—Paints and oils at the drug store.  
 —School closes in less than two weeks.  
 —Feed and grain for sale at Smith Bros. livery barn.  
 —Harness made to order out of No. 1, oak leather, at Cunningham's.  
 —We want a large number of people to take advantage of our new clubbing offer.

—Call and see the complete line of harness, saddles, whips, lap-dusters, etc. at the harness shop.  
 —If you want the very best terms on farm loans, go to the Bank of Harrison before making application elsewhere.

—G. W. Himes has his windmill and pump running in good shape and says he would rather have it than to have a running stream on his place.

—Horsemen—my fine stallion "Norman" can always be found at my farm 1 mile southwest of Harrison.

R. WILSON.  
 —The village board do not like an injunction very well. Perhaps a mandamus would be equally unpleasant. If the law is complied with that is all that is asked.

—Rev. I. F. Lusk is hard at work on the census. He thinks it will keep him busy the entire time allowed for the work.

—The papers in the first case of real estate foreclosure in Sioux county were filed by Atty. H. T. Cooper.

—It is reported that Judge Kinkaid has decided the case of school district No. 1, vs. E. C. Lockwood, et al., in favor of the plaintiff. The docket entry has not yet been made up.

—The farmers are already beginning to talk harvesters and threshing machines to get their grain ready for market, and the next thing needed is an elevator and mill at this place to handle the grain after it is threshed.

—When parties go to the trouble of putting up guide-boards at forks of the roads in the south part of the county for the benefit of the traveling public, it is hardly in keeping with the public spirit for some one to tear them down repeatedly.

—County Clerk Lindeman informs us that he has been notified by the state auditor that the appropriation for the payment of bounty on the scalps of wild animals is exhausted, so that no more bounties need be applied for.

—A pension of \$12 per month from date of issue and for \$4 per month for eight years prior to that has been allowed to D. P. Davis of the Herald firm. That makes a nice little sum of money to come to a person.

—This office is in receipt of a potato of this year's growth, which was dug about the first of June, plenty large enough for table use. It was grown by H. T. Merriam, on his place a few miles from town and speaks well for the outlook for that kind of vegetables.

—The infant child of Mr. and Mrs. Geo. Stephens died on Monday of congestion of the bowels, the funeral occurring yesterday at 10 o'clock from the family residence south of town, Rev. I. F. Lusk conducting the service. The bereaved parents have the sympathy of all in their affliction.

—James Scott is still suffering from sore eyes. He has also been subjected to severe pains caused by neuralgia, but Dr. Shafer informs us that he will soon stop that. The difficulty with his eyes may require treatment for some time, but it is hoped that they will be all right after a time.

—C. E. Holmes, of the Bank of Harrison, received an invitation yesterday morning to come to Alliance and deliver the oration there on July 4th. Mr. Holmes addressed the people of that place in behalf of the principles of the republican party during the campaign of 1888, and so well were the people pleased with his oratorical powers that they want him to come and fly the eagle on Independence Day. If the invitation is accepted the people of Alliance can depend on having a good speech.

—For farm loans go to S. H. Jones.  
 —For mixed paints, oils and varnishes go to the drug store.

—By taking advantage of our new clubbing offer you can get a large amount of good reading for a small amount of cash.

—By the June apportionment of the state school fund Sioux county is entitled to \$516.60. The rate per scholar is a little less than 89 cents.

—The ladies' aid society met at the M. E. parsonage on Wednesday afternoon and the following officers were elected: Miss Minnie Smith, president; Mrs. C. E. Verity, secretary; Mrs. E. D. Satterlee, treasurer. The society meets next Wednesday afternoon at the residence of Mrs. E. D. Satterlee.

—Treasurer Gayhart remarked while here the first of the week that he expected to come to the county seat in the near future and take a hand in looking after the delinquent taxes, which should have been paid into the treasury long ago. Those indebted to the county need not be surprised if an officer comes to interview them, armed with a distress warrant.

—A party living a couple of miles out of town occupied about a column and a half of the last issue of the Herald with a statement regarding the finances of the village, in which he makes the situation as clear as mud. It is not an official statement by the board of trustees as the law provides shall be published, so it does not fill the bill.

—Supt. Southworth made a trip to the "bad lands" a few days ago and was rewarded by finding a number of very nice petrifications. Among the lot was a perfect egg and also one that had been crushed; some young ducks which had also turned to stone, and a number of pieces of bone, wood, etc., making quite a collection. A great many curiosities are to be found in the localities known as the "bad lands."

—The report comes to us that a few days ago the little child of A. E. Gates, of White River, met with a terrible accident, having been kicked in the head by a horse. The little one was taken to Fort Robinson and the post surgeon dressed the wound. It was necessary to remove a part of the skull, and the child is now in a bad way.

—We are informed that W. B. Wright has handed in his resignation as a member of the board of village trustees. It is apparent that he does not feel like being one to attempt to get the matters of the village in shape, after they have got into the condition they are said to be in. Unless the public affairs are run according to law, trouble is certain to follow, for people have got tired of having things run hap-hazard.

—On last Saturday, the suit of Hans Denker against E. C. Lockwood and D. W. Woody for damages done to the crop of the former by the stock of the latter, came up in the county court. No defence was attempted except to show that it was for damage done at the same time for which the replevin proceedings were begun before J. W. Hunter and certified to the district court, on account of the stock being appraised at over \$500. The result was that the court rendered judgment for the plaintiff in the sum of \$46, the costs being taxed to the defendants, amounting to about \$35. As soon as it was admitted that the case was for the same damage for which the stock was taken up, the defence left the court room and let the plaintiff go on with the case alone, but why such a course was taken is hard to surmise.

—The board of county commissioners met on Monday, expecting to find the bond of the expert ready for approval, but instead of a bond it was found that he had backed out and would not give the bond required. That settled the matter, for the board do not want the books examined unless the party doing the work guarantees that it is correct. On Tuesday the board began its work as a board of equalization, and will probably remain in session for that purpose the remainder of this week and all of next week. The returns show that the assessment is much lower this year than last, a number of items listed in previous years being left out this year altogether. The total will be about the same as last year as near as can be estimated at present. The state auditor has not yet sent in the assessment of the railroad lines in the county, and the board will be obliged to remain in session until that is received even if they get the rest of their work gone before that time. So far there has been no complaints of assessments being too high. The levy will have to be the same rate as it has been every year since the county was organized, 15 mills on the dollar valuation, and it will require pretty close figuring to have much, if any surplus to apply on the outstanding indebtedness. The expenses of 1890 will have to be paid first and what is left will then be applied on the old debt.

—No real, genuine county attorney yet? Our fighting county attorney may still stand a show.

—A frost on the night of June 6th in this locality nipped the corn, potatoes and garden truck and its effects are also noticeable on the small grain.
