Governor Thayer has issued his proclamation, designating April 22d as Arbor Day. This day is set apart for the planting of trees, and it is to be hoped that the day will be generally observed and a large number of trees planted.

A legal sensation occurred at Rushville last week by a juror in a case in the district court charging the bailiff with bribing the jury to secure a verdict in favor of a man by the name of Chamberlain. Judge Kinkaid at once ordered an investigation and as he has a fashion of getting at the facts, it is safe to say that ample justice will be done in the

Van Wyck is a candidate for governor and will attempt to create a third party with a hobby on which he can ride into office. It is just such men as him that make all attempts at united action on the part of the farmers prove failures. The idea of Van Wyck setting himself up as a leader of the people is enough to disgust all honest men. If a man is sincere in his pretentions as a friend to the laborer and farmer it is all right to accept, but for a chronic office seeker to as if the voters of Nebraska were not

Some of the papers of the state are attempting to make a point against Attorney General Leese by showing how much the state is paying the Leese family in the way of salaries. It is all right to state the facts in the matter but it is not right to go beyond the facts. To assert that he or his daughter or brother is getting such large salaries as claimed foolish and does no harm to Mr. Lesse, but instead will react on the person who made the statement. It is certainly true that Mr. Leese made assertions which he failed to prove before the in terstate commission and as a result be has been lowered to quite an extent in friends. Had he done as he said he would do at that time he would have received credit for it, but his failure has caused many to doubt his sincerity in his on as the true friend of the people. For what he has done to correct wrongs he should be duly honored, but if he is only attempting to make a show for the purpose of being continued in office, the people will certainly resent his actions.

THE JOURNAL believes this to be the best, and, in fact, the only way by which the finances of Sioux county can be placed on a cash basis and the credit of the county redeemed, and also believes that a majority of the voters and taxpayers of the county will agree with into this matter without due consideration. The farmers have been discussing the matter to quite an extent, and to assist in getting the matter fairly before the people the columns of THE JOURNAL are open for communications, either fav pose as the friend of the poor man looks orable or unfavorable to the proposition by bonding.

It is a significant fact that most of the gentlemen whose names are attached to the document have been mentioned as candidates for some office.

The call for a convention in May is not advisable as at that time the farmers are too busy to attend to political matters and the result would be that the class who are urged to be present or represented could not be there. The holding of the state nominating convention early in August is also a bad idea for the same reason and in addition to that it would make so long a campaign that no one except a rich man could afford to at tempt to make the race. It would seem much better to have candidates for the various state offices announce them the estimation of a great many of his selves early and let their fitness be dis cussed before the convention is held. Should the convention be held early and men placed on the ticket who did not suit the people the result would be de feat at the polls, while if their qualifications and integrity was investigated before nominations were made, good se lections could be made, and the republican party strengthened as a result, while if the course outlined by the manifesto is followed it cannot but endanger the party strength.

Walker has found about \$2,000 of such expenditures and fees and has not got near through with his task yet.

The ring organ cites that no expert has been employed to look up the records. It is well known that the finances of the county were in such a state that it was necessary for the board to go very slowit in that respect. It is not desired to go by until they got matters in shape to pay the running expences of the county. The treasury depleted and a large floating debt hanging over the taxpayers was a very discouraging prospect for the new officers. But the records are in such a condition that anyone who will take the pains to look it up can find of funding the indebtedness of the county gross errors, over charges and payment of funds which there was no law to war rent. The entire article of the fusion

ring organ is nearer an array of mis statements than of facts and it looks as if they did not desire an investigation by a grand jury.

The fact is, that the people are desir ous that an investigation be had and they are becoming tired of such misrepresentations as are frequently being made by the Herald, and it is to be hop ed that after the matter is investigated and wrong-doers punished that the gang and its organ will be satisfied. The attempts of the Herald to bolster up the acts of the old county officials do not change the records and the only thing that can make it right is to nunish those who have wronged the public and proven untrue to their official capacity, and the people who stood by the principles of right at the polls last November and who came here on the 9th of January to see that justice was done, will continue to stand by their principles until the old gang, who have put a heavy burden of Due and payable when the mare debt upon them, are made to feel that the people is not defeated by any outfit ownership. that has no other apparent use for the public than to get all the money possible

BAY BOB Is a bright bay weighing 1,300 pounds in ordinary condition and was sired by a thoroughbred and imported Englishshire horse, and his dam was a Belmont mare with splendid action.

The above pedigree gives Bay Bob the qualifications for a good general purpose horse, and he has proved himself to be a fine breeder and a sure foal getter. Men wishing to breed to a good stallion should see this horse before breeding elsewhere.

TERMS-48 to insure a mare with foel, due and parable when the mare is known to be with foul. Single service 84, cash.

Parties disposing of mares or who falls to return them regularly will be held responsi-ble for service money. Care will be taken to prevent sceldents but I will be respond ble for none.
