As to the speech quoted from so freely y the Herald, we venture the assertion ithout fear of successful contradiction hat the only delivery Mr. Dorsey made f that speech was when he delivered the nanuscript to a page to take it to the roper clerk to have it printed to send ut to his constituents for campaign puroses. At any rate no mention of his peech was noticed in the reports from ashington. In voting to commit he bill to the committee on coinage. weights and measures, Mr. Lorsey voted place the bill in the hands of men wis ere directly opposed to the free coinage f silver. The arguments of "liar" 'falsehood" etc., contained in the Herald we the weight usually given to such

Judging from the resolutions adopted y the Dodge county republican convenon which appear in another column of his issue, it looks as if the republicanf l'odge county do not want Mr. l'or ey to be returned to congress. When sown county goes back on him it ould seem that the proper thing for m to do would be to announce the fact at he would not be in the field. The -mocrats of the district desire that Mr orsey be nominated for a fourth term ir they entertain the idea that he would defeated at the polls if he was suc saful at the convention. The report om almost all parts of the third dis rict are that the republicans are averthe return of Mr. Dorsey and that h losing strength all the time, and the rospects are that he will be badly deated when the convention casts the ciding ballot.

The editor of the fusion-ring organ akes a great how because the republi recognize the mongrel organization of hich he is chairman, and says it wa mley and Simmons who would not con lidate. It is admitted that both of the en named were opposed to recognizing e fusion outfit in any manner, but th et is neither of them had a vote or the sestion, as one was chairman of the mmittee and the other does not belong the committee at all. If any one wil ok over the list of names of those or e republican committee, and take into ration the fact that there was but ne vote in favor of entertaining the ill be quite evident that the two par ntioned did not run the commit-. The idea of any one or two men tempting to run a committee com osed of such men as Eli Smith, J. A. reen, A. E. Gates, Carl Feverberm, W. V. Hall, A. Southworth, C. E. Holmes, . D. Green, T. B. Snyder, S. R. Story nd Chas. U. Grove is a little too absurd merit serious attention. The gang to hich the chairman of the fusion comittee belongs has attempted to "work" ome of the men named, but they did not eccomplish their object.

The last issue of the Lorsey-postoffice usion-ring organ contained a lengthy erticle in regard to what THE JOURNAL ad mid as to Mr. Dorsey's position on the silver bill. Some time ago the con man from this district issued a let er in which he stated that he was not in avor of the free coinage of silver. The mahs Bee of June 26th contained the ollowing, signed by its Washington cor

In the contest for the republican gu bernatorial nomination, it is Hon. L. D. Richards against the field. John M. Thayer is not a remote possibility, Jack Me 'oll will have quite a following, and the other fellows will have enough local beelers. Those who are personally acquainted with Mr. Richards have the utnost confidence in his sterling integrity. und his acquaintance with the wants of the state, his energy and enterprise, fit him for the position of governor as a shoe fits a fort. For that reason the Sentinel favors his candidacy and will do ause. - Columbus Sentinel.

The Lincoln Journal of June 29th conained a long article by the state geolorist, Prof. L. E. Hicks, on irrigation He notes the fact that congress has exsended a vast amount of money for rrigating purposes in the mountainous listricts but has done nothing for the creat plains east of the foot hills of the Rocky Mountions to the ninetyeventh meridan, which is the east line f Sheridan and Level counties in this tate. Prof. Hicks states the fact that the rainfall in the territory named is suflcient for agricultural purposes if it only came at the right time, but as it loes not always do that he believes it to e the duty of congress to assist in the work. He further states that the soil is very fertile and only lacks moisture at the right time to make it produce excelhe right time to make it produce excel-

tate convention. The following resoluions were unanimously adopted:

WHEREAS, Our fellow citizen, L. D. Richerds, is being favorably meetiloued at bouse and abroad, as a candidate for the office of governor; and
WHEREAS, Through his residence of twenty-two years in this county we know him to

WHEREAS, We believe him to be a man who will, so far as any human agency can, promote the highest development and best sointion of the apparent conflicting interests of the state of hebrasis, and that without fear or favor, therefore be it.

RESOLVED, That the republicans of Dodge county in convention assembled asking to other recognition for any other candidate from the party of the district and the state at large, deem it a pieusure to give him our individual support and we instruct the delegation to be state convention to present to that body the name of L.D. Richards and use every honorable means to secure his comination for governor.

The Hemingford Guide in a mistal and for Lorsey, makes an uncalled for and saedless attack upon Judge M. P. Kinknis, charging that he has been enand he has actually accomplished but one thing—the erection of a public building at Fremont. This is all that his two and three per cent. a month. The gaged in loaning money for years to the farmers of Holt and Brown counties at home paper seems to be able to say in attack is uncalled for because everybady his favor, and we dont know as that amounts to a great deal, as every man in congress has secured the erection of all the way from one to five such build-siderable criticism among the loaners by A. 8.
