—Harness made to order out of No. 1 oak leather, at Cunningham's.
—Remember the republican primaries next Wednesday, July 16th.
—Call and see the complete line of harness, saddles, whips, lap-dusters, etc. at the harness shop.
—If you want the very best terms on farm loans, go to the Bank of Harrison before making application elsewhere.
—Parties having stock to pasture will do well to see E. A. Weir, at the Ranch Supply House. Plenty of good grass and water.
—Sawmill Lumber: We have a good supply of seasoned lumber constantly on hand at our mill on West Bojky.
—Mr. and Mrs. C. C. Jamison welcomed a bouncing son to their home on July 4th. All concerned are doing well.
—The ladies aid society met at the residence of Mrs. E. D. Satterlee yesterday afternoon. On next Thursday, they will meet at the residence of Mrs. L. J. Simmons.
—The only accident that occurred here on July 4th, befell Charles Dixon. He fired a morning salute but the gun exploded and his left hand was somewhat injured, but no bones were broken.
—The last quarterly meeting of this conference year will occur at the M. E. church on Sunday, July 27th. All interested are requested to be present.
—On last Sunday, Rev. I. F. Lusk took nine new members into the church at his appointment in the valley. This is certainly encouraging to the organization.
—T. O. Williams had the misfortune to have a horse badly injured a few days ago. He was visiting relatives in Wyoming and his horse got to running and came in contact with a wire fence and got badly cut.
—There are no complaints on account of lack of a water supply at Harrison of late. Farmers and travellers always find a plentiful supply of water in the public reservoirs.
—It is reported that the cattle on the ranges are in better condition this year than they have been for a number of years. The market is better than it has been for some time. The result will be a prosperous season for the stockmen.
—E. E. Livermore has just completed a well on his farm. He dug it and the cost was very small except his labor. He struck excellent water at the depth of one hundred and twenty feet, but intends to go a little deeper in order to be certain of a good supply.
—On or about July 15th Mrs. H. A. Cunningham will open a nice stock of millinery, and will conduct a dressmaking department in connection. This lady has had a large experience in the millinery and dressmaking business and will be able to give good satisfaction to all her patrons.
—Republicans are urged to turn out to the primaries on Wednesday, July 16th. Under the rules adopted by the county central committee each man has the right and privilege to vote for the men he wants for delegates to the county convention and also for what precinct officers there are to elect.
—Republicans do not be deceived in regard to the date of the primaries. The republican primaries will be held on next Wednesday, July 16th, from 3 to 6, under the rules adopted by the county central committee. The fusion ring outfit have their meetings on Tuesday, the day previous.
—Teachers of Sioux county should bear in mind that there are a number of prizes for exhibits of school work made at the institute which opens on one week from next Monday. It is hoped that as many school officers and patrons as can will attend the institute. Every one present aids to the interest of the occasion.
—H. T. Conley received a letter a few days ago from John W. Lambert who owns the quarter section of land adjoining Harrison on the west, in which he spoke of laying off a portion of his land in blocks and putting it on the market. The property is in a very desirable locality and it will not be many years until it will become valuable.

—The Andrews drug store is again doing business. As soon as the sale closing a good portion of the goods were placed on the shelves and the regular business carried on.
—The latest business venture in Harrison is the addition of a woodwork department to the establishment of E. M. Carrier. It will be in charge of Asa Davis, who can always be found ready to do anything in the line of wagon or carpenter work. Call and see him.
—Work has been commenced on the foundation for the new residence of G. Guthrie on the lots north of the M. E. church. The house is to be 26x25 feet, one story high. Mr. Guthrie expects to occupy it some time in September.
—The place of holding the basket meeting next Sunday has been changed to B. B. Bixby's grove, as that will be more convenient to a majority of the people. Preaching in the morning and children's meeting in the afternoon. All are invited to attend.
—Last week rain fell in most parts of the county. On Monroe creek a good deal of hail fell and some damage was done to crops. A small sized flood carried away a large quantity of meat and washed away the smoke house of Chas. Shift.
—The picnic at Phipps' grove on the fourth was fairly well attended and a pleasant time enjoyed by all. The exercises consisted of music and short addresses by Rev. I. F. Lusk, L. O. Hull and others, the enjoyable basket dinner and picnic sports and all returned home well satisfied with the pleasures of the day.
—The base ball boys, accompanied by a number of our citizens, went to Lusk on the 4th. The boys say that they were treated as good as could be by the people of Lusk except on the diamond and there they were used to "mop up the earth" by the knights of the lat who reside across the state line. A jolly time was had and the Lusk players are expected to come to Harrison in the near future to try a second game but the exact date has not yet been decided on.
—Rev. H. W. Stearns arrived as announced and on Sunday morning organized a Sunday school with the following officers: Mrs. S. C. Bassett, supt.; J. H. Bartlett, assistant supt.; J. E. Marsteller, sec.; Frank Smith, assistant sec.; Mrs. H. T. Conley, Treas.; W. B. Weight, Librarian; Miss Minnie Smith, chorister. Sunday school at the church next Sunday at 10 a. m. Lesson: Luke XIV, 15-24. Subject: "The Great Supper." Gospel Text: "Blessed is he that shall eat bread in the kingdom of God." All are invited to attend.
—A heavy cloud came up from the southwest on Tuesday evening. Rain fell for about two hours and it was no sprinkle either. A few hail stones were mixed in but amounted to nothing. The storm was accompanied by a great deal of thunder and lightning and two buildings in this place were struck by the fluid. The chimney on the building belonging to E. L. Galpin and occupied by H. T. Conley, was pretty badly demoralized. The bolt evidently passed down the outside of the stove pipe to the floor, where it made a hole in the board similar to the work of a bullet, doing no damage except to the chimney. The other building damaged was the M. E. church. The lightning struck the west end of the roof and damaged the windows and siding all over that end of the building, but did not set it on fire. The church was insured and consequently the loss will not fall on the society. It was fortunate that both buildings were unoccupied at the time so that no one was injured. The reports are that the rain was quite general west and north of here, and will do a great deal of good.

A new law has recently gone into effect in regard to land entries. Under this law the official acts of notaries public are greatly restricted, and most of the business has to be done by U. S. Court Commissioners or clerks of a court.

"For some years, at the return of spring, I had serious trouble with my kidneys. I was unable to sleep nights, and suffered greatly with pains in the small of my back. I was also afflicted with headache, loss of appetite, and indigestion. These symptoms were much worse last spring, especially the trouble with my back. A friend persuaded me to use Ayer's Sarsaparilla. I began taking it, and my troubles all disappeared."
