your costume ready for the ball.
—School will close to-morrow for a two week's holiday vacation, and after the short vacation scholars and teacher will be prepared to get down to work with renewed energy.

—Remember THE JOURNAL clubs with almost any paper in the United States and when you want anything in the line of papers or periodicals call and see us and we can save you some money.

—HIRE!—There are still some accounts on the books of the Buffalo Gap Lumber Co., unsettled. These must be closed either by cash or note not later than December 20, 1889. Do not neglect this matter.

—We are informed that a constable in one of the precincts in the north part of the county attempted to arrest a man a few days ago and got wounded by a knife in the hands of the man he was trying to arrest. We were unable to learn the particulars.

—The first of week J. W. Hunter went before Justice Jones and asked to have the replevin case against E. A. Weir dismissed at his cost. This is the case growing out of Weir taking up a horse belonging to Hunter for getting into his grain field. The latter filed an affidavit asking an adjournment, a letter press copy of which affidavit was framed and hung up in the store of the former for a long time, and read by the most of the people who visited the store.

—At the meeting of the commissioners on last Monday the bond of the treasurer for the ensuing term was fixed at twenty thousand dollars. A number of bills were allowed and the consideration of the official bonds of the new county officers were deferred until Jan. 6, 1890. The resignation of E. D. Satterlee as county attorney was handed in and accepted, but no action was taken in the matter of appointing a successor. This action will put a stop to all impeachment proceedings against the county attorney.

—The fifth contest for the Demore prize medal occurred at the M. E. church on last Friday evening. The medal was won by W. E. Patterson. Only one more contest will be necessary before a class can be organized to compete for the gold medal. The interest in these contests is increasing all the time, as on last Friday evening there were not seats enough to accommodate near all who were present. There is need of more seats for the church and it is likely that an effort will be made in the near future to secure more chairs.

—The prospects are that Sioux county will have another line of railroad in the near future. A mortgage has been placed on record on what is supposed to be the line of the Sioux City & Ogden, better known as the Oregon Short Line, running across the south part of the county. Of course there is nothing certain about a railroad until it is built, but this action looks favorable. The road will not come near Harrison, but will materially help in the settlement of that part of the county and as a consequence Harrison will derive some benefit therefrom.

—The change in time on this line of the Elkhorn appears to have been only for temporary purposes, as it is reported on pretty good authority that a passenger train will be put on the first of the week, connecting with what is known as the Black Hills express, at Chadron. This will make it so that the passenger will arrive here at 6 a. m. from the east and about 7 p. m. from the west. It is also stated that a sleeper will be attached to the train. It takes a little time for the Elkhorn people to get a matter in shape, but they generally try to protect their interests. It is rumored that the B. & M. will change its time so as to hold the east bound passenger until the Elkhorn passenger arrives from the west, but people will not care to change provided they can get just as good accommodations on the through line. The people along this line will be benefited by the rivalry between the two roads and it is safe to say that the travel on this line will be largely increased when the new train service is established.

Best Line to the East.
The Burlington Route B. & M. R. R. is running elegantly equipped passenger trains without change from Newcastle, Wyoming and Crawford, Nebraska, direct to Lincoln, Nebraska, making connection at that point with their own through all trains for Denver, Cheyenne, and all points west, and for Kansas City, St. Joseph, St. Louis, Omaha, Peoria, Chicago, and all points east.

Remember this is the only line by which you can take sleeping car from Chadron in the evening arriving in Lincoln and Omaha the next afternoon, and in Chicago, Peoria and St. Louis the following morning.

For further information and tickets apply to nearest agent of Burlington Route B. & M. R. R.

WEIR & CO.,
To the Legal Voters of School District Number 7.

A petition signed by a number of the legal voters of school district No. 7, requesting a special school meeting to be called on Dec. 30, 1889, has been handed to me. There not being sufficient time between the receipt of said petition and the date named to give legal notice, and said petition providing for the election of a school district treasurer, when no vacancy exists, I do not deem it necessary to take any official notice of said petition. If a special meeting is desired let a legal request be made therefore and it will receive proper attention.

Respectfully,
S. L. R. MAINE, Director.

For pain in the stomach, colic and cholera morbus there is nothing better than Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by C. H. Andrews.

A son of Mr. M. D. Pusser, a merchant of Gibraltar N. C., was so badly afflicted with rheumatism for a year or more, as to be unable to work or go to school. His father concluded to try Chamberlain's Pain Balm on his boy. It soon cured him and he has since walked one and a half miles to school and back every school day. 50 cent bottles for sale by C. H. Andrews.

The Fremont, Elkhorn & Missouri Valley Railroad, (The Northwestern Line,) extends to its patrons and friends a "Merry Christmas" and "Happy New Year," and for the purpose of enabling them to visit their kin-folks during the holidays, will sell excursion tickets December 24th, 25th, 30th and January 1st, good returning January 3rd, at one fare for the round trip, between all stations within a two hundred miles limit. Any agent of the F. E. & M. V. R. R. will give full information as to the sale of tickets, limits, &c.

The New Photography.
Photography is certainly a most interesting and delightful study, and the results obtained by means of the improved system of film photography are so beautiful, and the apparatus employed so simple, it is no wonder thousands of our most cultured people are becoming enthusiastic amateurs. The most ingenious, and it seems by far the most popular in use among experts and amateurs alike, is the Kodak, a little instrument measuring but 3 1/4 x 3 1/4 x 6 1/4 inches, and weighing only 32 ounces. It is a complete photographic outfit, with lens, instantaneous shutter and material for making one hundred negatives, and so compact and neat in appearance, that any lady can carry it without making herself in the least conspicuous. The Eastman Dry Plate & Film Co., of Rochester, N. Y., are the makers, to whose advertisement in another column we call attention.
